COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How buyers and sellers find O'Donnellan & Joyce on Google and in AI answers

We checked your website, your Google rankings, and what SERP AI Overviews say. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
O'Donnellan & Joyce
Galway, estate agents and auctioneers

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 Nov

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	MIXED	ODJ is #4 for property for sale galway, #4 and #7 for property auction galway, and #5 for property valuations galway. It does not appear in the summary top 9 or 10 for the other 7 searches in this run.
AI visibility in search	PARTIAL	SERP AI Overviews were returned for 5 of 10 searches. ODJ is named in 2 of those 5, first for both estate agents galway and auctioneers galway. Live Gemini, Bing, and Google conversational checks have not been done yet.
Page structure	FIX	The audit tool found 0 H1 elements on all 9 measured pages. Browser rendering shows section headings at H2 level, so one clear H1 per money page is the fix.
Images	FIX	The audit tool counted 104 of 104 images with no alt text across the 9 measured pages. This is a tool count, to be spot-checked in page code.
Business details	STRONG	Organization, Place, and PostalAddress schema appear on every measured page, plus page-specific types and SearchAction on the homepage. No FAQ schema was found in the measured set.
Reviews and maps	NOT VERIFIED	No map position and no verified rating are claimed. A SERP map image was returned for 6 searches, but the record contained no place list.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

Biggest issue: AI Overviews name ODJ first for estate agents galway and auctioneers galway, yet neither search shows ODJ in the organic summary top 10 in this run. Strong in AI answers, weak in organic top 10 for the same searches, is the central gap.

Quickest win: Fix the valuations request form error. The valuations page, which already ranks #5 for property valuations galway, shows "Error: Contact form not found" under Request a valuation in a browser fetch on 4 November 2026.

2 Where you rank on Google today

Google Ireland, Bright Data SERP API, 4 November 2026. Competitor names are taken from the source and display link fields in the raw SERP record.

SEARCH	WEBSITE	PAGE GOOGLE SHOWS	WHO IS AHEAD IN THE SUMMARY
estate agents galway	Not in summary top 10	None	Collerans, Farrell, Tribal Property, John Dolan
auctioneers galway	Not in summary top 10	None	MyHome.ie, John Dolan, Farrell, Rooney, Mulryan
houses for sale galway	Not in summary top 9	None	Daft.ie, MyHome.ie, Fair Deal Property
property for sale galway	#4	Homepage	Daft.ie, Matt O'Sullivan, MyHome.ie
sell house galway	Not in summary top 10	None	John Quinn, DNG Galway, Savills
property auction galway	#4 and #7	Auction results, availabilities	Collerans, DNG Galway, iamsold
property valuations galway	#5	Valuations page	BV Real Estate, Tarpey Maloney, DNG Galway
mortgage valuations galway	Not in summary top 9	None	AIB, Tarpey Maloney, Collerans
commercial property galway	Not in summary top 9	None	Daft.ie, PropertyPal, BV Real Estate
lettings galway	Not in summary top 10, search too broad	None	

	Generic Galway tourism and city pages, no agent page in top 10

The pattern is clear: ODJ wins where the search matches its own auction results, valuations, or homepage for property for sale. The two most obvious money searches, estate agents galway and auctioneers galway, do not show ODJ in the summary top 10 in this run.

3 What AI says in search results

SERP AI Overview data only, captured through the SERP API, 4 November 2026. Live Gemini, Bing, and Google conversational checks have NOT been done. AI answers change day to day.

Named in SERP AI Overviews: 2 of 5 returned

Estate agents galway: ODJ named first, described as a prominent independent real estate agency and auction house in Galway City Centre, handling residential sales, commercial properties, and auctions. Auctioneers galway: ODJ named first, with address 5 Mary Street, Galway City, described as an independent auction house and real estate agency with over 40 years of experience. That is a real AI strength to keep in plain text on the homepage.

Not named in a SERP AI Overview

Houses for sale galway, property for sale galway, and property valuations galway: overviews were returned, but ODJ is not named in the overview text seen. Those overviews point to Daft.ie and MyHome.ie, and for valuations they name Michelle Burke, DNG Galway, Keane Mahony Smith, and Long and Co as examples.

No SERP AI Overview returned

No AI Overview was returned in the SERP API record for sell house galway, property auction galway, mortgage valuations galway, commercial property galway, or lettings galway in this run. That does not prove a conversational AI tool would give no answer. Those tools have not been checked yet.

AI answers change day to day. These are SERP AI Overview answers on 4 November 2026, not verified company facts, and not a promise of future mentions. No conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 4 November 2026, 9 measured pages, 21363 words in measured content, 104 images in measured content, 104 counted missing alt text by the audit tool. Three pages were loader-blocked in the unlocker run and are not counted here.

No H1 element found - HIGH

The audit tool found 0 H1 elements on all 9 measured pages, while browser rendering shows section headings at H2 level. Give each money page one clear H1, starting with homepage, valuations, auctions, and the selling and buying guides.

Valuations form error - HIGH

The valuations page shows "Error: Contact form not found" under Request a valuation in a browser fetch on 4 November 2026. Fix that before any other valuations work, because the page already ranks #5 for property valuations galway.

Images without descriptions - HIGH

104 of 104 images counted missing alt text by the audit tool in the measured set, including 23 of 23 on our-team, 13 of 13 on mortgage valuations and on guide to selling at auction, and 12 of 12 on about-us. Spot-check in page code, then add alt text starting with team and money pages.

