1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	GAP	Crowley Millar does not appear as a direct result in the summary top 10 for any of the 7 money searches that returned results. It is visible for its own name, through people and service pages.
Brand search	STRONG DEPTH	For "crowley millar", Crowley Millar pages fill summary ranks 1, 2, 3, 4, 6, 7, 8 and 9. The first two are direct: Miriam Doyle at #1 and Residential at #2. The homepage itself is not #1 in that summary.
AI visibility in search	NOT RETURNED	No SERP AI Overview was returned for any of the 10 searches attempted, 0 of 8 successful searches. Live Gemini, Bing and Google AI Overview checks were not done in this audit and are not claimed.
Page structure	MOSTLY CLEAN	10 of 12 audited pages have exactly 1 main heading. The homepage has 0, and the Dublin office page has 2, both "Drop Us A Line".
Meta descriptions	FIX	11 of 12 audited pages have meta descriptions over 160 characters, up to 337 characters. The homepage is the exception at 102 characters, and its title is 74 characters.
Images	STRONG	0 of 108 images missing alt text across the 12 audited pages.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

Biggest issue: Clients searching for a Dublin solicitor by practice area do not see Crowley Millar in the summary top 10 in this run, while clients searching for the firm by name do. The gap is practice area visibility, not name visibility.

Quickest win: Give the homepage one clear main heading, fix the Dublin office duplicate heading, and rewrite the overlong meta descriptions, starting with the money pages.

2 Where you rank on Google today

Google Ireland, Bright Data SERP API, 4 November 2026, market ie. Summary titles are named where the summary title names a firm; most summary domains were Google redirect entries, so final destinations are not verified from the domain field, except where noted as direct.

SEARCH	WEBSITE	SUMMARY TOP RESULT
solicitors dublin	Not in summary top 10	Find a Solicitor, then Setanta Solicitors, KM Solicitors, Murray Flynn
corporate solicitors dublin	UNVERIFIED, 502 on first run and retry	None, no organic record returned
commercial litigation solicitors dublin	Not in summary top 10	Reddy Charlton LLP, then Philip Lee LLP, Peter Boyle and Co.
commercial property solicitors dublin	Not in summary top 10	Hayes Solicitors LLP, then Paul W Keogh LLP
employment solicitors dublin	Not in summary top 10	Doyle and Company LLP, direct domain, then Alastair Purdy LLP, Seamus Maguire Solicitors
probate solicitors dublin	Not in summary top 10	Probate Ireland, then J R Plunkett Solicitors
wills solicitors dublin	Not in summary top 10	Seamus Maguire Solicitors, then Sherlock and Co.
insurance solicitors ireland	Not in summary top 10	Shanahan O'Sullivan Legal, then Motor Insurers Bureau of Ireland, FBD Insurance Ireland
crowley millar	Direct #1 Miriam Doyle, direct #2 Residential	Crowley Millar pages at ranks 1, 2, 3, 4, 6, 7, 8 and 9
solicitors ifsc dublin		None, no organic record returned

	UNVERIFIED, 502 on first run and retry

The pattern is clear: name searches work, through people and service pages. Practice area searches do not yet carry the firm into the summary top 10 in this run. Two searches, corporate and IFSC, could not be measured at all in this run, and must not be reported as ranked or unranked.

3 What AI says in search results

SERP AI Overview data only, Bright Data SERP API, 4 November 2026. Live Gemini, Bing and Google AI Overview browser checks were not done in this audit. AI answers change day to day.

No SERP AI Overview returned: 0 of 10 searches

No ai_overview key was returned in any of the 8 successful SERP records, and no organic record was returned for the 2 failed searches. Crowley Millar is therefore named in 0 SERP AI Overviews in this run, because no overview was returned to name it in.

What this does not mean

It does not prove that a conversational AI tool would give no answer, and it does not prove that Crowley Millar would not be named there. It only proves that the SERP API returned no overview in this run. A live Gemini, Bing and Google AI Overview check is still needed before any conversational AI claim is made.

Do not quote an AI mention, an AI ranking, or an AI price from this snapshot, because none was returned in the SERP data used.

4 What is holding the website back

12 URLs audited on 4 November 2026, 6701 words, 108 images, 0 missing alt text.

Practice area pages do not carry search - HIGH

No money search that returned results shows Crowley Millar in the summary top 10. The money pages also tend to be thin: property 374 words, insurance 391, employment 426, wills 437, commercial litigation 450, Dublin office 463, about 481.

