COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How buyers find Sun State HVAC on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
Sun State HVAC
Phoenix AZ, HVAC and refrigeration

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 Novem

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	FIX	Sun State HVAC does not appear as a direct sunstatehvac.com result in the SERP summary top 8 to 10 for any of the 10 searches in this run, including its own brand search.
Google map packs	PARTIAL	Sun State HVAC is #2 in the map pack for its brand search only, rating 4.3 with 12 reviews in SERP map data. It is in none of the 9 money search map packs.
AI visibility in search	NOT RETURNED	No SERP AI Overview was returned for any of the 10 searches in this run. Live Gemini and Bing answers have not been checked yet and are marked as not yet checked.
Page titles	FIX	Every one of the 12 audited pages has a title of 144 to 176 characters, all over 60 characters, with the site name repeated inside the title text on several pages.
Page structure	MIXED	7 of 12 pages have exactly 1 main heading, 5 have more than 1. Images are clean: 0 of 384 images missing alt text.
Business details	WATCH	Schema is missing on maintenance and service areas, and no FAQ schema was found in the audited set. Llms.txt is present, but it lists template URLs and links to a sitemap address that returns 404.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed in this report.

Biggest issue: invisible in organic results, even for your own name

Your service pages match every money search in this run, yet none appears as a direct result in the summary top 8 to 10. For your own name, the top organic results belong to a different business, Sunstate Heating and Cooling of Peoria and Goodyear. Your only Sun State HVAC entry in the brand organic summary is a Google redirect entry at #3, which is not counted as a direct ranking in this report.

Biggest strength: a real map presence for your name, and clean images

You are #2 in the map pack for sun state hvac, with a 4.3 rating and 12 reviews in SERP map data, and 0 of 384 audited images are missing alt text. Keep those facts, and fix the review figure conflict below before publishing a single rating.

2 Where you rank on Google today

Google US, Bright Data SERP API, 4 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	SUN STATE HVAC	WHO IS AHEAD
ac repair phoenix	Not in top 9	scottsdaleair.com #1, angi.com #2
hvac repair phoenix	Not in top 9	idealairaz.com #1, thumbtack.com #2
commercial hvac repair phoenix	Not in top 9	parkerandsons.com #1, yelp.com #2
restaurant refrigeration phoenix	Not in top 9	Summary top entries are Google redirect entries, so no competitor is named from a redirect entry alone
air conditioner replacement phoenix	Not in top 10	idealairaz.com #1, brewersac.com #2
heating repair phoenix	Not in top 9	hobaica.com #1, parkerandsons.com #2
hvac maintenance phoenix	Not in top 9	parkerandsons.com #1, yelp.com #2
ac tune up phoenix	Not in top 8	Summary returns Phoenix city, mythology, airport and university pages, not HVAC pages, so this search is a failed intent match in the summary
hvac services phoenix	Not in top 9	parkerandsons.com #1, goettl.com #2
sun state hvac		

	Not in top 9 as a direct result	A different business leads: Sunstate Heating and Cooling, Peoria AZ, Facebook #1, and Goodyear AZ, Yelp #2

The pattern is clear

Every money page exists, but none breaks into the summary top 8 to 10. The most visible on-page factor that fits that pattern is the site-wide title problem: every audited title is 144 to 176 characters. This report does not prove titles alone caused the absence, but titles are the first fix that touches every money page at once.

Method note: all 10 SERP searches returned ok on 4 November 2026, no retries needed. A map pack was returned for all 10 searches, and Sun State HVAC appears only in the brand search pack.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 4 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

No SERP AI Overview returned for any search

No ai_overview key was returned in any of the 10 SERP records in this run: ac repair phoenix, hvac repair phoenix, commercial hvac repair phoenix, restaurant refrigeration phoenix, air conditioner replacement phoenix, heating repair phoenix, hvac maintenance phoenix, ac tune up phoenix, hvac services phoenix, and sun state hvac. Sun State HVAC is therefore named in 0 of 10 SERP AI Overviews, because none was returned.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt still matters here

Your llms.txt is present and dated 4 November 2026, which is a strength. Clean it up, remove the template URLs from Recent Content, and fix its sitemap link from the 404 address to the working sitemap, so AI tools have a clean source to quote.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 4 November 2026, 21303 words, 384 images, 0 missing alt text.

