COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How customers find Cantillons Solicitors on Google and in AI answers

We checked your website, your Google rankings, and what Google AI answers in search results say. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
Cantillons Solicitors
Cork, Ireland

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 November 2026

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. Live Gemini, Bing, and Google conversational AI checks were not done in this audit.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	MIXED	Cantillons is number 1 for car accident solicitors cork, number 4 for employment solicitors cork, and number 6 for defamation solicitors cork, but not in the summary top 10 for the other 6 money searches in this run.
Brand search	WATCH	Cantillons pages fill summary ranks 1, 2, 3, 4, 5, 7, 8 and 9 for cantillons solicitors, but the homepage itself is not in the summary top 9, and rank 6 is a LinkedIn profile.
AI visibility in search	STRONG	A SERP AI Overview was returned for 4 of 10 searches, and Cantillons is named in 3 of those 4, for personal injury, medical negligence, and employment. Live conversational AI answers were not checked.
Page structure	FIX	10 of 12 pages have exactly 1 main heading, but solicitors in Cork and contact have none, and the homepage main heading is the word testimonials.
Images	FIX	315 of 324 images across the 12 audited pages have no alt text, worst on the homepage at 103 of 106.
Business details	WATCH	Personal injury and medical negligence pages carry FAQPage, LocalBusiness, and Service schema, but the other 8 audited pages carry the same Yoast template with no FAQPage, LocalBusiness, or Service type.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

Biggest issue: AI answers already name Cantillons for personal injury and medical negligence, but the same searches do not show Cantillons in the organic top 10, so the firm is visible in AI answers and missing in the classic results for its core work.

Quickest win: Give the homepage a main heading that says what the firm does, add one main heading to solicitors in Cork and contact, and add alt text to the homepage images first.

2 Google rankings

Google Ireland, Bright Data SERP API, 4 November 2026. Display link domain used to identify cantillons.com results, because organic links in the raw record are Google redirect links. See the findings note for the full method.

SEARCH	CANTILLONS	PAGE GOOGLE SHOWS
solicitors cork	Not in summary top 10	None
personal injury solicitors cork	Not in summary top 10	None
medical negligence solicitors cork	Not in summary top 10	None
employment solicitors cork	4	Employment law page
commercial law solicitors cork	Not in summary top 10	None
car accident solicitors cork	1	Personal injury litigation page
injury at work solicitors cork	Not in summary top 10	None
professional negligence solicitors cork	Not in summary top 10	None
defamation solicitors cork	6	Defamation litigation page
cantillons solicitors	1, 2, 3, 4, 5, 7, 8, 9	Personal injury litigation page at 1, homepage not in top 9

Read the car accident win carefully

The number 1 result for car accident solicitors cork is the general personal injury litigation page, not a car-specific page. The site does have a road traffic accident claims page, but

Google shows the personal injury hub for this search in this run. A dedicated car accident page, linked clearly from the hub, would give Google a closer match to show.

Brand search is strong, but not a homepage win

Rank 1 is the personal injury litigation page, rank 2 is the Karen Kearney staff page, rank 3 is the Orla Kelly staff page, rank 4 is the latest news page, rank 5 is the employment law page, rank 7 is the careers page, rank 8 is the Sinead Carroll staff page, and rank 9 is the publications page. Rank 6 is a LinkedIn profile, not a cantillons.com page. Customers searching the firm name still find the firm, but they do not land on the homepage first.

Injury at work search does not match solicitor intent in this run

The top 3 direct results are Wikipedia Cork city, Pure Cork tourism, and Cork City Council, not solicitor pages. That search needs a different angle, such as a page title and heading that match the claim wording, rather than chasing the current top 3 directly.

Map packs: a map image was returned for all 10 searches, but the SERP record contained no place list, so no map position is claimed for any search.

3 AI visibility in search

SERP AI Overview data only, from the same SERP records. Live Gemini, Bing, and Google conversational AI checks were not done.

SEARCH	AI OVERVIEW RETURNED	CANTILLONS NAMED
solicitors cork	Yes	No
personal injury solicitors cork	Yes	Yes, linked to the personal injury litigation page
medical negligence solicitors cork	Yes	Yes, linked to the medical negligence page
employment solicitors cork	Yes	Yes, linked to the employment law page
commercial law solicitors cork	No	Not applicable
car accident solicitors cork	No	Not applicable
injury at work solicitors cork	No	Not applicable
professional negligence solicitors cork	No	Not applicable
defamation solicitors cork	No	Not applicable
cantillons solicitors	No	Not applicable

The AI gap is the opportunity

For personal injury and medical negligence, Google AI answers already present Cantillons with its address and focus, while the classic top 10 does not list the firm at all. Strengthening

those two pages, with clear headings, FAQ schema, and a short answer paragraph at the top, supports both the AI answer and the classic ranking.

llms.txt is already present

The site has a Yoast llms.txt file, generated by Yoast SEO v26.2, describing the firm and linking its pages and posts. That is a real AI strength, and it is already in place, so the next step is page content, not a new AI file.

