COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

# How buyers find Sarte Heating & Cooling on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 5 November 2026, and the fixes worth making first.

**Prepared for**
Sarte Heating & Cooling
Winnipeg, HVAC contractor

**Prepared by**
xylvar
SEO and AI visibility for growing companies

**Date**
5 November 2026

## 1 The short version

A fresh snapshot, 5 November 2026. Public pages only, no logins. No email has been sent about this report yet.

| AREA | VERDICT | WHAT IT MEANS |
|---|---|---|
| Google website rankings | FIX | No direct sarte.ca result in the summary top 8 to 9 for any of the 10 searches checked, including your own brand search. |
| Google map packs | FIX | Sarte is in none of the structured map top 3s returned in this run, for money searches or brand search. |
| AI visibility in search | NOT NAMED | No SERP AI Overview was returned for any of the 10 searches. Live Gemini and Bing answers have not been checked yet. |
| Page headings | FIX | Only 1 of 12 audited pages has a main heading. The other 11 have none, including the homepage. |
| Page titles and descriptions | WATCH | 6 of 12 titles are over 60 characters, and the homepage has no meta description at all. |
| Business details | WATCH | Schema is the same template on every page, with no LocalBusiness or Service type. Llms.txt is not present. Your knowledge panel shows 4.3 with 89 reviews. |
| Speed | NOT MEASURED | PageSpeed Insights returned HTTP 429 on 5 November 2026, so no score is claimed in this report. |

### Biggest issue: no direct result anywhere in this run

Not one of the 10 searches shows a sarte.ca page as a direct result in the summary top 8 to 9, and your own brand search shows a Reddit thread first and a directory listing second. Your homepage appears only as a Google redirect entry for furnace winnipeg, which is not a direct

ranking. The site has real strengths, a 4.3 rating with 89 reviews on its knowledge panel and 15 to 16 staff, but search is not surfacing them.

### Biggest strength: a real business with a real reputation

Your SERP knowledge panel lists Sarte Heating & Cooling Ltd. at 857 Notre Dame Ave, Winnipeg, phone (204) 697-2783, rating 4.3 with 89 reviews. Your About page states 15 employees and a fleet of 8 service vehicles. The fixes in this report are about making search show what the business already is.

## 2 Where you rank on Google today

Google Canada, Bright Data SERP API, 5 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

| SEARCH | SARTE HEATING & COOLING | WHO IS AHEAD |
|---|---|---|
| hvac winnipeg | Not in top 9 | reliancehomecomfort.com #1, lynnswinnipeg.ca #2 |
| furnace repair winnipeg | Not in top 9 | Reddit r/Winnipeg thread #1, donerightredandwhite.com #2 |
| furnace installation winnipeg | Not in top 9 | furnasmanright-time.ca #1, whyteridgehvac.ca #2 |
| air conditioning winnipeg | Not in top 8 | reliancehomecomfort.com #1, provincialheating.ca #2 |
| heating contractor winnipeg | Not in top 9 | active-mechanical.com #1, furnasmanright-time.ca #2 |
| boiler repair winnipeg | Not in top 9 | donerightredandwhite.com #1, Reddit r/Winnipeg thread #2 |
| hot water tank winnipeg | Not in top 9 | McMunn & Yates #1, Reddit r/Winnipeg thread #2 |
| ductless air conditioner winnipeg | Not in top 9 | homedepot.ca #1, Reddit r/Winnipeg thread #2 |
| furnace winnipeg | Not in top 9 as a direct result | whyteridgehvac.ca #1, shortysplumbing.ca #2. Sarte homepage title appears only as a Google redirect entry at #4, not counted |

| | | |
|---|---|---|
| sarte heating and cooling | Not in top 9 as a direct result | Reddit r/Winnipeg thread #1, trustedpros.ca #2. Sarte pages appear only as Google redirect entries at #3, #7 and #8, not counted |

### Brand warning, stated plainly

For your own name, the summary top 9 does not include any sarte.ca page as a direct result. The top direct results are a Reddit thread and a TrustedPros directory listing for your business. Do not let a directory page be the first direct answer for your own name: make the homepage the obvious brand answer, with the full business name, Winnipeg service area, phone and email in plain text.

Method note: furnace installation winnipeg, air conditioning winnipeg, and sarte heating and cooling first returned HTTP 502 with no results on 5 November 2026, and a first retry the same day also returned 502 for all three. A second retry the same day returned full records, and those results are used. Summary top counts are 8 or 9 per search, because that is how many organic rows the SERP summary returned.

## 3 What AI says in search results

Google AI Overview data captured through the SERP API, 5 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

### No overview returned for any of the 10 searches

A top-level AI Overview was returned for 0 of 10 searches in this run, so Sarte is named in 0 of 0 returned overviews. That is a visibility gap, not a penalty: when no overview appears, buyers see only the organic results and map pack, where Sarte also does not appear in this run.

### What that does not prove

Related questions in the SERP records are follow-up questions, not overview answers, and are not counted here. Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

### Why llms.txt matters here

Your site has no llms.txt file: the URL returns your 404 page. An llms.txt gives AI tools a clean, plain-text source about your services, service area and contact details to quote from. Adding one, with your furnace, air conditioning, boiler and hot water services, Winnipeg area, phone and email, is a small fix that helps AI answers directly.

---

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

## 4 What is holding the website back

12 URLs audited on 5 November 2026, 7,397 words, 48 images, 35 missing alt text.

### Headings - HIGH

Only the About page has a main heading. The other 11 audited pages have 0 H1s, including the homepage, furnace repair, furnace installation, air conditioning repair, boilers, hot water tank, duct-free systems, indoor air quality, new housing installations and contact. Give every money page one clear H1 with its search phrase, starting with the homepage and furnace repair.

