COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How buyers find OnePageCRM on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
OnePageCRM
Galway, Ireland, SaaS

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 November 2026

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	MIXED	OnePageCRM is #1 for crm software ireland through a blog post, and #1 for its brand search through the homepage. It does not appear as a direct result in the summary top 7 to 9 for the other 8 searches in this run.
AI visibility in search	PARTIAL	SERP AI Overviews were returned for 3 of 10 searches. OnePageCRM is named in 1 of those 3, for crm software ireland. Live Gemini and Bing answers have not been checked yet and are marked as not yet checked.
Page structure	STRONG	Every one of the 12 URLs audited has exactly 1 main heading, and every one has a meta description, 119 to 141 characters. That is a strength to keep.
Images without descriptions	FIX	66 of 229 images across the 12 audited pages have no alt text. Worst: homepage 13 of 31, small business CRM 12 of 27, sales CRM 12 of 26, lead management 11 of 23.
Business details	WATCH	Schema is present on every audited page, with FAQPage on 7 of 12. Llms.txt was not found, it returned 404. Robots lists a different sitemap index name than the one fetched, flagged for a check.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed in this report.

Biggest issue: product pages do not win the money searches

The Ireland win comes from a Chambers Ireland blog post, not from a product or solution page. Broader searches are won by comparison articles, directories, and larger CRM vendors, not by OnePageCRM product pages. That is the gap to close first, after titles and alt text.

Biggest strength: clean structure and a real AI mention

Every audited page has exactly 1 H1 and a meta description in range. OnePageCRM is #1 for its own name, and Google AI Overview names it for crm software ireland as an action-focused CRM endorsed by Chambers Ireland. Keep those facts in plain text on the homepage.

2 Where you rank on Google today

Google Ireland, Bright Data SERP API, 4 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	ONEPAGECRM	WHO IS AHEAD
crm software ireland	#1, Chambers Ireland blog post	None ahead in direct results; xero.com #2
onepagecrm	#1, homepage	None ahead; brand search
best crm for small business	Not in top 8	slack.com #1, salesforce.com #2
sales crm software	Not in top 9	salesforce.com #1, microsoft.com #2
crm for sales teams	Not in top 9	hubspot.com #1
lead management software	Not in top 9	flowlu.com #1, convergehub.com #2
crm software for small business ireland	Not in top 9	capterra.ie #1, resources.microfinanceireland.ie #2
simple crm software	Not in top 9	simple.life #1, boots.ie #2; non-CRM intent in this run, not a competitor ranking
contact management software	Not in top 9	crm.org #1, salesforce.com #2
small business crm software	Not in top 9	capsulecrm.com #1, crm.org #2

The pattern is clear

One strong blog post carries the Ireland search, but solution pages do not yet win their matching searches. The small business CRM page is 1,635 words and the sales CRM page is 1,233 words, yet neither appears as a direct result for its matching search in this run. Give each solution page its own search job, and link the Chambers post clearly to those pages.

Method note: first SERP run returned HTTP 502 for crm software for small business ireland, contact management software, and small business crm software, and no record for simple crm software. All four succeeded on retry the same day, and the retry results are used here. No map pack was returned in the SERP API for any of the 10 searches.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 4 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in SERP AI Overviews

OnePageCRM is named in 1 of the 3 SERP AI Overviews returned: crm software ireland, in the Popular CRM Options for Irish Businesses list, described as an action-focused CRM endorsed by Chambers Ireland, tailored specifically for micro and small businesses to reduce sales admin.

Not named in SERP AI Overviews

Best crm for small business: overview lists HubSpot CRM first, OnePageCRM not named in the text seen. Small business crm software: overview lists HubSpot CRM and Zoho CRM, OnePageCRM not named in the text seen.

No SERP AI Overview returned

No AI Overview was returned in the SERP API record for sales crm software, crm for sales teams, lead management software, crm software for small business ireland, simple crm software, contact management software, or onepagecrm in this run. That does not prove a conversational AI tool would give no answer. Those tools have not been checked yet.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 4 November 2026, 13,564 words, 229 images, 66 missing alt text.

Short and long titles - MEDIUM

About title is 16 characters and contact title is 28 characters, both short for pages that should carry a search job. Sales CRM title is 61 characters and small business CRM title is 62 characters, just over 60. Rewrite the about and contact titles to say what the page is for, and trim the two long ones.

Images without descriptions - MEDIUM

66 of 229 images have no alt text. Worst: homepage 13 of 31, small business CRM 12 of 27, sales CRM 12 of 26, lead management 11 of 23, features 9 of 15. Alt text helps search and accessibility, and it is the largest single technical gap here, though far smaller than in many audits.

No llms.txt - LOW

A fetch of onepagecrm.com/llms.txt returned 404. Add a plain llms.txt describing what OnePageCRM does and which pages matter, so AI tools have a clean source to quote.

Robots sitemap name - LOW

Robots.txt lists sitemap_index.xml, while the index actually fetched is sitemap.xml. Check whether both resolve to the same index, and make the robots line match the real index.

What is clean

Every audited page has exactly 1 H1, and every audited page has a meta description between 119 and 141 characters. Schema is present on every audited page, with FAQPage on 7 of 12. Keep that structure.

Reviews, kept separate

The SERP knowledge panel for the brand search gives rating 4.9 with 182 reviews. The homepage shows a G2 badge reading 4.7 (265+ reviews). Those are two different sources and are not merged into one rating in this report. No Places API rating was returned.

5 How you compare

From SERP direct domain results, 4 November 2026. Google redirect entries are not named as competitors.

Where OnePageCRM leads

Crm software ireland, through a Chambers Ireland blog post, and the brand search, through the homepage. Those are real wins, and they show the site can rank in Ireland.

Where larger vendors lead

Best crm for small business is led by Slack and Salesforce guides in direct results. Sales crm software is led by Salesforce and Microsoft explainers. Crm for sales teams is led by HubSpot. Lead management software is led by Flowlu and ConvergeHub. Those are the pages to beat with clearer product pages, not with more blog posts alone.

Where comparison sites lead

Crm software for small business ireland is led by Capterra Ireland. Small business crm software is led by Capsule and CRM.org. Comparison pages win when buyers are still choosing, so OnePageCRM solution pages need to answer the same choosing questions in plain language.

6 What to fix first, in 90 days

In order, highest value first. No ranking is guaranteed, and no fix below is a promise of a position.

Days 1 to 30: titles, alt text, llms.txt

Rewrite the about and contact titles, trim the sales and small business CRM titles, add alt text to the 66 images missing it, starting with the homepage, and publish a plain llms.txt. Check the robots sitemap line at the same time.

Days 31 to 60: give solution pages their search job

Give the small business CRM, sales CRM, and lead management pages one clear search each, with the matching words in the title, the first heading, and the first paragraph, and link the Chambers Ireland post to those pages.

Days 61 to 90: answer the choosing questions

Add short, plain answers on solution pages for the questions comparison pages already answer: who it is for, what it replaces, what the first week looks like, and what support actually means. Keep the Galway support story, it is a real difference, and keep it in plain text, not only in images.

Want help with the fixes?

Talk through this report with xylvar, and we will walk through the first fixes in plain language, with no jargon and no pressure.

Talk through the fixes

xylvar, info@xylvar.top

Prepared 4 November 2026 from public pages and Bright Data SERP data, Google Ireland. Live Gemini, Bing, and Google AI Overview conversational checks were not done. PageSpeed was not measured, PageSpeed Insights returned HTTP 429. No ranking is guaranteed.
