COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find IMK on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
IMK (Irving Mitchell Kalichman s.e.n.c.r.l./LLP)
Montreal, litigation and dispute resolution

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	BRAND ONLY	#1 for your own name, imk montreal, through the English homepage. No direct result in the summary top 9 for any of the other 9 searches.
Google map packs	MISSING	A structured map top 3 was returned for all 9 money searches, and IMK is in none of them. No map pack was returned for the brand search.
AI visibility in search	NOT NAMED	No SERP AI Overview was returned for any of the 10 searches, so there is no overview naming IMK in this run. Live Gemini and Bing answers have not been checked yet.
Page titles	WATCH	All 12 audited titles are within 60 characters, but none carries a money phrase: no title says litigation, Montreal, or lawyer.
Page structure	WATCH	All 12 pages have exactly 1 main heading, but 9 of 12 meta descriptions are over 160 characters, and every image on every audited page is missing alt text.
Business details	WATCH	No schema was found on any audited page, llms.txt is not present, and your contact email info@imk.ca is verified on the homepage and the contact page.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: your name search works

Your English homepage is #1 for imk montreal, and your SERP knowledge panel shows the firm, its Montreal address, phone, and hours. People who already know the firm find it. That is the one clean win in this run.

Biggest issue: the money searches do not show you at all

No direct result appears for litigation lawyer montreal, commercial litigation lawyer montreal, class action lawyer montreal, dispute resolution lawyer montreal, arbitration lawyer montreal, construction lawyer montreal, insurance litigation lawyer montreal, appellate lawyer montreal, or shareholder dispute lawyer montreal. The pages that do rank are other firms, directories, and referral pages, not your practice pages.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	IMK	WHO IS AHEAD
litigation lawyer montreal	Not in top 9	barreaudemontreal.qc.ca #1, montreallawyers.com #2
commercial litigation lawyer montreal	Not in top 9	paquette.legal #1, lavery.ca #2
class action lawyer montreal	Not in top 9	cassels.com #1, bestlawyers.com #2
dispute resolution lawyer montreal	Not in top 9	lavery.ca #1, bestlawyers.com #2
arbitration lawyer montreal	Not in top 9	franklinlegal.com #1, bestlawyers.com #2
construction lawyer montreal	Not in top 9	bernierbeaudry.com #1, bcf.ca #2
insurance litigation lawyer montreal	Not in top 9	lexpert.ca #1, pitblado.com #2
appellate lawyer montreal	Not in top 9	millerthomson.com #1, montreallawyers.com #2
shareholder dispute lawyer montreal	Not in top 9	langlois.ca #1, mennehlegal.com #2
imk montreal	#1 through the English homepage	No other direct result ahead; bestlawyers.com #2

The brand win is the English homepage, not the French one

Your site is French-first, and the French homepage is at https://imk.ca/. The #1 brand result is the English homepage at https://imk.ca/en/. Both languages need to work, but the English pages are the ones this audit checked, and they are the ones Google is showing for the English brand search.

Method note: construction lawyer montreal first returned HTTP 502 with no results on 6 November 2026, and two further retries the same day also returned 502. A third retry the same day returned a full record with 9 organic results, and those results are used. Summary top counts are 9 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

No overview returned for any of the 10 searches

A top-level AI Overview key was returned for 0 of 10 searches, so there is no overview in this run naming IMK, and none naming a competitor either. That is a blank in the data, not evidence that AI tools never mention the firm.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt matters here

Your llms.txt returns 404, so it is not present. AI tools have no clean, short source from you to quote when an overview does appear. A short llms.txt in both languages, describing the firm, its practice areas, and its Montreal base, would give those tools something accurate to use.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 5,800 words, 106 images, 106 missing alt text.

Money searches show no IMK page - HIGH

No direct result for any of the 9 money searches. The practice pages exist, civil and commercial, class actions, arbitration and mediation, construction, insurance, appellate advocacy, and shareholder disputes, but none of them is the ranked answer for its own search. The pages need the search phrase in the title and first heading, and more content than the 375 to 515 words they carry now.

Titles say nothing about the work - HIGH

Every audited title is within 60 characters, but none says litigation, Montreal, or lawyer. Firm is 10 characters, Team is 10, Insurance is 15, Contact us is 16, Construction is 18, Class actions is 19. Short titles are not the problem here; empty ones are. Give each practice page a title that names the practice and the city.

