COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Heritage Village Dental Clinic on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Heritage Village Dental Clinic
Edmonton, dental clinic

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 20

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	WEAK	One direct win, your own name at #1 through the homepage. No direct result for any of the other 9 searches.
Google map packs	WEAK	In none of the map top 3s for the 9 searches that returned a pack. No pack was returned for the brand search.
AI visibility in search	NOT NAMED	One SERP AI Overview was returned, for cosmetic dentist edmonton, and it does not name Heritage Village. Live Gemini and Bing answers have not been checked yet.
Page titles	WATCH	Homepage title is 64 characters, over 60. The other 4 titles are within 60.
Page structure	WEAK	3 of your 5 pages have no main heading at all, and the services page has 2. Only the contact page has exactly 1.
Business details	WATCH	llms.txt is present and your contact email hvdc@telus.net is verified on the homepage and contact page, but no schema was found by the audit tool on any page.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: people who already know your name find you

Your homepage is #1 for your own name, your knowledge panel shows 4.7 with 35 reviews at 2035 111 St NW, and your llms.txt gives AI tools a clean source to quote. A practice running since 1991 with 17 named staff has more to show than a 5-page site lets it show.

Biggest issue: nobody searching for a dentist in Edmonton sees you

No direct result appears for dentist edmonton, dental clinic edmonton, family dentist edmonton, or any of the six treatment searches. The site has only 5 pages, and every treatment lives as a section of one services hub page, so there is no page for Google to rank for implants, Invisalign, whitening, or emergency dentistry.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	HERITAGE VILLAGE	WHO IS AHEAD
dentist edmonton	Not in top 9	westmountdental.ca #1, norwood.dental #2
dental clinic edmonton	Not in top 9	kensingtondentalclinic.ca #1, landmarkdentalyeg.ca #2
family dentist edmonton	Not in top 9	kingswaydentist.ca #1, mysmilefamilydental.com #2
teeth whitening edmonton	Not in top 9	aponiadental.ca #1, azarkodental.com #2
dental implants edmonton	Not in top 8	smilehavenfamilydental.ca #1, makdental.com #2
invisalign edmonton	Not in top 9	citycentredental.ca #1, bonniedoondentist.com #2
emergency dentist edmonton	Not in top 9	edmontonemergencydentists.com #1, glenriddingdental.com #2
cosmetic dentist edmonton	Not in top 9	designdentistry.ca #1, vividdental.ca #2
root canal edmonton	Not in top 9	jlendodontics.com #1, dentistsatnorthgate.ca #2
heritage village dental clinic	#1 through the homepage	No other direct result ahead; instagram.com #2

Your only win is the search people run when they already know you

The homepage at #1 for your own name is a real win, and it proves Google knows the site. But every search a new patient would run, from dentist edmonton to root canal edmonton, shows other clinics instead. That is a coverage problem, not a quality problem: there is no page on the site built for any of those searches.

Method note: family dentist edmonton first returned HTTP 502 with no results on 6 November 2026. It succeeded on retry the same day, and retry results are used. Summary top counts are 8 or 9 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

One overview returned, and it does not name you

A top-level AI Overview key was returned for 1 of 10 searches, cosmetic dentist edmonton. It names Dental Design Concepts (Dr. Cornell Lee), Davinci Smiles, Smiles First Corporation, and Phan Dental Design. Heritage Village Dental Clinic is not named in it.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt still matters here

Your llms.txt is present and describes a long-standing practice in Southwest Edmonton since 1991, with general and cosmetic services, team, hours and contact details, plus a Wix MCP endpoint for AI agents. That gives AI tools a clean source to quote when an overview does appear. Keep it accurate, and make sure the services it lists match the pages that actually exist.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

5 URLs audited on 6 November 2026, the entire site, 3,336 words, 261 images, 14 missing alt text.

Only 5 pages, and no page for any treatment - HIGH

The whole site is a homepage, a services hub, a contact page, an FAQ page, and a team page. Implants, Invisalign, whitening, emergency dentistry, root canal and cosmetic dentistry have no page of their own. That is the single biggest reason no money search shows the clinic.

3 of 5 pages have no main heading - HIGH

The homepage, the FAQ page, and the team page have 0 H1s. The services page has 2, one of which is the navigation label "Jump to". Only the contact page has exactly 1 H1. Give every page one clear main heading that says what the page is.

