COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Gold Eagle Services on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Gold Eagle Services
Austin, HVAC and home services

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 Novembe

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	BRAND ONLY	#1 for your own name, gold eagle services austin, through the homepage. No direct result in the summary top 8 or 9 for any of the other 9 searches.
Google map packs	MISSING	A structured map top 3 was returned for all 9 money searches, and Gold Eagle is in none of them. No map pack was returned for the brand search.
AI visibility in search	NOT NAMED	One SERP AI Overview was returned, for indoor air quality austin, and it names Gold Eagle in 0 of 1. Its only link is to another company. Live Gemini and Bing answers have not been checked yet.
Page titles	STRONG	11 of 12 audited titles are in the 54 to 60 range and name a service and Austin. The homepage title is 54 characters, verified by direct fetch.
Page structure	WATCH	All 12 pages have exactly 1 main heading and rich schema, but 15 of 112 images are missing alt text, and the contact page is only 403 words.
Business details	STRONG	Schema is present on the audited pages, llms.txt is present and detailed, and your contact email service@goldeagleservices.com is verified on all 12 audited pages.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: your name search works, and the site is well built

Your homepage is #1 for gold eagle services austin, and your SERP knowledge panel shows the company, its Austin address, phone, and a 4.8 rating with 439 reviews. The audited pages carry proper titles, meta descriptions, single main headings, and rich schema, including HVACBusiness on the homepage and Service and FAQPage on the service pages. People who already know the company find it, and the site gives Google plenty to read.

Biggest issue: the money searches do not show you at all

No direct result appears for hvac company austin, hvac contractor austin, air conditioning repair austin, ac repair austin, heating repair austin, hvac installation austin, air conditioning installation austin, indoor air quality austin, or emergency hvac austin. The pages that do rank are other Austin companies, directories, and review sites, not your service pages.

2 Where you rank on Google today

Google USA, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	GOLD EAGLE	WHO IS AHEAD
hvac company austin	Not in top 9	reddit.com #1, precisionheatac.com #2
hvac contractor austin	Not in top 8	angi.com #1, goettl.com #2
air conditioning repair austin	Not in top 9	efficienttexas.com #1, goettl.com #2
ac repair austin	Not in top 8	efficienttexas.com #1, angi.com #2
heating repair austin	Not in top 9	koalacooling.com #1, foxservice.com #2
hvac installation austin	Not in top 9	goettl.com #1, abacusplumbing.com #2
air conditioning installation austin	Not in top 9	yelp.com #1, precisionheatac.com #2
indoor air quality austin	Not in top 9	airmd.com #1, accuweather.com #2
emergency hvac austin	Not in top 9	precisionheatac.com #1, reddit.com #2
gold eagle services austin	#1 through the homepage	No other direct result ahead; yelp.com #2

A redirect title we cannot attribute

The title "The Austin HVAC and Air Quality Company" appears as a Google redirect entry in 5 searches in this run. Its destination is hidden in the redirect URL, so it cannot be attributed to

Gold Eagle or to any other company from this data, and it is not counted as a Gold Eagle ranking. Do not read it as a win or a loss.

Method note: all 10 searches returned ok on the first run on 6 November 2026; no retries were needed. Summary top counts are 8 or 9 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

One overview returned, and it does not name Gold Eagle

An AI Overview was returned for 1 of 10 searches, indoor air quality austin. It explains Austin indoor air quality, Central Texas humidity, cedar and oak pollen, dust mites, and sealed air-conditioned homes, and its only link is to prodigyacservice.com. Gold Eagle is named in 0 of 1 returned overviews. No overview key was returned for the other 9 searches.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Your llms.txt is already there, use it

Unlike most companies in this batch, your llms.txt is present and detailed, 76,005 bytes, describing the company, its services, its service towns, and its licences. That is the clean source AI tools can quote. Keep it current, and make sure the service pages it points to carry the same facts.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 13,158 words, 112 images, 15 missing alt text.

Money searches show no Gold Eagle page - HIGH

No direct result for any of the 9 money searches. The service pages exist, AC, heating, heat pumps, indoor air quality, ductwork, attic insulation, and mini-split repair, with good titles and real content, but none of them is the ranked answer for its own search. The gap is authority and visibility, not missing pages.

