COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Modern Dental Clinic on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Modern Dental Clinic
Vancouver, dental clinic

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	BRAND ONLY	One #1, and only for your own name. The homepage is #1 and the contact page #2 for modern dental clinic. No direct result in the summary top 8 or 9 for any of the 9 money searches.
Google map packs	NOT IN TOP 3	Modern Dental is in none of the map top 3s for the 8 money searches that returned a pack. The brand map pack lists Modern Dental first, 4.4 with 31 reviews.
AI visibility in search	NOT NAMED	An AI Overview was returned for 1 of 10 searches, and Modern Dental is named in 0 of 1. Live Gemini and Bing answers have not been checked yet.
Page titles	MIXED	4 of 12 audited titles run over 60 characters, and 4 are very short, naming no city at all. The Invisalign title is one word, 10 characters.
Page structure	WATCH	The homepage has no main heading at all, 3 pages have no meta description, and 40 of 291 images are missing alt text. There is no dedicated family dentistry page and no dedicated cosmetic dentistry page.
Business details	STRONG	Your contact email moderndentalcorp@hotmail.com is verified on the site, every page carries Dentist schema, and the brand map entry shows a 4.4 rating with 31 reviews.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: people who already know the name find you first

The brand search returns your homepage at #1 and your contact page at #2, and the brand map pack lists Modern Dental first at 4.4 with 31 reviews. The site is a real practice site, 10,502 words across the 12 audited pages, with Dentist schema on every page and a verified contact email.

Biggest issue: the website does not rank for the searches that bring new patients

No direct result appears for dentist vancouver, dental clinic vancouver, family dentist vancouver, teeth whitening vancouver, dental implants vancouver, invisalign vancouver, emergency dentist vancouver, cosmetic dentist vancouver, or root canal vancouver. The pages that do rank are other Vancouver clinics, not your service pages, and there is no family dentistry page and no cosmetic dentistry page on the site at all.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	MODERN DENTAL	WHO IS AHEAD
dentist vancouver	Not in top 9	vancouverdentist.com #1, royalcentredentalgroup.ca #2
dental clinic vancouver	Not in top 9	vancouverdentist.com #1, divisionsbc.ca #2
family dentist vancouver	Not in top 9	familydentistinvancouver.com #1, kitsfamilydentalcare.ca #2
teeth whitening vancouver	Not in top 9	oceanfrontdental.ca #1, simplywellnessdentalkingsway.com #2
dental implants vancouver	Not in top 9	vdsclinic.com #1, appledentalimplantcentre.com #2
invisalign vancouver	Not in top 9	smilevancouver.ca #1, pacificwestdental.com #2
emergency dentist vancouver	Not in top 9	smilevancouver.ca #1, vandental.ca #2
cosmetic dentist vancouver	Not in top 8	altadental.ca #1, aquabluedental.com #2
root canal vancouver	Not in top 8	altadental.ca #1, 750dental.com #2
modern dental clinic	#1 homepage, #2 contact page	No direct result ahead

The brand search is the one clean win

For modern dental clinic, the direct results are your own homepage at #1 and your contact page at #2. That is the normal pattern for a practice of this size, and it is the only search where your pages appear at all.

Other-city Modern Dental Clinics we cannot attribute

The titles "Modern Dental Clinic in Burlington", "Modern Dental Clinic in Surrey", "Modern Dental Clinic in Oshawa", "Dentistry At The Modern" in Toronto, and "Office Tour | Renew Dental Winnipeg | Modern Dental Clinic" appear as Google redirect entries at ranks 4 to 8 in the brand search. Their destinations are hidden in the redirect URLs, so they cannot be confirmed as Modern Dental Clinic pages from this data, and they are not counted as rankings. Do not read them as a win or a loss.

Method note: the emergency dentist vancouver search first returned HTTP 502 with no results on 6 November 2026, and succeeded on a retry the same day. Retry results are used. The other 9 searches returned ok on the first run. Summary top counts are 8 or 9 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in 0 of the 1 overview returned

An AI Overview was returned for 1 of 10 searches. The cosmetic dentist vancouver overview is a map-style list naming Yaletown Laser and Cosmetic Dentistry, Oceanfront Dental, Image Smiles Dental Vancouver, The Lowe Centre, Royal Centre Dental Group, and Westcoast Smile Dental. Modern Dental is named in none of it. The word "Modern" appears once in that overview inside the phrase "Modern Yaletown clinic", describing Yaletown's clinic; it is not a mention of Modern Dental Clinic.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Your llms.txt is missing, but crawlers are not blocked

llms.txt returns HTTP 404, so there is no clean source file for AI tools to quote. Your robots.txt, unlike many clinic sites, has no rule blocking general crawlers, so AI tools can read the site. Adding the llms.txt file is the cheapest AI visibility step in this report.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 10,502 words, 291 images, 40 missing alt text.

Money searches show no Modern Dental page - HIGH

No direct result for any of the 9 money searches. The service pages exist, dental implants, Invisalign, teeth whitening, emergency dental, porcelain veneers, root canal, preventive dentistry, and orthodontics, with real content, 726 to 942 words each, but none of them is the ranked answer for its own search. The gap is authority and visibility, not missing pages, except for family dentistry and cosmetic dentistry, where no dedicated page exists at all.

The homepage has no main heading - HIGH

The homepage has 0 H1 tags, confirmed by a direct fetch of the page on 6 November 2026. The other 11 audited pages have exactly 1 H1 each. Give the homepage one clear main heading that says what the practice is and where it is.