Homepage title and meta are too long - MEDIUM

The homepage title is 64 characters and its meta description is 188 characters, both over the usual display limits, so search results cut them off. The services meta is also over at 167 characters. Shorten the homepage title to the clinic name plus one service phrase, and the homepage meta to under 160 characters.

No schema found by the audit tool - MEDIUM

No schema type was found by the audit tool on any of the 5 pages. No Dentist, LocalBusiness, FAQPage or AggregateRating type was found. Add Dentist schema to the homepage with the address, phone, hours and 4.7 rating, and FAQPage schema to the FAQ page, which already answers the questions.

Map presence - LOW

Heritage Village is in none of the map top 3s for the 9 searches that returned a pack. The knowledge panel figure is 4.7 with 35 reviews, named here with its source, not as a Places

rating. The map leaders in this run carry hundreds or thousands of reviews; steady review gathering is the slow lever here, while the missing pages are the fast one.

Alt text - LOW

14 of 261 images missing alt text. Homepage 10 of 101 is the worst page; the other 4 pages have 1 missing each.

Thin pages - LOW

Contact 218 words, homepage 377 words, FAQ 511 words. These are the shortest pages in the set. The homepage is also the page with no H1 and the longest title and meta, so fix it first.

What is clean

Every audited canonical tag points to the audited URL itself. Every audited page has a mobile viewport. The page sitemap lists all 5 URLs with lastmod 2026-07-13, robots.txt allows general crawlers with a sitemap line, and llms.txt is present.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where Heritage Village leads

One direct organic win: #1 for your own name through the homepage. Knowledge panel: 4.7 with 35 reviews, 2035 111 St NW, Edmonton, AB T6J 4V9, (780) 437-4000, named with its source as SERP panel data, not a Places rating.

Where others lead

Westmount Dental Centre leads dentist edmonton direct results. Kensington Dental Clinic leads dental clinic edmonton. Kingsway Dental Centre leads family dentist edmonton. Aponia Dental leads teeth whitening. Smile Haven Family Dental leads dental implants. City Centre Dental leads Invisalign. Edmonton Emergency Dentists leads emergency dentist edmonton. Design Dentistry leads cosmetic dentist edmonton. JL Endodontics leads root canal edmonton.

Reviews and listings

SERP brand knowledge panel: Heritage Village Dental Clinic, rating 4.7 with 35 reviews, 2035 111 St NW, Edmonton, AB T6J 4V9, phone (780) 437-4000. No Places API rating was returned in this run, so no Places rating is claimed. Heritage Village is in the structured map top 3 for 0 of 10 searches; a map pack was returned for 9 of 10, and no pack was returned for the brand search.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Build dedicated pages for the money treatments

One page each for dental implants, Invisalign, teeth whitening, and emergency dentistry in Edmonton, with the phrase in the title and first heading, and the clinic's Southwest Edmonton location in the copy. This is the gap behind all 9 searches with no direct result.

2. Give every page one main heading

Add an H1 to the homepage, the FAQ page, and the team page, and remove the second H1 ("Jump to") from the services page. The homepage H1 should say what the clinic is and where it is.

3. Shorten the homepage title and meta

Homepage title to 60 characters or fewer, homepage meta and services meta to under 160 characters, keeping the Edmonton phrase in both.

4. Add Dentist and FAQPage schema

Dentist schema on the homepage with address, phone, hours and rating, and FAQPage schema on the FAQ page where the questions are already answered.

5. Fix the homepage alt text

10 of 101 homepage images are missing alt text. Fix those ten and the image set is nearly clean.

6. Keep gathering reviews

The map leaders in this run carry hundreds or thousands of reviews against your 35 in the SERP panel. Keep review gathering steady and make sure the listing name, address and phone match the website exactly.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Build the treatment pages

The dedicated implants, Invisalign, whitening and emergency pages, the homepage rebuild, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the treatment pages, the missing headings, and schema, then the homepage title and meta. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 5 URLs on 6 November 2026, the entire site (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Canada results were collected via Bright Data SERP API on 6 November 2026, market Canada. Family dentist edmonton first returned HTTP 502 with no results and succeeded on retry the same day; retry results are used. A structured map pack was returned for 9 of 10 searches, and Heritage Village is in none of the top 3s; no map pack was returned for the brand search. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 1 of 10 searches, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Heritage Village Dental Clinic. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, and pricing.