Map packs - HIGH

Gold Eagle is in none of the structured map top 3s for the 9 money searches, while the same firms repeat across the packs: McCullough Heating, Air Conditioning and Plumbing, Elite Air Conditioning and Plumbing, Radiant Plumbing, Air Conditioning, and Electrical, Stan's Heating, Air, Plumbing and Electrical, and Goettl. Your SERP panel figure is 4.8 with 439 reviews, named here with its source, not as a Places rating. That review base is strong, but it is not turning into map top 3 positions in this run.

Alt text gaps - LOW

15 of 112 images are missing alt text. Mini-split repair is 4 of 12, and every other audited page has exactly 1 image missing alt text. Alt text is the cheapest fix in this report.

Thin pages - LOW

Contact is 403 words, maintenance plan 665, ductwork 785, dehumidifier 790, services hub 873. The service pages themselves are not thin, at 1,075 to 1,724 words.

Small canonical inconsistency - LOW

Every audited canonical tag points to its own URL, except the maintenance plan page, whose canonical is the same address without the trailing slash while the audited URL ends with a slash. Pick one form and use it everywhere.

Plain fetch is blocked - LOW

A plain curl fetch of the homepage on 6 November 2026 returned HTTP 403 from Cloudflare. The full page loads fine through a normal browser and through the audit tool. This is a bot-protection setting, not downtime, but it is worth knowing that simple crawlers are turned away at the door.

What is clean

All 12 titles are in the 54 to 60 range and name a service and Austin. All 12 meta descriptions are present, 11 of 12 in the 128 to 162 range. All 12 pages have exactly 1 main heading. Schema is rich across the site, including HVACBusiness on the homepage and Service and FAQPage on the service pages. The sitemap index lists 4 child sitemaps with 169 page URLs, 28 posts, 170 resources, and 20 resource topics. Your contact email service@goldeagleservices.com is verified on all 12 audited pages.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where Gold Eagle leads

One direct organic win: #1 for gold eagle services austin through the homepage. No map pack position in this run.

Where others lead

Goettl leads hvac contractor and hvac installation direct results. Efficient AC leads air conditioning repair and ac repair direct results. Precision HVAC leads emergency hvac direct results and is #2 for hvac company and air conditioning installation. Angi leads hvac contractor direct results. Koala Cooling leads heating repair direct results. AirMD leads indoor air quality direct results.

Reviews and listings

SERP brand knowledge panel: Gold Eagle Services, "Small business, HVAC contractor in Austin, Texas", rating 4.8 with 439 reviews, 111 Congress Ave. Ste 500, Austin, TX 78701, phone (512) 489-4653, hours Closed, Opens 7 AM. No Places API rating was returned in this run, so no Places rating is claimed. Gold Eagle is in the structured map top 3 for 0 of 9 money searches; no map pack was returned for the brand search.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Work on the map presence

Gold Eagle is in no map top 3 in this run, while the same firms repeat across the packs. Keep the listing name, address, and phone exactly matching the website, and keep building on the 439 reviews shown in the SERP panel.

2. Add alt text to the 15 images

Start with mini-split repair at 4 of 12, then the single missing image on each of the other 11 pages. This needs no new content, only descriptions of the images already on the pages.

3. Deepen the thin pages

Expand the contact page from 403 words, the maintenance plan from 665, and the ductwork and dehumidifier pages from under 800 words, with the questions customers actually ask.

4. Fix the maintenance plan canonical

Make the canonical match the live URL, with the trailing slash, and check the rest of the site uses one form consistently.

5. Aim the service pages at their searches

The service pages are well built, but none ranks for its own search. Add the exact search phrase to the first heading and opening paragraph of each service page, and build supporting guides that link back to them.

6. Keep llms.txt current

Your llms.txt is already detailed. Update it whenever services, towns, or licences change, so AI tools keep quoting accurate facts about the company.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the service pages

The service page rewrites, the thin page expansions, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the map presence, the alt text, and the thin pages, then the service page targeting, then the supporting guides. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google USA results were collected via Bright Data SERP API on 6 November 2026, market USA. All 10 searches returned ok on the first run; no retries were needed. A structured map pack was returned for 9 of 10 searches, and Gold Eagle is in the top 3 for none of them; no map pack was returned for the brand search. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 1 of 10 searches, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. A plain curl fetch of the homepage returned HTTP 403 from Cloudflare on 6 November 2026; the full page was fetched through the Bright Data unlocker the same day. Public information only, no logins. This report is complimentary and confidential to Gold Eagle Services. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, BBB rating, and Gold Eagle Services pricing.