No family dentistry page and no cosmetic dentistry page - MEDIUM

The page sitemap lists 121 URLs and not one of them is a dedicated family dentistry page, and none is a dedicated cosmetic dentistry page. Porcelain veneers is the closest page to a cosmetic dentist search, and no page is a clear match for a family dentist search. Both searches are won by other Vancouver clinics with dedicated pages.

Titles run long on 4 pages and very short on 4 - MEDIUM

The homepage title is 87 characters, preventive dentistry 65, dental implants 63, and contact 62, all over 60. At the other end, Invisalign is one word at 10 characters, teeth whitening 15, orthodontics 19, and root canal 29, none naming Vancouver. The homepage title also carries a visible typo, a space before the comma in "Gum Disease Treatment , Cosmetic Dentistry".

Three pages have no meta description, four run long - LOW

Emergency, treatments, and contact have no meta description at all. Veneers runs 262 characters, the homepage 201, implants 194, and about our dentists 166, all over 160. Root canal at 73, Invisalign at 106, and whitening at 113 are short.

Alt text gaps - LOW

40 of 291 images are missing alt text. The homepage is 13 of 42, about our dentists 10 of 14, and treatments 10 of 33. The other 9 audited pages have 0 or 1 missing each. Alt text is the cheapest fix in this report.

Schema is one template everywhere - LOW

Every audited page carries the same Dentist, BreadcrumbList, GeoCoordinates, and PostalAddress markup. No FAQPage, Service, or LocalBusiness type was found on any audited page, even though the service pages answer real patient questions.

What is clean

Every canonical tag points to its own live URL. The robots.txt file blocks no crawlers. The sitemap lists 121 URLs. Your contact email moderndentalcorp@hotmail.com is verified on the site, on the homepage and the contact page, and the brand search returns your own pages at #1 and #2.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where Modern Dental leads

One direct organic #1 in this run, and only for your own name: the homepage is #1 for modern dental clinic, with the contact page at #2. In the brand map pack, Modern Dental is #1 at 4.4 with 31 reviews, ahead of Modern Broadway Dental at 4.8 with 28.

Where others lead

Vancouver Dentist leads dentist vancouver and dental clinic vancouver direct results. Family Dentist in Vancouver leads family dentist vancouver. Oceanfront Dental leads teeth whitening. VDS Clinic leads dental implants. Smile Vancouver leads invisalign and emergency dentist. Alta Dental leads cosmetic dentist and root canal. Royal Centre Dental Group leads most map packs, #1 in 3 of the 8 packs returned, including dentist vancouver, dental clinic vancouver, and emergency dentist vancouver.

Reviews and listings

SERP brand map pack: Modern Dental 4.4 with 31 reviews, address Vancouver, BC, #1; Modern Broadway Dental 4.8 with 28 #2; Modern Dental Technology Laboratory 5.0 with 4 reviews, address Winnipeg, MB, #3. No knowledge panel block was returned in any SERP record, so no knowledge panel rating is claimed. No Places API rating was returned in this run, so no Places rating is claimed. Modern Dental is in none of the structured map top 3s for the 8 money searches that returned a pack; no map pack was returned for family dentist vancouver.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Give the homepage one main heading

Add a single H1 to the homepage that says the practice name, the service, and Vancouver. This is the clearest on-page gap in the audit.

2. Build a family dentistry page and a cosmetic dentistry page

Two of the money searches have no page to rank at all. Build one dedicated page for each, with the exact search phrase in the title, the first heading, and the opening paragraph.

3. Add an llms.txt file

Describe the practice, its services, and its pages in one clean file for AI tools to quote. Your robots.txt already allows crawlers, so this one file closes the AI gap.

4. Fix the eight titles

Shorten the homepage, preventive dentistry, dental implants, and contact titles to under 60 characters, and fix the space before the comma in the homepage title. Lengthen the Invisalign, teeth whitening, orthodontics, and root canal titles so each names the service and Vancouver.

5. Fix the seven meta descriptions

Write one plain sentence each for emergency, treatments, and contact, which have none, and shorten veneers from 262 characters, the homepage from 201, implants from 194, and about our dentists from 166 into the 120 to 160 range.

6. Add alt text to the 40 images

Start with the homepage at 13 of 42, about our dentists at 10 of 14, and treatments at 10 of 33. This needs no new content, only descriptions of the images already on the pages.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the service pages

The family dentistry and cosmetic dentistry pages, the title and meta fixes, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the homepage heading, the two missing service pages, and the llms.txt file, then the title and meta fixes and the alt text, then the service page targeting, then the supporting guides. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Canada results were collected via Bright Data SERP API on 6 November 2026, market Canada. The emergency dentist vancouver search first returned HTTP 502 with no results, and succeeded on a retry the same day; the other 9 searches returned ok on the first run. A structured map pack was returned for 8 of 9 money searches, and Modern Dental is in the top 3 for none of them; no map pack was returned for family dentist vancouver. The brand map pack lists Modern Dental first, 4.4 with 31 reviews, Modern Broadway Dental second, 4.8 with 28, and Modern Dental Technology Laboratory third, 5.0 with 4, in Winnipeg, MB. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; an overview was returned for 1 of 10 searches, Modern Dental named in 0 of 1, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Modern Dental Clinic. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, and Modern Dental Clinic pricing.