Titles, site-wide - HIGH

Every audited title is 144 to 176 characters: homepage 146, ac repair 158, commercial 163, restaurant 175, replacement 170, heating 159, maintenance 149, tune-up 166, services 176, about 147, service areas 164, reviews 144. Rewrite each money page title to one clear search phrase plus the brand once, and stop the repeated brand text that appears in the audit tool output.

Brand confusion - HIGH

Brand search organic results are led by Sunstate Heating and Cooling of Peoria and Goodyear, not by Sun State HVAC of Phoenix. Make the homepage and contact page the obvious brand answer, with the full business name, Phoenix address, phone and service area in plain text.

Review figure conflict - MEDIUM

The rendered homepage shows 5.0 based on 3 reviews, while the SERP brand map pack shows Sun State HVAC at 4.3 with 12 reviews. This report publishes both figures with their sources and does not pick one as the verified rating. Reconcile the on-page display with the live listing, or remove the widget until it is settled.

Headings - MEDIUM

7 of 12 pages have exactly 1 H1. 5 have more than 1: homepage 2, commercial 2, replacement 2, service areas 2, services 3. Fix duplication starting with services.

Meta descriptions - MEDIUM

4 of 12 meta descriptions are over 160 characters: ac repair 180, maintenance 191, restaurant 174, service areas 175. The other 8 are 122 to 151 characters.

Missing schema - MEDIUM

Maintenance and service areas have no schema found by the audit tool. No FAQPage schema was found in the audited set, even though the homepage already carries a FAQ section in plain text.

Llms.txt and sitemap - LOW

Llms.txt is present and dated 4 November 2026, but it lists Elementor library template URLs and links to /sitemaps.xml, which returns 404, while the working sitemap is /sitemap.xml with 29 URLs. The public sitemap also includes payment-confirmed and service-request-confirmed pages, which should be reviewed.

What is clean

0 of 384 images are missing alt text. Every audited canonical tag points to the audited URL itself. Every audited page has a mobile viewport. Keep that structure.

5 How you compare

From SERP direct domain results and map packs, 4 November 2026. Google redirect entries are not named as competitors.

Where Sun State HVAC leads

Map pack only, for your own name: #2 for sun state hvac, rating 4.3 with 12 reviews in SERP map data. No direct organic win in the summary top 8 to 10 for any of the 10 searches in this run.

Where others lead

Parker and Sons leads direct results for commercial hvac repair, hvac maintenance and hvac services, and recurs in map packs with 4.7 and 34000 reviews in SERP data. Day and Night Air Conditioning leads map packs for ac repair, hvac repair, replacement, heating, maintenance and services, with 4.9 and 9900 reviews in SERP data. Scottsdale Air leads ac repair direct results, Ideal Air leads hvac repair and replacement direct results, Hobaica leads heating repair direct results, and North Valley Mechanical leads commercial hvac repair map results.

Reviews and listings

SERP brand map pack: Sun State HVAC #2, 4.3 with 12 reviews. Homepage widget: 5.0 based on 3 reviews. No Places API rating was returned in this run, so no Places rating is claimed. Sun State HVAC is in none of the 9 money search map packs in this run.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Fix titles site-wide

Rewrite all 12 audited titles, starting with the money pages, to one search phrase plus the brand once.

2. Fix brand confusion

Make the homepage and contact page the obvious brand answer for Sun State HVAC of Phoenix, distinct from Sunstate Heating and Cooling of Peoria and Goodyear.

3. Fix the review display

Reconcile the homepage widget with the SERP brand map pack figure, or remove the widget until the listing figure is settled.

4. Fix H1 duplication

Homepage, commercial, replacement, service areas and services, starting with services at 3 H1s.

5. Trim meta descriptions and add schema

Trim ac repair, maintenance, restaurant and service areas descriptions, and add schema to maintenance and service areas.

6. Clean llms.txt and the sitemap

Remove template URLs from llms.txt, fix its sitemap link, and review confirmation pages in the public sitemap.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 4 November 2026.

Days 31 to 60 - Rebuild for money searches

Title, heading and schema rebuilds, brand page clarity, and first two buyer guides for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether money searches and map packs have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with titles, brand clarity, and the review display, then money pages for the searches where no direct result appears yet. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 4 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google US results were collected via Bright Data SERP API on 4 November 2026, market US. A map pack was returned for all 10 searches, and Sun State HVAC appears only in the brand search pack. Speed: PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; no AI Overview was returned for any search in this run, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Sun State HVAC. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a single verified review rating, and Sun State HVAC pricing.