Homepage heading missing, Dublin office heading duplicated - HIGH

The homepage has 0 H1s in the audit tool output, and the Dublin office page has 2 H1s, both "Drop Us A Line". The other 10 audited pages have exactly 1 H1 each.

Meta descriptions over length - HIGH

11 of 12 meta descriptions are over 160 characters: commercial property 337, corporate law 336, about 315, property 308, wills 297, employment 295, insurance 294, commercial litigation 290, probate 268, people 225, Dublin office 204. The homepage is 102 characters and its title is 74 characters.

Corporate and IFSC searches unverified - MEDIUM

Both searches returned Bright Data 502 errors on the first run and on retry. Re-check them once the errors clear, and do not report a position for either until then.

Only shared schema - MEDIUM

Every audited page reports the same template: BreadcrumbList, EntryPoint, ImageObject, ListItem, Organization. No FAQ schema was reported, and no LegalService or Attorney type was reported in the audited set.

Speed - NOT MEASURED

PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

What is already working: 0 of 108 images missing alt text. All 12 audited pages canonical to themselves. The site has an llms.txt file, a clear robots file, and the law@crowleymillar.com contact address is confirmed on the homepage. The homepage loaded normally in this check, with no migration notice seen in the fetched text.

5 How you compare

From SERP summary titles, 4 November 2026. Most summary domains were Google redirect entries, so these are summary titles, not verified direct-domain competitors, except where noted as direct.

BRAND OR FIRM	WHAT THE SUMMARY SHOWS IN THIS SNAPSHOT
Crowley Millar Solicitors (you)	Strong brand depth through people and service pages. No summary top 10 result for any money search that returned results.
Doyle and Company LLP	Direct domain #1 for employment solicitors dublin in this run.
Hayes Solicitors LLP	Summary top result for commercial property solicitors dublin and a summary title for solicitors dublin.
Reddy Charlton LLP	Summary top result for commercial litigation solicitors dublin.
Philip Lee LLP	Summary title for commercial litigation solicitors dublin.
Seamus Maguire Solicitors	Summary top result for wills solicitors dublin, and a summary title for employment and solicitors dublin.

The gap is not that other firms are unknown. It is that their practice area pages are the ones the summary shows, while Crowley Millar practice area pages are not shown in the summary top 10 in this run.

6 Quick wins, in order

- Give the homepage one clear main heading, and fix the Dublin office duplicate heading.
- Rewrite the 11 overlong meta descriptions, starting with commercial property, corporate law, about, and property, and expand the homepage description from 102 characters.
- Shorten the homepage title from 74 characters.
- Strengthen the thin money pages with the questions clients actually ask, starting with property, insurance, employment, and wills.

- Give corporate and IFSC searches a page that can rank, and re-check both once the SERP errors clear.
- Add FAQ schema to money pages and a LegalService or Attorney type where it fits, after checking each page individually.
- Give the Dublin office page a local search job: one heading, the IFSC address in plain text, and links from the homepage and service pages.
- Keep the image alt text standard: 0 of 108 missing in this set.
- Track the 8 successful searches plus the 2 unverified searches from this dated baseline.

7 What this becomes in 90 days

Days 1 to 30 - Fix the foundations

Headings, meta descriptions, and homepage title. Baseline tracking of the 10 Google searches, dated 4 November 2026.

Days 31 to 60 - Build the answers

Thin money page rebuilds, FAQ and LegalService schema checks, Dublin office page rebuild.

Days 61 to 90 - Get named

Review results, re-check corporate and IFSC searches, check whether money searches have moved into the summary top 10, and set next quarter targets.

What you get every month: AI visibility tracking across the same questions, Google rankings tracking, one to two practice guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

A fair way to start: A 3-month starting term, clear targets agreed up front, then month to month. We do not promise number one rankings or guaranteed AI mentions, because nobody honestly can. We promise the work, and a report that shows you exactly what it did.

How we did this. We read 12 URLs on 4 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Ireland results were collected via Bright Data SERP API on 4 November 2026, market ie. A sponsored snack_pack was returned for solicitors dublin only, with no business names in its structured fields, so no map position is claimed. Speed: PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; no overview was returned in this run, and live Gemini, Bing and Google AI Overview checks were not done. Public information only, no logins. This report is complimentary and confidential to Crowley Millar Solicitors. Unverified in this snapshot: PageSpeed score, corporate and IFSC rankings, map positions, review ratings, sitemap counts, and any conversational AI result.