Meta descriptions are cut off - MEDIUM

9 of 12 meta descriptions are over 160 characters: 8 pages at exactly 300 characters, and team at 202. Only the homepage, at 144, is in the usual range. The contact page, at 23 characters, is nearly empty. Rewrite the 300-character descriptions to fit the display, and write a real one for the contact page.

Every image is missing alt text - MEDIUM

106 of 106 images are missing alt text. Team is 34 of 34, homepage 14 of 14, firm 12 of 12. Alt text is the cheapest fix in this report, and it is needed on every page.

No schema anywhere - MEDIUM

No schema.org markup was found on any of the 12 audited pages by the tool. Add Organization and LegalService schema, and Service schema to the practice pages, so Google and AI tools can read what the firm is and what it does.

Map packs - HIGH

IMK is in none of the structured map top 3s for the 9 money searches, while the same firms repeat across the packs: Amlea Legal, Lewis et Associes, Lambert Avocats, Menneh Legal, and Schneider Avocats. Your SERP panel figure is 4.0 with 6 reviews, named here with its source, not as a Places rating. That is a thin review base next to the firms leading the packs.

Thin pages - LOW

Areas of practice 375 words, insurance 376, arbitration and mediation 425, civil and commercial 428, shareholder disputes 432, contact 458, construction 469, class actions 483. These are the shortest pages in the set, and they are the pages that need to rank.

What is clean

All 12 pages have exactly 1 main heading. Every audited canonical tag points to the audited URL itself. Every audited page has a mobile viewport. The sitemap at sitemap.php lists 890 URLs, and robots.txt allows general crawlers with a sitemap line present. Your contact email info@imk.ca is verified on the homepage and the contact page.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where IMK leads

One direct organic win: #1 for imk montreal through the English homepage. No map pack position in this run.

Where others lead

Lavery leads commercial litigation and dispute resolution direct results. Cassels leads class action direct results. Franklin Legal leads arbitration direct results. Bernier Beaudry leads construction direct results. Miller Thomson leads appellate direct results. Langlois leads shareholder dispute direct results. Paquette Legal leads commercial litigation at #1. The Bar of Montreal referral service leads litigation lawyer direct results.

Reviews and listings

SERP brand knowledge panel: IMK sencrl/LLP, rating 4.0 with 6 reviews, 3500 Blvd. De Maisonneuve Ouest Ste 1400, Westmount, Quebec H3Z 3C1, phone (514) 935-4460, open Monday to Friday 8:30 a.m. to 5 p.m. No Places API rating was returned in this run, so no Places rating is claimed. IMK is in the structured map top 3 for 0 of 9 money searches; no map pack was returned for the brand search.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Rewrite the practice page titles

Give each practice page a title that names the practice, the word lawyer, and Montreal, starting with civil and commercial, class actions, and arbitration and mediation. This is the fastest change, and it touches the pages that need to rank.

2. Rewrite the meta descriptions

Cut the 8 descriptions at 300 characters down to fit the display, rewrite the team description at 202, and write a real description for the contact page at 23 characters.

3. Add alt text to every image

Start with the team page at 34 of 34, the homepage at 14 of 14, and the firm page at 12 of 12. This needs no new content, only descriptions of the images already on the pages.

4. Add schema and llms.txt

Add Organization and LegalService schema sitewide and Service schema to the practice pages. Add a short llms.txt in both languages, since AI tools currently have no clean source from the firm to quote.

5. Deepen the thin practice pages

Expand the practice pages from 375 to 515 words with the work the firm actually does, the process, and the questions clients ask, starting with the pages behind the money searches.

6. Work on the map presence

IMK is in no map top 3 in this run. Keep the listing name, address, and phone exactly matching the website, and build the review base up from the 6 reviews shown in the SERP panel.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the practice pages

The practice page rewrites, the schema and llms.txt work, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the practice page titles, the meta descriptions, and the alt text, then schema and llms.txt, then the practice page content. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). The 12 audited pages are the English versions at imk.ca/en/. Google Canada results were collected via Bright Data SERP API on 6 November 2026, market Canada. Construction lawyer montreal first returned HTTP 502 with no results, and two further retries the same day also returned 502; a third retry the same day returned a full record, and those results are used. A structured map pack was returned for 9 of 10 searches, and IMK is in the top 3 for none of them; no map pack was returned for the brand search. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 0 of 10 searches, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to IMK (Irving Mitchell Kalichman s.e.n.c.r.l./LLP). Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, and IMK pricing.
