COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Reid Brothers Plumbing & Heating on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Reid Brothers Plumbing & Heating
Vancouver, residential and commercial plumbing and HVAC

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	BRAND ONLY	#2 for the brand search, but through the water-heating page, not the homepage. No direct result in the summary top 8 or 9 for any of the 9 money searches.
Google map packs	IN 1 OF 9	Reid is #3 in the map top 3 for water heater repair vancouver only. A structured map top 3 was returned for all 9 money searches. No map pack was returned for the brand search.
AI visibility in search	NOT NAMED	No AI Overview was returned for any of the 10 searches, so Reid is named in 0 of 0 returned overviews. Live Gemini and Bing answers have not been checked yet.
Page titles	MOSTLY FINE	11 of 12 audited titles are within 60 characters. The homepage at 63 runs over.
Page structure	NEEDS WORK	7 of 12 pages have no main heading at all, and 104 of 223 images are missing alt text.
Business details	STRONG	Your contact email info@reidbrothers.ca is verified on the site, and your SERP knowledge panel shows a 4.7 rating with 462 reviews.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: a strong reputation, and one map result

Reid has served Vancouver since 1976, the knowledge panel shows 4.7 with 462 reviews, and the business is #3 in the map pack for water heater repair vancouver. Schema markup is present on all 12 audited pages, and the contact email is verified on every one of them.

Biggest issue: the money searches show no Reid page, and 7 pages have no main heading

No direct result appears for plumber vancouver, plumbing company vancouver, emergency plumber vancouver, drain cleaning vancouver, water heater repair vancouver, hvac company vancouver, heating repair vancouver, furnace repair vancouver, or air conditioning repair vancouver. The pages that do rank are other Vancouver companies, directories, and review sites, not your service pages. On the site itself, 7 of 12 pages have no H1 at all, including the homepage, and 104 of 223 images are missing alt text.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	REID	WHO IS AHEAD
plumber vancouver	Not in top 9	vancouver.ca #1, stores.homedepot.ca #2
plumbing company vancouver	Not in top 8	reddit.com #1, reliancehomecomfort.com #2
emergency plumber vancouver	Not in top 9	milani.ca #1, pioneerplumbing.com #2
drain cleaning vancouver	Not in top 9	rotorooter.com #1, bbb.org #2
water heater repair vancouver	Not in top 9	trueblueplumbing.ca #1, impetusplumbingheating.com #2
hvac company vancouver	Not in top 9	No direct leader, see note below
heating repair vancouver	Not in top 9	milani.ca #1, ecoproheating.ca #2
furnace repair vancouver	Not in top 9	bcfurnace.com #1, pioneerplumbing.com #2
air conditioning repair vancouver	Not in top 9	bcwide.ca #1, yelp.ca #2
reid brothers plumbing	#2 through the water-heating page	ca.indeed.com #1, your salaries page

The hvac company search has no direct leader at all

For hvac company vancouver, all 9 organic summary rows are Google redirect entries, so no direct leader can be named for that search. That is a gap in the data, not a normal ranking miss, and Reid's absence from that set is not treated as one. The map pack for the same search does return companies, with Eco Pro Heating and Cooling first among the non-sponsored entries.

The brand search points at a service page, not the homepage

For reid brothers plumbing, the only direct Reid result is the water-heating page at #2. The homepage does not appear as a direct result in the brand summary top 9. That is unusual for a company of this size, and worth checking before anything else.

Method note: the first run on 6 November 2026 returned 8 of 10 searches ok. The brand search and plumbing company vancouver returned HTTP 502 and were retried; both were ok by 09:09 UTC. Summary top counts are 8 to 9 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

No overview returned for any of the 10 searches

A top-level AI Overview key was returned for 0 of 10 searches, so Reid is named in 0 of 0 returned overviews. That is a blank in this snapshot, not a named miss: Google returned no AI Overview to name anyone in.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Your llms.txt is missing, and your schema has gaps

Your llms.txt returns a 404, and while schema markup is present on all 12 audited pages, no LocalBusiness, HVACBusiness, Service, or FAQPage type was found on any of them. An llms.txt file and service schema are the clean sources AI tools can quote, so both are worth adding.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 8,581 words, 223 images, 104 missing alt text.

Money searches show no Reid page - HIGH

No direct result for any of the 9 money searches, and Reid is in only 1 of the 9 map top 3s. The service pages exist, water heating, drain cleaning, heating systems, furnace, heat pumps, central air, and gas services, with real content, 377 to 677 words each, but none of them is the ranked answer for its own search. The gap is authority and visibility, not missing pages.