Estate agents and auctioneers pages missing from top 10 - HIGH

Neither money search shows ODJ in the summary top 10 in this run, even though AI Overviews name ODJ first for both. Add a clear Galway estate agents and auctioneers section on the homepage, linked to guides, valuations, and auction results.

Short meta and a spelling slip - MEDIUM

Testimonials meta description is 29 characters. Guide to selling at auction meta description contains "Indepenent" for Independent. Both are small credibility fixes.

Sitemap list needs a clean up check - MEDIUM

The page sitemap list includes payment-confirmation, payment-failed, test-property-archive, and rebrand-request-valuation, plus duplicate policy pages. Confirm each one live before removing or noindexing any of them. Robots.txt also lists a different sitemap filename, sitemap_index.xml, from the /sitemap.xml index actually fetched.

Three pages not measured - NOT A FAILURE

Auctions, guide to buying at auction, and valuations returned a loader in the unlocker run, so their titles, meta descriptions, headings, and alt counts are not claimed from that run. Browser fetch on the same day confirms all three pages do load with real content.

Speed - NOT MEASURED

PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

What is already working: Titles on measured pages are 29 to 54 characters, none over 60. Organization, Place, and PostalAddress schema appear on every measured page. Canonical tags are present on measured pages. The contact page confirms the info@odj.ie address used for this outreach. No llms.txt file was found, HTTP 404 on 4 November 2026.

5 How you compare

From SERP source and display link fields, 4 November 2026.

BRAND OR PLATFORM	WHAT THEY DO THAT YOU DO NOT (YET) IN THIS SNAPSHOT
O'Donnellan & Joyce (you)	Strong AI Overview naming for agent and auctioneer searches, and top 10 for property for sale, property auction, and valuations. Gaps are the two main agent searches and mortgage and commercial searches.
Daft.ie and MyHome.ie	Dominate houses for sale galway and property for sale galway, and commercial property galway, as platforms, not as a single agency.
Collerans, Farrell, DNG Galway	Appear ahead of ODJ in agent, auctioneer, and valuations summaries in this run.
Sherry FitzGerald, John Dolan, Mulryan, Kirrane	Named in agent and auctioneer summaries and in AI Overviews, as local Galway competitors.

Your reputation and AI naming are already strong. The gap is not what AI tools think of ODJ. It is that only three searches carry ODJ in the organic top 10, while platforms and other Galway agencies carry the main agent searches.

6 Quick wins, in order

- Give each money page one clear H1, starting with homepage, valuations, auctions, and the selling and buying guides.
- Fix the valuations request form error before any other valuations work.
- Add alt text to the images counted missing it, starting with our-team, mortgage valuations, and guide to selling at auction, after a spot check in page code.
- Fix the testimonials meta description and the selling at auction meta spelling, and re-check the three loader-blocked pages with a rendered fetch.
- Add a clear Galway estate agents and auctioneers section on the homepage, linked to guides, valuations, and auction results.

- Give mortgage valuations and commercial property their own search job, with clear headings, a short FAQ, and internal links from valuations and the homepage.
- Confirm the test, transactional, and duplicate policy pages in the sitemap list live, then remove or noindex any that should not be indexed.
- Add an llms.txt file and FAQ schema to money pages, and keep the 40 years, Galway City Centre, and independent auction house facts in plain text on the homepage.
- Add short buyer and seller guides for buy searches, linked from the homepage and auction results, so ODJ has a page that can rank where a listings page does not.

7 What this becomes in 90 days

Days 1 to 30 - Fix the foundations

Quick wins 1 to 4 above, plus baseline tracking of the 10 Google searches and the SERP AI Overview results, dated 4 November 2026.

Days 31 to 60 - Build the answers

Estate agents and auctioneers homepage section, mortgage and commercial page rebuilds, FAQ schema, first two buyer and seller guides.

Days 61 to 90 - Get named

Review results, check whether estate agents, auctioneers, mortgage valuations, and commercial property searches have moved, and set next quarter targets.

What you get every month: AI visibility tracking across the same searches, Google rankings tracking, one to two buyer and seller guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

A fair way to start: A 3-month starting term, clear targets agreed up front, then month to month. We do not promise number one rankings or guaranteed AI mentions, because nobody honestly can. We promise the work, and a report that shows you exactly what it did.

Want us to fix these first?

This snapshot covered the headlines. The full work starts with the quick wins above, in order, with a 30-day action plan and a report that shows exactly what moved.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs from your sitemap on 4 November 2026, 9 measured by the Bright Data audit tool and 3 loader-blocked in that run but confirmed loading by browser fetch (titles, headings, word counts, code markup, image descriptions, robots.txt, and llms.txt check). Google Ireland results were collected via Bright Data SERP API on 4 November 2026, market Ireland. A SERP map image was returned for 6 searches, but the record contained no place list, so no map position is claimed. Speed: PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed. AI Overview data came from the SERP API where present only; live Gemini, Bing, and Google conversational checks have not been done. Public information only, no logins. This report is complimentary and confidential to O'Donnellan & Joyce. Unverified in this snapshot: PageSpeed score, conversational AI answers, property listing page schema and counts, loader-blocked page measurements, H1 and alt counts as audit-tool counts to be spot-checked, a verified rating or review count, map pack positions, sitemap entry counts and lastmods, and a single staff count figure.
