1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	MIXED	3 direct wins in the summary top 8 or 9: #2 for lawyer weyburn through the about page, #2 for criminal lawyer weyburn and #2 for corporate lawyer weyburn, both through the homepage. No direct result for the other 7 searches, including your own name.
Google map packs	STRONG	In the map top 3 for 7 of 10 searches, at #2 in all 7, behind Schuck Law Firm at #1 in six of them. Rating 4.5 in the map data, with no review count shown there.
AI visibility in search	NAMED	An AI Overview was returned for 1 of 10 searches, your own name, and it names Weger Paradis Law Firm and links to your homepage. No overview was returned for the other 9 searches. Live Gemini and Bing answers have not been checked yet.
Page titles	WEAK	The about page is titled "General 1" and the contact page "Contact 3", which are Squarespace placeholder names, and the homepage title is 22 characters with no service or city phrase.
Page structure	WEAK	All 5 pages have 0 main headings, 4 of 5 have no meta description at all, and the homepage meta is 391 characters. 27 of 37 images are missing alt text.
Business details	WATCH	Schema is LocalBusiness and WebSite on all 5 pages, and your contact email law@wegerparadis.com is verified on the site. But llms.txt is missing, and the whole site is only 5 pages, so six practice areas share one page.
Speed		

NOT MEASURED

PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: the map pack and the AI overview both name you

You are #2 in the map top 3 for seven searches, and the AI Overview for your own name describes the firm and links to your homepage. That is real visibility that the website rankings alone do not show.

Biggest issue: the website itself has no main heading anywhere

None of the 5 pages has a single H1, four have no meta description, and two carry Squarespace placeholder titles. Google can still rank the firm, as the three #2 results show, but the pages give it almost nothing to work with.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	WEGER PARADIS	WHO IS AHEAD
lawyer weyburn	#2 through /aboutus	hollidayandcompany.com #1
law firm weyburn	Not in top 9	www.nswb.ca #1, nprobinson.com #2
estate lawyer weyburn	Not in top 9	mysask411.com #1, a Weger directory listing, not your site; www.cmgtlaw.ca #2
real estate lawyer weyburn	Not in top 9	mysask411.com #1, a Schuck listing; kanuka.ca #2
wills lawyer weyburn	Not in top 9	divorce.law #1, www.yellowpages.ca #2
criminal lawyer weyburn	#2 through the homepage	seanfagan.ca #1
family lawyer weyburn	Not in top 9	lss.alinityapp.com #1, sk.211.ca #2
divorce lawyer weyburn	Not in top 9	www.martindale.com #1, franciscolaw.ca #2
corporate lawyer weyburn	#2 through the homepage	www.schucklawfirm.ca #1
weger paradis	Not in top 8 as a direct result	mysask411.com #1, a Lawyers in Estevan page; www.mapquest.com #2, Thorson & Horner

Your own name does not show your site

The brand search has no direct wegerparadis.com result in the summary top 8. The firm appears only as Google redirect entries at #5, #6 and #7, which are not counted as rankings. A directory page for lawyers in Estevan, a different city, is the direct #1. That is the clearest single gap in this report.

One win comes from the wrong page

Lawyer weyburn ranks #2 through the about page, which is titled "General 1", not through a services page. A visitor searching for a lawyer lands on the about page instead of a page that describes what the firm does.

Method note: real estate lawyer weyburn first returned HTTP 502 with no results on 6 November 2026. It succeeded on retry the same day, and retry results are used. Summary top counts are 8 or 9 per search, because that is how many organic rows the SERP summary returned. Only 2 of those rows per search are direct-domain results; the rest are Google redirect entries.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

The AI Overview for your own name names you

An overview was returned for 1 of 10 searches, weger paradis, and it names Weger Paradis Law Firm, linked to your homepage. Its text reads: "Weger Paradis Law Firm (formerly known as NSWB Law Firm) is a full-service law firm located in Weyburn, Saskatchewan, Canada." Its references are your homepage and your Facebook page.

No overview for the other 9 searches

No top-level AI Overview key was returned for lawyer weyburn, law firm weyburn, estate lawyer weyburn, real estate lawyer weyburn, wills lawyer weyburn, criminal lawyer weyburn, family lawyer weyburn, divorce lawyer weyburn, or corporate lawyer weyburn. That is a blank in the data, not evidence that AI tools never mention the firm.

Why llms.txt matters here

Your llms.txt is missing, it returns 404. AI tools have no clean text file from your site to quote when an overview does appear. The brand overview above had to rely on your homepage and Facebook page instead. A short llms.txt describing the firm, its six practice areas, and its Weyburn base is a quick win.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

5 URLs audited on 6 November 2026, the whole site, 1,813 words, 37 images, 27 missing alt text.

No main heading on any page - HIGH

All 5 pages have 0 H1s. There is no main heading on the homepage, the about page, the team page, the practice page, or the contact page. Give every page one H1 that says what the page is, starting with the homepage and the practice page.

