COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How customers find Cork City Dental Clinic on Google and in AI answers

We checked your website, your Google rankings, and what Google AI answers in search results say. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
Cork City Dental Clinic
Cork, Ireland

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 November 2026

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. Live Gemini, Bing, and Google conversational AI checks were not done in this audit.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	MIXED	Direct wins for dental checkup cork at number 1, dental veneers cork at number 2, and the brand search at number 1 through a team page, but no direct result in the top 10 for the other 7 searches in this run.
Brand search	WATCH	The direct brand number 1 is a team page, not the homepage. A different business, Cork City Dental, also appears in brand results, so the name needs care.
AI visibility in search	STRONG	A SERP AI Overview was returned for 6 of 10 searches, and Cork City Dentist is named in 5 of those 6. Live conversational AI answers were not checked.
Page structure	FIX	11 of 12 pages have exactly 1 main heading, but contact us has none, 7 titles are over 60 characters, and 8 meta descriptions are over 160 characters.
Images	CLEAN	Only 12 of 224 images across the 12 audited pages have no alt text, 1 per page in the tool count.
Business details	FIX	No JSON-LD schema block was found on any of the 12 audited pages. Only Question and Answer microdata appears, on 5 pages.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

Biggest issue: AI answers name the clinic more often than Google organic results show it. Seven money searches have no direct website result in the top 10, even though AI overviews cite the clinic for implants, Invisalign, emergency care and root canal.

Quickest win: Add one main heading to contact us, shorten the longest titles and meta descriptions, and add LocalBusiness schema. Those are small fixes on pages customers already reach.

2 Where you rank on Google today

Google Ireland, Bright Data SERP API, 4 November 2026. Direct domain results only. Google redirect entries hide their final destination, so they are not named as competitors here and are not counted as rankings.

SEARCH	WEBSITE	PAGE GOOGLE SHOWS	WHO IS AHEAD IN DIRECT RESULTS
dentist cork	Not in direct top 10	None	None named: all 10 retry rows are redirect entries
dental implants cork	Not in direct top 9	None	None named as a direct result in this run
invisalign cork	Not in direct top 9	None	Elmwood Dental Practice, direct number 1
teeth whitening cork	Not in direct top 9	None	None named as a direct result in this run
emergency dentist cork	Not in direct top 10	None	None named as a direct result in this run
cosmetic dentist cork	Not in direct top 10	None	None named as a direct result in this run
dental veneers cork	#2	Dental veneers page	www.corkcitydental.ie, direct number 1, a different business
root canal cork	Not in direct top 10	None	Citygate Specialist Dental Clinic, direct number 1
dental checkup cork	#1	Dental checkups page	None in direct results
cork city dentist	#1, via a team page		None in direct results

Meet the team,
Michael Doyle
page

Two searches needed a retry. Dentist cork and dental implants cork first returned HTTP 502 with no results. Both were retried the same day, and the retry results are used here. The dentist cork retry is an odd snapshot, dominated by non-Cork results, so it is reported as a snapshot, not as evidence about Cork competitors.

Redirect entries need care in this run. Cork City Dentist appears in several searches only as redirect entries, for example implants at ranks 1 and 6, emergency at rank 2, and cosmetic at ranks 4, 6 and 8. Those are flagged in the full findings, not claimed as direct rankings, because the redirect hides the final destination.

The brand result needs care too. A team page ranking for your own name is not a homepage win. Check why the homepage is not the direct brand result before changing anything.

No map position is claimed in this report. A map image was returned for 9 searches, but the SERP record contained no place list to rank from.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 4 November 2026. Live Gemini, Bing, and Google conversational answers were not checked. AI answers change day to day.

Named in SERP AI Overviews: 5 of 6 returned

Dental implants cork: the clinic is named and linked to the dental implants page. Invisalign cork: the clinic is named and linked to the Invisalign page. Emergency dentist cork: the clinic is named for acute pain, broken teeth and emergency extractions, with phone 021 450 1306. Root canal cork: the clinic is named and linked to the root canal treatment page, in a cost paragraph. Those four mentions match real treatment pages, which is a genuine strength.

