COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How patients find Wildwood Dental Clinic on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
Wildwood Dental Clinic
Saskatoon, dental clinic

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 November 2026

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	PARTIAL	Wildwood is #2 for teeth whitening saskatoon and #1 for its own brand search, but not a direct result for the other 8 searches in this run.
Google map packs	FIX	Wildwood is in none of the top 3 map packs in this run, even though a map pack was returned for 9 of 10 searches.
AI visibility in search	NOT RETURNED	No SERP AI Overview was returned for any of the 10 searches in this run. Live Gemini and Bing answers have not been checked yet and are marked as not yet checked.
Page structure	STRONG	All 12 audited pages have exactly 1 main heading, all 12 have a meta description, and only 8 of 56 images are missing alt text.
Page titles	FIX	6 of 12 titles are over 60 characters, up to 85 characters, and 4 of 12 meta descriptions are over 160 characters, up to 179 characters.
Business details	WATCH	Brand search knowledge panel shows 4.8 with 369 reviews in SERP data, but no Places rating was returned, and llms.txt returns 404.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed in this report.

Biggest issue: strong pages, weak reach

Your pages are well built, with 1 heading each and real service copy, yet they do not appear as direct results for dentist saskatoon, dental clinic saskatoon, family dentist saskatoon, dental

implants saskatoon, invisalign saskatoon, emergency dentist saskatoon, or root canal saskatoon in this run. The whitening win shows the site can rank when the page matches the search exactly.

Biggest strength: a clean site to fix from

Only 8 of 56 audited images are missing alt text, every audited canonical tag points to itself, and the FAQ page already carries FAQ schema. Fix titles, meta descriptions, and the brand homepage answer first, and do not break that structure.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 4 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	WILDWOOD DENTAL CLINIC	WHO IS AHEAD
dentist saskatoon	Not in top 9	marquisdental.ca #1, members.saskdentists.com #2
dental clinic saskatoon	Not in top 8	saskatoondentalhouse.ca #1, saskatoonsmilesgroup.com #2
family dentist saskatoon	Not in top 8 as a direct result	canadabuildingdentalgroup.com #1, lakesidedentalsaskatoon.ca #2. Rank #3 is a Google redirect entry for Wildwood, not counted as a direct ranking.
teeth whitening saskatoon	#2, whitening page	lakewooddentalclinic.com #1, Zoom Teeth Whitening in Saskatoon
dental implants saskatoon	Not in top 8	saskatoonoralsurgery.ca #1, saskatoonperio.ca #2
invisalign saskatoon	Not in top 8	sutherlanddental.ca #1 and #2
emergency dentist saskatoon	Not in top 9	lakesidedentalsaskatoon.ca #1, saskohc.ca #2
root canal saskatoon	Not in top 9	willowgreendental.com #1, firstavenueendo.ca #2
	Not in top 8	

childrens dentist saskatoon		Summary returns city, university, and Saskatoon berry pages, not dental pages, so this search is a failed intent match in the summary.
wildwood dental clinic	#1, childrens hub page; #2, privacy page	No direct competitor ahead. Homepage itself is not #1 in this summary.

The pattern is clear

Wildwood wins a specific service search and its own name search, but not the broad dentist and clinic searches, and not the specialist searches for implants, invisalign, or root canal, where specialist clinics lead. This report does not prove one cause, but the brand homepage answer and the long titles are the first fixes that touch every money page at once.

Method note: all 10 SERP searches returned ok on 4 November 2026, no retries needed. A map pack was returned for 9 of 10 searches, brand search returned none, and Wildwood appears in none of the top 3 map packs.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 4 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

No SERP AI Overview returned for any search

No ai_overview key was returned in any of the 10 SERP records in this run: dentist saskatoon, dental clinic saskatoon, family dentist saskatoon, teeth whitening saskatoon, dental implants saskatoon, invisalign saskatoon, emergency dentist saskatoon, root canal saskatoon, childrens dentist saskatoon, and wildwood dental clinic. Wildwood is therefore named in 0 of 10 SERP AI Overviews, because none was returned.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt still matters here

Your llms.txt returns 404. Adding a short, clean llms.txt that lists services, location, and contact details would give AI tools a clean source to quote, instead of leaving them to guess from navigation and service pages alone.