7 pages have no main heading - HIGH

The homepage, water heaters, drain cleaning, furnace, heat pumps, about, and contact pages all have 0 H1s, confirmed by direct fetch and by the audit tool. The other 5 pages have exactly 1 H1 each. Give every page one clear main heading, starting with the homepage.

104 of 223 images are missing alt text - MEDIUM

Every audited page has at least 4 images missing alt text. Worst are drain cleaning, furnace, and heat pumps at 13 each, and the homepage at 13 of 42. Alt text is the description search engines and screen readers use for an image, so this is a straightforward fix across the set.

Contact page has no meta description and the wrong canonical - MEDIUM

The contact page has no meta description at all, and its canonical tag points to https://www.reidbrothers.ca/schedule-online/ instead of its own address. Give the page a one-sentence description and point the canonical at the contact page itself.

Homepage title runs long - LOW

The homepage title is 63 characters, over 60. The other 11 titles are in the 31 to 56 range. Shorten the homepage title to fit.

What is clean

Meta descriptions are present and in the 101 to 141 range on 11 of 12 pages, none over 160. Canonical tags point to their own live URL on 11 of 12 pages. Schema markup is present on all 12 pages. The About page at 1,482 words and the FAQ page at 1,406 words are deep, useful pages. Your contact email info@reidbrothers.ca is verified on the site, on the homepage and the contact page.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where Reid leads

No direct organic #1 in this run. The best organic result is #2 for the brand search, through the water-heating page. In the map packs, Reid is #3 for water heater repair vancouver, the only top 3 in this run.

Where others lead

Red Seal Plumbing leads 3 of the 9 map packs at #1, plumber vancouver, plumbing company vancouver, and water heater repair vancouver, with 5.0 and 768 reviews. Milani Plumbing, Heating and Air Conditioning leads emergency plumber vancouver and heating repair vancouver in direct results. Eco Pro Heating and Cooling leads the heating repair and furnace repair map packs. Directories and review sites lead several searches outright, including the City of Vancouver site for plumber vancouver and Reddit for plumbing company vancouver.

Reviews and listings

SERP brand knowledge panel: Reid Brothers Plumbing and Heating Ltd., "HVAC contractor in Vancouver, British Columbia", rating 4.7 with 462 reviews, 1636 W 75th Ave, Vancouver, BC V6P 6G2, phone (604) 263-0323, hours Open 24 hours. No Places API rating was returned in this run, so no Places rating is claimed. No map pack was returned for the brand search.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Add a main heading to the 7 pages that have none

Start with the homepage, then water heaters, drain cleaning, furnace, heat pumps, about, and contact. One clear H1 per page, naming the service and Vancouver where it fits.

2. Fix the contact page description and canonical

Write a one-sentence meta description for the contact page, and point its canonical tag at the contact page itself instead of the schedule-online address.

3. Add alt text to the 104 images missing it

Start with the service pages, drain cleaning, furnace, and heat pumps at 13 each, and the homepage at 13 of 42. One plain sentence per image, describing what it shows.

4. Shorten the homepage title

Cut the homepage title from 63 characters to fit inside 60, keeping the business name and Vancouver in it.

5. Add LocalBusiness, Service and FAQPage schema, and an llms.txt file

Mark up the service pages with Service schema, the FAQ page with FAQPage schema, and the business with a LocalBusiness type, and publish an llms.txt file so AI tools have a clean source to quote.

6. Aim the service pages at their searches

The service pages are real pages with real content, but none ranks for its own search. Add the exact search phrase to the first heading and opening paragraph of each service page, and build supporting guides that link back to them.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the service pages

The service page rewrites, the heading, title and meta fixes, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the 7 missing main headings, the contact page description and canonical, and the 104 images missing alt text, then the homepage title and the schema and llms.txt, then the service page targeting, then the supporting guides. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Canada results were collected via Bright Data SERP API on 6 November 2026, market Canada. The first run returned 8 of 10 searches ok; the brand search and plumbing company vancouver returned HTTP 502 and were retried, both ok by 09:09 UTC. A structured map pack was returned for 9 of 10 searches, and Reid is in the top 3 for 1 of them; no map pack was returned for the brand search. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 0 of 10 searches, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Meta descriptions in this report are the real meta tags, verified by direct fetch on 6 November 2026. Public information only, no logins. This report is complimentary and confidential to Reid Brothers Plumbing & Heating. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, and Reid Brothers pricing.