Brand overview is mixed, not a clean win

For cork city dentist, an AI Overview was returned, but its lead entry is a different business, Cork City Dental at 4 Lavitt's Quay, phone +353 21 427 0141. Cork City Dentist appears in a separate entry labelled Dental Care Ireland Cork City (formerly Cork City Dentist), 59A MacCurtain Street, phone 021 450 1306. Do not read that overview as a straight brand win, and do not merge the two businesses.

Not named in a SERP AI Overview

Dentist cork: an AI Overview was returned, but Cork City Dentist is not named in the overview text or references seen. Ranking and AI mention do not always move together, and in this run the clinic is named for several searches where it has no direct organic result.

No SERP AI Overview returned

No AI Overview key was returned for teeth whitening cork, cosmetic dentist cork, dental veneers cork, or dental checkup cork in this run. That does not prove a conversational AI tool would give no answer. Those tools have not been checked yet.

AI answers change day to day. These are SERP API records on 4 November 2026, not a promise of future mentions.

4 What is holding the website back

12 page-sitemap URLs audited on 4 November 2026. All 12 load with content. Totals: 26,869 words, 224 images, 12 missing alt text.

No structured business schema - HIGH

No JSON-LD schema block was found on any of the 12 audited pages. Microdata Question and Answer markup appears on 5 pages (dental checkups, dental implants, dental veneers, root canal, teeth whitening), but no Organization, LocalBusiness, Dentist, FAQPage or AggregateRating type was found. A LocalBusiness type with the MacCurtain Street address and 021 450 1306 phone would match how customers search for a Cork dentist.

Seven money searches have no direct top 10 result - HIGH

Dentist cork, dental implants cork, Invisalign cork, teeth whitening cork, emergency dentist cork, cosmetic dentist cork and root canal cork show no direct corkcitydentist.ie result in the summary top 9 or 10. The clinic is cited in AI overviews for four of those searches, so the content exists, but the organic pages are not winning those searches in this run.

Contact page has no main heading - HIGH

Contact us has 0 H1s in the fetch. The other 11 audited pages have exactly 1 H1 each. Add one clear heading to the contact page.

Titles and descriptions over length - MEDIUM

7 of 12 titles are over 60 characters, longest Invisalign at 108, about us at 97, dental implants at 84. 8 of 12 meta descriptions are over 160 characters, longest cosmetic hub at 244, Invisalign price at 195, homepage at 192. Shorten the money pages first, starting with Invisalign, dental implants and teeth whitening.

Thin pages - MEDIUM

Contact us is 545 words, emergency dental 727, about us 1,000, and cosmetic hub 1,049 in the tool count. Short pages can still rank, and checkups does, but they leave little room for the questions customers ask before booking.

Sitemap is out of date - MEDIUM

The page sitemap lists 41 URLs, but its lastmods run from 2020 to 2023, with the index lastmod 2023-11-23. A sitemap that has not been updated since 2023 does not reflect the site as it stands now. Regenerate it rather than editing dates by hand.

No llms.txt file - LOW

/llms.txt returns HTTP 404, so no llms.txt file is present. AI tools that check for one will find nothing. This is a low priority fix, but it is a real gap for AI visibility.

Speed - NOT MEASURED

PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

5 What to fix first

In order, starting with the fixes that help customers who already find you.

FIX	WHY IT MATTERS	EFFORT
Add LocalBusiness schema	No structured business data on any audited page	Small
Add 1 H1 to contact us	The page customers reach to book has no main heading	Small
Shorten the 7 titles over 60 characters	Money page titles are cut off in search results	Small
Shorten the 8 meta descriptions over 160 characters	Longest is cosmetic hub at 244 characters	Small
Regenerate the page sitemap	Lastmods stop at November 2023	Small
Add an llms.txt file	AI tools that check for one find nothing today	Small
Check why the homepage is not the brand result	Brand search points at a team page, not the homepage	Check first
Strengthen the 7 money pages with no direct top 10 result	AI overviews already cite several of them, organic results do not yet follow	Medium

All figures in this report are from public pages and SERP records on 4 November 2026. Rankings and AI answers change, so recheck before quoting a position as current.