Knowledge panel, not an AI Overview

The brand search record includes a knowledge panel for Wildwood Dental Clinic, rating 4.8 with 369 reviews, address 1526 8 St E #105, Saskatoon, SK S7H 0T3, phone (306) 374-7272. That is a SERP knowledge panel figure, not a Places API rating, and it is not counted as an AI Overview.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 4 November 2026, 13,852 words, 56 images, 8 missing alt text.

Brand homepage answer - HIGH

For wildwood dental clinic, direct #1 is the childrens hub page and direct #2 is the privacy policy page. The homepage itself is not #1 in that summary. Make the homepage the obvious brand answer, with the full business name, Saskatoon address, phone, and family dentistry scope in plain text and in the title.

Titles - HIGH

6 of 12 titles are over 60 characters: invisalign 85, emergency appointments 78, childrens exams-cleanings 70, preventive cleanings-exams 65, restorative crowns-bridges 65, implants 65. Rewrite each money page title to one clear search phrase plus the brand once.

Meta descriptions - MEDIUM

4 of 12 meta descriptions are over 160 characters: implants 179, crowns-bridges 176, invisalign 175, whitening 171. The other 8 are 122 to 155 characters. Shorten the 4 long ones to a single search phrase and a call to book.

Map presence - MEDIUM

Wildwood is in none of the top 3 map packs in this run, while Sutherland Dental and Wheatland Dental Saskatoon recur across packs. Check the live Google Business Profile categories, services, and photos against those clinics, starting with the categories for general, family, and emergency dentistry.

Missing AI source file - MEDIUM

llms.txt returns 404. Add a short llms.txt with services, location, and contact details, so AI tools have a clean source to quote.

Alt text - LOW

8 of 56 images are missing alt text: homepage 2 of 13, and 1 each on preventive cleanings-exams, crowns-bridges, emergency appointments, childrens exams-cleanings, contact, and FAQ.

What is clean

All 12 pages have exactly 1 main heading. All 12 have a meta description. All 12 canonical tags point to the audited URL itself. Every audited page has a mobile viewport. The FAQ page already carries FAQ schema. Keep that structure.

5 Page by page, at a glance

Bright Data audit tool, 4 November 2026. The services hub first failed with a fetch error, then succeeded on retry the same day, and retry results are used.

PAGE	TITLE CHARS	H1S	WORDS	ALT MISSING	META CHARS
Homepage	52	1	1179	2 / 13	150
Services hub	50	1	835	0 / 2	148
Preventive cleanings and exams	65	1	1160	1 / 4	155
Restorative crowns and bridges	65	1	1217	1 / 4	176
Cosmetic whitening	50	1	1081	0 / 4	171
Orthodontics invisalign	85	1	1130	0 / 4	175
Oral surgery implants	65	1	1141	0 / 4	179
Emergency appointments	78	1	1084	1 / 3	142
Childrens exams and cleanings	70	1	1124	1 / 4	122
About our team	51	1	1380	0 / 8	127
Contact	50	1	759	1 / 3	146
FAQ	39	1	1762	1 / 3	154

Sitemap: index lists one child sitemap with 82 URLs, no lastmod values in the file fetched. Robots allows all, sitemap index listed. llms.txt returns 404.

6 Your 90-day fix plan

Start with the fixes that touch every money page, then the brand answer, then the map presence.

Days 1 to 30: titles, meta descriptions, and brand homepage

Rewrite the 6 titles over 60 characters and the 4 meta descriptions over 160 characters. Make the homepage the obvious answer for wildwood dental clinic, with name, Saskatoon address, phone, and family dentistry scope in plain text.

Days 31 to 60: map presence and AI source file

Review the live Google Business Profile against the clinics that lead the map packs in this run. Add a short llms.txt with services, location, and contact details.

Days 61 to 90: service page depth and recheck

Strengthen the thinnest audited pages, contact at 759 words and services hub at 835 words, without breaking the 1 heading structure. Fix the 8 missing alt texts. Then re-run the same 10 searches and compare direct results, map packs, and SERP AI Overviews.

Talk through the fixes

If you would like help with the title rewrites, the brand homepage answer, or the map presence, reply to the email that sent this report, or contact xylvar below. No account is needed, and no payment is requested in this report.
