COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Lodge Causeway Dental Centre on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Lodge Causeway Dental Centre
Fishponds, Bristol, dental clinic

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	NO #1 WIN	No #1 in any of the 10 searches we ran. The only direct result for your site is the brand search at #2, through a team member page, not the homepage. No direct result for any of the 9 money searches.
Google map packs	NOT IN TOP 3	A map top 3 was returned for 8 of 10 searches, and Lodge Causeway is in none of them. The Bristol Dental Practice leads 6 of those 8 packs.
AI visibility in search	NAMED ONCE	An AI Overview was returned for 2 of 10 searches, and Lodge Causeway is named in 1 of 2, the emergency dentist overview. Live Gemini and Bing answers have not been checked yet.
Page titles	WATCH	4 of 12 audited titles are over 60 characters, contact is 91, and the cosmetic title carries a typo, "desntists". The homepage title is 46 characters.
Page structure	WATCH	5 of 12 meta descriptions are over 160 characters, the contact page has 2 main headings, and 44 of 297 images are missing alt text. Schema is present, including a Dentist type on the homepage.
Business details	VERIFIED	Your contact email info@lodgecausewaydentalcentre.com is verified on the homepage and the contact page, and the SERP knowledge panel shows 4.3 with 672 reviews for the Fishponds address.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: Google knows the practice by name

Your brand search shows a knowledge panel, Lodge Causeway Dental Centre, 4.3 with 672 reviews, at 352-354 Lodge Causeway, Fishponds, and the AI Overview for emergency dentist bristol names the practice, with Fishponds and same-day private emergency appointments. People who already know the practice, or who need an emergency dentist, can find it.

Biggest issue: the money searches do not show your site at all

No direct result appears for dentist bristol, dental clinic bristol, family dentist bristol, teeth whitening bristol, dental implants bristol, invisalign bristol, emergency dentist bristol, cosmetic dentist bristol, or root canal bristol, and no direct result appears for your own name through the homepage either. The pages that do rank are other Bristol practices, directories, and NHS pages, not your pages.

2 Where you rank on Google today

Google UK, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	LODGE CAUSEWAY	WHO IS AHEAD
dentist bristol	Not in top 10	No dental leader can be named: the returned top 10 is a general Bristol set, Wikipedia Bristol #1, University of Bristol #2
dental clinic bristol	Not in top 10	thebristoldentist.co.uk #1, uhbristol.nhs.uk #2
family dentist bristol	Not in top 10	practicegeneral.co.uk #1, bristoldentalsuite.co.uk #2
teeth whitening bristol	Not in top 9	whitedentalpractice.co.uk #1, eastgatedentalbristol.co.uk #2
dental implants bristol	Not in top 10	thebristoldentist.co.uk #1, queensquareclinic.com #2
invisalign bristol	Not in top 9	bristoldentalsuite.co.uk #1, thebristoldentist.co.uk #2
emergency dentist bristol	Not in top 9	dentaquest.co.uk #1, stokebishop-dentalcentre.co.uk #2
cosmetic dentist bristol	Not in top 10	bristoldentalspecialists.com #1, cosmeticdentistbristol.co.uk #2
root canal bristol	Not in top 10	longwelldental.co.uk #1, bristol.ac.uk #2
lodge causeway dental centre	#2, team page	cqc.org.uk #1, a CQC listing for the practice

Your only direct result goes to a team page, not the homepage

For your own name, the direct result at #2 is the Dr Brian Kwok team page. The homepage is not a direct result in the brand summary top 10. Your pages also appear only as Google redirect entries at ranks 3 to 10 in the brand search, which this report does not count as rankings.

The dentist bristol set is not a dental set

The query recorded in the raw record is "dentist bristol", but the returned organic top 10 is a general Bristol set: Wikipedia Bristol, the University of Bristol, Visit Bristol, Bristol City Council, Bristol Airport, a hotel, a football highlight, r/bristol, a cricket story, and The City of Bristol. That is the data as returned. This report names no dental leader for that search and does not treat your absence from that set as a normal ranking miss.

Method note: teeth whitening bristol first returned an error body with no results on 6 November 2026. It succeeded on retry the same day, and the retry results are used. Summary top counts are 10 per search, except teeth whitening 9, invisalign 9, and emergency dentist 9, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in 1 of 2 overviews returned

An AI Overview was returned for 2 of 10 searches. Lodge Causeway is named in 1 of 2: the emergency dentist bristol overview, which lists the practice at 4.3 with 672 reviews, located in Fishponds (BS16 3PL), offering same-day private emergency appointments, with links to your website. Lodge Causeway is not named in the invisalign bristol overview, whose first paragraph links only to the Invisalign site and whose provider list names Smmmile Bristol, The Bristol Dental Practice, Queen Square Clinic, Clifton Orthodontics, and Nuyu Dental.

No overview for the other 8 searches

No overview key was returned for dentist bristol, dental clinic bristol, family dentist bristol, teeth whitening bristol, dental implants bristol, cosmetic dentist bristol, root canal bristol, or the brand search. That is a blank in the data, not evidence that AI tools never mention the practice for those searches.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt matters here

Your llms.txt returns 404, so it is not present. AI tools have no clean, short source from you to quote when an overview does appear. A short llms.txt describing the practice, its services, and its Fishponds base would give those tools something accurate to use.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 24,316 words, 297 images, 44 missing alt text.