4 Your pages, checked

12 sitemap URLs, Bright Data unlocker fetches, 4 November 2026. Plain fetches of several pages returned a bot challenge page instead of content, so all figures below are from the unlocker run.

PAGE	TITLE	META	H1S	WORDS	IMAGES MISSING ALT
Homepage	77	157	1	2,254	103 of 106
Personal injury litigation	53	136	1	3,772	44 of 45
Medical negligence	64	156	1	4,150	47 of 49
Employment law	45	154	1	599	3 of 3
Commercial law	45	155	1	851	6 of 6
Professional negligence	54	156	1	769	9 of 9
Solicitors in Cork	65	137	0	240	2 of 2
Road traffic accident claims	60	136	1	4,119	43 of 44
Injury at work claims	73	154	1	4,045	45 of 46
Birth injury claims	51	140	1	2,556	3 of 4
Defamation litigation	69	172	1	713	7 of 7
Contact	34	117	0	263	3 of 3

Totals: 24,331 words, 324 images, 315 missing alt text.

Homepage heading says the wrong thing

The homepage has exactly 1 main heading, but it is the word testimonials. A visitor or search engine reading that heading alone learns nothing about the firm. A heading such as Cantillons Solicitors Cork, litigation solicitors, would say what the firm does in the first line.

Thin pages are the money pages that do not rank

Solicitors in Cork is 240 words, contact is 263, employment law is 599, defamation litigation is 713, professional negligence is 769, and commercial law is 851. The pages that do rank well are far longer, with personal injury at 3,772 words and medical negligence at 4,150. Length alone does not rank a page, but thin service pages give Google little to match against a search.

Alt text is missing almost everywhere

315 of 324 images have no alt text. That includes the homepage at 103 of 106, medical negligence at 47 of 49, injury at work claims at 45 of 46, personal injury litigation at 44 of 45, and road traffic accident claims at 43 of 44. No audited page is fully clean.

Schema is strong on two pages, template only elsewhere

Personal injury litigation and medical negligence carry FAQPage, LocalBusiness, and Service schema. Solicitors in Cork carries LegalService, and contact carries ContactPage. The other 8 pages carry the same Yoast template with no FAQPage, LocalBusiness, or Service type.

5 Fixes in order, and a 90 day plan

No pricing, no guarantee, and no claim that any single fix will produce a ranking. These are the fixes in the order that helps most first.

1. Fix the homepage heading and the two missing headings

Give the homepage a main heading that names the firm and its work, and add one main heading each to solicitors in Cork and contact. This is a small edit with a clear effect on how the pages read.

2. Add alt text, homepage first

Work through the homepage 103 images, then medical negligence, injury at work, personal injury, and road traffic pages. Write alt text that describes the image, not a keyword list.

3. Strengthen the thin service pages

Expand solicitors in Cork, employment law, defamation litigation, professional negligence, and commercial law with a short answer paragraph, the services covered, and common questions, matching the depth of the personal injury and medical negligence pages.

4. Shorten long titles and the one long meta description

Shorten homepage 77, injury at work claims 73, defamation litigation 69, solicitors in Cork 65, and medical negligence 64 character titles to under 60 characters, and shorten the defamation meta description from 172 to under 160 characters.

5. Copy the strong schema pattern to the other service pages

Add FAQPage and Service schema to employment, commercial, professional negligence, and defamation pages, following the personal injury and medical negligence pattern already on the site.

90 days, in brief

- Days 1 to 14: homepage heading, missing headings, alt text on the homepage, and the title and meta fixes above.
- Days 15 to 45: expand the thin service pages, add a dedicated car accident page linked from the personal injury hub, and add FAQPage and Service schema to the service pages.
- Days 46 to 90: recheck the 10 searches in this report, check whether the personal injury and medical negligence pages enter the classic top 10, and refresh the stale homepage sitemap lastmod dated 2023-05-05.

Unverified in this audit: PageSpeed score (HTTP 429), live Gemini, Bing, and Google conversational AI answers (not done), map positions (no place list in SERP records), any verified rating or review count (no aggregate rating schema found, no Places rating returned), and the lead list staff figure of about 30. Sitemap index lists 9 child sitemaps, page sitemap lists 67 URLs. Robots, via an unlocker fetch, allows /wp-content/uploads/ and disallows /wp-content/plugins/, /wp-admin/, /readme.html, and /videos/.