Four pages have no meta description - HIGH

About, team, practice and contact have no meta description at all. The homepage meta is 391 characters, far over 160, so Google truncates it. Write one meta description per page, 120 to 160 characters, naming the service and Weyburn.

Placeholder titles - HIGH

The about page is titled "General 1 - Weger Paradis Law Firm" and the contact page "Contact 3 - Weger Paradis Law Firm". Those are Squarespace placeholder page names showing up in search results. The homepage title is only 22 characters, "Weger Paradis Law Firm", with no service or city phrase. Fix these three titles first.

Five pages for six practice areas - MEDIUM

The whole site is 5 pages, and all six practice areas share a single 455-word page. Estate, real estate, criminal, corporate and family law each need their own page, so each search has a page built for it. The firm ranks #2 for criminal and corporate law today without such pages, which shows what dedicated pages could do.

Alt text - MEDIUM

27 of 37 images are missing alt text. Worst: team 14 of 16, homepage 8 of 10. The team page has the most images on the site and almost none described.

Thin pages - LOW

Contact 115 words, homepage 237, about 335, practice 455, team 671. The site totals 1,813 words. The contact page in particular has almost nothing for a searcher to read.

Schema and sitemap - LOW

Schema is LocalBusiness and WebSite on all 5 pages, which is a start, but no FAQPage, Service, or Attorney type was found. Add Service schema to each practice page once it exists. The sitemap lists only the same 5 pages, with lastmods from 2024 and 2025 except the team page, and the homepage canonical points to the site root rather than to /home.

What is clean

Every audited page has a mobile viewport. Four of the five canonical tags point to their own URL. Your contact email law@wegerparadis.com is on every audited page, and the phone number 306-842-4654 is shown on the site.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where Weger Paradis leads

Three direct organic wins, all at #2: lawyer weyburn, criminal lawyer weyburn, and corporate lawyer weyburn. Map #2 in all seven map packs returned, and named in the one AI Overview returned.

Where others lead

Schuck Law Firm is #1 in the map pack for six searches and #1 in direct results for corporate lawyer weyburn, and the wills lawyer knowledge panel in this run belongs to Schuck, not Weger. Holliday and Company leads lawyer weyburn direct results. Sean Fagan leads criminal lawyer direct results. Directories lead several searches: mysask411 for estate and real estate lawyer, Alinity and 211 for family lawyer, Martindale for divorce lawyer, divorce.law for wills lawyer.

Reviews and listings

Map data in this run shows Weger Paradis Law Firm at 4.5, 319 Souris Ave, Weyburn, #2 in seven map packs. No review count for Weger was present in the map data, so none is claimed here, and no Places API rating was returned, so no Places rating is claimed. Schuck shows 4.9 in the same map packs. Keep review gathering steady and make sure the listing name, address and phone match the website exactly.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Give every page a main heading and a meta description

One H1 per page and one meta description per page, 120 to 160 characters, naming the service and Weyburn. This is the cheapest fix and it touches every page on the site.

2. Fix the three titles

Replace "General 1" on the about page and "Contact 3" on the contact page with real titles, and lengthen the 22-character homepage title to name the firm, a service, and Weyburn.

3. Build one page per practice area

Start with estate planning, real estate, and family law, the areas with no direct result at all. Each page needs the search phrase in its title and first heading, and enough content to answer a searcher.

4. Add an llms.txt file

A short text file describing the firm, its six practice areas, and its Weyburn base, so AI tools have a clean source to quote when an overview appears.

5. Fix the alt text

27 of 37 images are missing alt text. Start with the team page, 14 of 16, and the homepage, 8 of 10.

6. Keep the map lead and close the brand gap

You are already #2 in seven map packs. The brand search is the gap to watch: your own name should show your homepage as a direct result, and today it does not. The title, heading and meta fixes above are the first step toward that.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Build the practice pages

One page per practice area, starting with estate planning, real estate, and family law, plus Service schema on each new page.

Days 61 to 90 - Review results

Check whether the brand search, the practice-area searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the headings, meta descriptions and titles, then the practice-area pages and the llms.txt file. The full findings above are the starting point, not a sales pitch.

How we did this. We read 5 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). The site sitemap lists only those 5 pages. Google Canada results were collected via Bright Data SERP API on 6 November 2026, market Canada. Real estate lawyer weyburn first returned HTTP 502 with no results, and succeeded on retry the same day; retry results are used. A structured map pack was returned for 7 of 10 searches, and Weger Paradis is #2 in the top 3 for all 7; no map pack was returned for the other 3. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 1 of 10 searches, the brand search, and it names Weger Paradis Law Firm, linked to the homepage. Live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Weger Paradis Law Firm. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, whether www.nswb.ca still serves the firm, and Weger Paradis pricing.