Money searches show no direct result - HIGH

No direct result for any of the 9 money searches. The service pages exist, implants, Invisalign, whitening, emergency, root canal, and cosmetic, and several are long, invisalign 3,883 words, implants 2,860, whitening 2,269, but none of them is the ranked answer for its own search. The pages need the search phrase in the title and first heading, and the homepage needs to pass authority to them.

Titles over 60 characters, and one typo - HIGH

4 of 12 audited titles are over 60 characters: contact 91, cosmetic dental treatments 67, meet the team 67, root canal treatment 67. The contact title runs on into "Book Dental AppointmentCommutes and Destinations Map", with no space before "Commutes". The cosmetic title reads "Aesthetics desntists at lodge causeway". Fix the length, the spacing, and the typo first.

Meta descriptions over 160 characters - HIGH

5 of 12 meta descriptions are over 160 characters: homepage 174, about us 177, root canal treatment 180, contact 216, our prices 163. Google cuts those off. Rewrite each in the usual 120 to 160 character range, naming the service and Bristol.

The contact page has 2 main headings - MEDIUM

11 of 12 audited pages have exactly 1 main heading. The contact page has 2: "Contact Lodge Causeway Dental Centre" and "Estimate commute time". Give the page one H1 and make the commute section a lower heading.

44 images missing alt text - MEDIUM

44 of 297 images are missing alt text. Worst by count: dental treatments 7 of 22, invisalign 5 of 56, teeth whitening 4 of 38, our prices 4 of 7. Alt text helps Google understand the images and helps patients using screen readers.

Thin pages behind two money searches - MEDIUM

Root canal treatment is 858 words and about us is 982. Root canal is the page behind the root canal bristol search, and it is the shortest service page in the set. Expand it with what the treatment covers, what it costs to delay, and the questions patients ask.

Placeholder emails in the page source - LOW

The homepage and several pages carry example@mail.com or example@email.com in their page source. Those are template placeholders, not your contact address, and they sit alongside your real address. Remove them so no tool or patient ever copies the wrong one.

What is clean

Schema is present on all 12 pages, including a Dentist type on the homepage and FAQPage on implants, emergency, invisalign, and whitening. Every audited canonical tag points to the audited URL itself. Every audited page has a mobile viewport. The sitemap lists 46 pages and 6 posts, and robots.txt allows general crawlers with a sitemap line present. Your contact email info@lodgecausewaydentalcentre.com is verified on the homepage and the contact page.

5 How you compare

From SERP direct domain results and listings, 6 November 2026. Google redirect entries are not named as competitors.

Where Lodge Causeway leads

No #1 organic win in this run. Your lead is in listings and AI: a knowledge panel with 4.3 and 672 reviews, the strongest review count in the brand data, and a named place in the emergency dentist AI Overview, where the practice is listed for same-day private emergency appointments in Fishponds.

Where others lead

The Bristol Dental Practice is #1 by direct result for dental clinic bristol and dental implants bristol, and #1 in the map pack for 6 of the 8 packs returned. Other direct #1s in this run: practicegeneral.co.uk for family dentist, whitedentalpractice.co.uk for teeth whitening, bristoldentalsuite.co.uk for invisalign, dentaquest.co.uk for emergency dentist, bristoldentalspecialists.com for cosmetic dentist, and longwelldental.co.uk for root canal.

Reviews and listings

SERP brand knowledge panel: Lodge Causeway Dental Centre, rating 4.3 with 672 reviews, 352-354 Lodge Causeway, Bristol BS16 3PL, phone 0117 958 6878, open Friday 8 am to 5 pm, Saturday and Sunday closed. No Places API rating was returned in this run, so no Places rating is claimed. No map top 3 in this run includes the practice, so no map position is claimed for any search.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Fix the titles and meta descriptions

Shorten the 4 titles over 60 characters, fix the contact title spacing and the cosmetic title typo, and rewrite the 5 meta descriptions over 160 characters in the 120 to 160 range, naming the service and Bristol.

2. Give the contact page one main heading

Keep "Contact Lodge Causeway Dental Centre" as the single H1 and make "Estimate commute time" a lower heading.

3. Add alt text to the 44 images missing it

Start with dental treatments, invisalign, teeth whitening, and our prices, the pages with the most missing alt text.

4. Deepen the root canal page

Expand root canal treatment from 858 words with what the treatment covers, when it is needed, and the questions patients ask, and give it a title and first heading that match the search.

5. Add llms.txt and remove the placeholder emails

Add a short llms.txt describing the practice, its services, and its Fishponds base, and remove example@mail.com and example@email.com from the page source.

6. Work on the map listing

Keep the listing name, address, and phone exactly matching the website, and build on the 672 reviews shown in the SERP panel, since the practice is in none of the 8 map top 3s in this run.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the service pages

The service page rewrites, the alt text and llms.txt work, and the first patient guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two patient guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the titles, the meta descriptions, and the contact heading, then the alt text and the root canal page. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google UK results were collected via Bright Data SERP API on 6 November 2026, market UK. Teeth whitening bristol first returned an error body with no results; it succeeded on retry the same day, and the retry results are used. A structured map top 3 was returned for 8 of 10 searches, and Lodge Causeway Dental Centre is in none of them. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; an overview was returned for 2 of 10 searches, Lodge Causeway is named in 1 of 2, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Lodge Causeway Dental Centre. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, map positions beyond the top 3s, a Places rating, a single verified review rating, staff count, and Lodge Causeway Dental Centre pricing.