### Homepage meta description missing - HIGH

The homepage has no meta description at all, confirmed in the page HTML. Every other audited page has one, 99 to 159 characters. Write one for the homepage that names your Winnipeg heating and cooling services, phone and service area.

### Brand clarity - HIGH

Your brand search does not surface any sarte.ca page as a direct result. Use the full business name consistently on the homepage and contact page, with phone (204) 697-2783 from the SERP knowledge panel, your email murray@sarte.ca, and your Winnipeg service area in plain text.

### Map absence - HIGH

Sarte is in none of the structured map top 3s in this run. Map leaders repeat across packs, including Furnasman, Reliance Superior, Lynn's, Shorty's and Winnipeg Supply Service Experts, with SERP map ratings from 4.7 to 5.0 and review counts from 199 to 6,100. Your SERP knowledge panel figure is 4.3 with 89 reviews, named here with its source, not as a Places rating.

### Titles - MEDIUM

6 of 12 audited titles are over 60 characters: air conditioning repair 72, contact 70, indoor air quality 65, homepage 64, furnace repair 63, air conditioner installation 63. The contact title also carries a typo, "compnay" instead of "company". Rewrite the long titles to one search phrase plus the brand once, and fix the typo.

### Missing schema - MEDIUM

Schema is the same template on every audited page: BreadcrumbList, ImageObject, ListItem, Organization, WebPage. No LocalBusiness, Service or FAQPage type was found by the audit tool on any audited page. Add LocalBusiness and Service schema to the money pages, starting with furnace repair and furnace installation.

### Alt text - MEDIUM

35 of 48 images missing alt text. Worst counts: homepage 6 of 8, and 3 of 4 on furnace installation, air conditioner installation, boilers, duct-free systems, indoor air quality, about and contact.

### Thin pages - LOW

New housing installations 324 words, contact us 352 words, indoor air quality 364 words, duct-free systems 370 words, air conditioner installation 454 words. These are the shortest pages in the set, and new housing and duct-free are also searches with no direct result in this run.

### What is clean

Every audited canonical tag points to the audited URL itself. Every audited page has a mobile viewport. The page sitemap lists 21 URLs, the post sitemap lists 13, and robots.txt allows general crawlers with sitemap lines present. Meta descriptions, apart from the homepage, are all within 99 to 159 characters.

## 5 How you compare

From SERP direct domain results and map packs, 5 November 2026. Google redirect entries are not named as competitors.

### Where Sarte leads

No direct organic win in this run. Sarte does not appear as a direct result in the summary top 8 to 9 for any of the 10 searches, has no map top 3, and is named in no SERP AI Overview, because none was returned.

### Where others lead

Reliance Home Comfort leads hvac winnipeg and air conditioning winnipeg direct results. Furnasman leads furnace installation direct results and most map packs. Whyte Ridge HVAC leads furnace winnipeg. Balcaen and Sons leads boiler repair direct results. Active Mechanical Contracting leads heating contractor winnipeg. Reddit r/Winnipeg threads lead or sit second for furnace repair, boiler repair, hot water tank and ductless searches, which shows buyers are asking other Winnipeggers for recommendations.

### Reviews and listings

SERP brand knowledge panel: Sarte Heating & Cooling Ltd., rating 4.3 with 89 reviews, phone (204) 697-2783, address 857 Notre Dame Ave, Winnipeg, MB R3E 0M4. No Places API rating was returned in this run, so no Places rating is claimed. Sarte is in none of the 9 structured map top 3s for money searches, and no map pack was returned for the brand search.

## 6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

### 1. Add one main heading to every page

Start with the homepage, furnace repair and furnace installation. One H1 per page, with the page search phrase in it.

### 2. Write the missing homepage meta description

One clear description naming Winnipeg heating and cooling services, phone and service area. Keep the other 11 descriptions, all within length, when titles are rewritten.

### 3. Fix brand clarity

Make the homepage the obvious direct answer for Sarte Heating & Cooling, with the full name, Winnipeg service area, phone (204) 697-2783 and email murray@sarte.ca in plain text, so a directory page is not the first direct brand result.

### 4. Add schema and llms.txt

Add LocalBusiness and Service schema to the money pages, and add an llms.txt that describes your services, service area and contact details for AI tools.

### 5. Fix titles and the contact typo

Rewrite the 6 titles over 60 characters to one search phrase plus the brand once, and fix "compnay" on the contact page title.

### 6. Work on map visibility

Map leaders in this run carry SERP map ratings from 4.7 to 5.0 with large review counts. Keep review gathering steady and make sure the listing name, address and phone match the website exactly.

## 7 What this becomes in 90 days

From fresh data, not a promise.

### Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 5 November 2026.

### Days 31 to 60 - Rebuild for money searches

Heading, title, schema and brand clarity rebuilds, and first two buyer guides for the searches where no direct result appears yet.

### Days 61 to 90 - Review results

Check whether money searches and map packs have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

### What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

## Want us to fix these, in order?

Start with headings, the missing homepage description, and brand clarity, then money pages for the searches where no direct result appears yet. The full findings above are the starting point, not a sales pitch.

---

**How we did this.** We read 12 URLs on 5 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Canada results were collected via Bright Data SERP API on 5 November 2026, market Canada. Furnace installation winnipeg, air conditioning winnipeg, and sarte heating and cooling first returned HTTP 502 with no results, and a first retry the same day also returned 502 for all three. A second retry the same day returned full records, and those results are used. A structured map pack was returned for 9 of 10 searches, and Sarte is in none of the top 3s; no map pack was returned for the brand search. Speed: PageSpeed Insights returned HTTP 429 on 5 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 0 of 10 searches, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Sarte Heating & Cooling. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, and staff count.
