COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Blanchfield Heating on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Blanchfield Heating
Kilkenny, mechanical contractor for commercial, industrial and healthcare work

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	WEAK	0 direct wins in the summary top 9 or 10: no direct blanchfieldheating.ie result for any of the 10 searches, including your own name.
Google map packs	NOT SHOWN	No structured map pack was returned in any of the 10 SERP records, so no map position is claimed.
AI visibility in search	NOT NAMED	0 SERP AI Overviews were returned for the 10 searches, so Blanchfield is named in 0 of 0. Live Gemini and Bing answers have not been checked yet.
Page titles	WATCH	Only the homepage title is over 60 characters, at 78. The other 11 are 30 to 50, and none names Kilkenny or a money phrase.
Page structure	WATCH	9 of 12 meta descriptions are over 160 characters, 2 pages have none at all, and the clients page has no main heading. Alt text is clean: 0 of 190 images missing it.
Business details	WEAK	Only the homepage carries Organization schema, and llms.txt redirects to the homepage instead of serving a file. Your sitemap dates are years old.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: your project work is visible, even if your site is not

Your brand search is led by a Kilkenny Chamber listing and a Building Ireland Magazine profile, and your own project pages appear in the brand results. People can find the company, just not through blanchfieldheating.ie itself.

Biggest issue: your own site ranks for nothing in this run

No direct blanchfieldheating.ie result appears for any of the 10 searches, from heating contractor kilkenny to your own name. The local Kilkenny searches are dominated by residential plumbers, while your work is commercial and industrial, so the site needs pages that speak to the commercial searches buyers actually type.

2 Where you rank on Google today

Google Ireland, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	BLANCHFIELD	WHO IS AHEAD
heating contractor kilkenny	Not in top 10	No direct leader can be named: all 10 rows are redirect entries
hvac contractor kilkenny	Not in top 10	No direct leader can be named: all 10 rows are redirect entries
commercial heating kilkenny	Not in top 10	boilerman.ie #1, plumbersinireland.ie #2
heating engineer kilkenny	Not in top 9	No direct leader can be named: all 9 rows are redirect entries
plumbing and heating kilkenny	Not in top 10	No direct leader can be named: all 10 rows are redirect entries
mechanical contractor ireland	Not in top 10	No direct leader can be named: all 10 rows are redirect entries
commercial hvac ireland	Not in top 10	No direct leader can be named: all 10 rows are redirect entries
heating installation kilkenny	Not in top 9	No direct leader can be named: all 9 rows are redirect entries
boiler installation kilkenny	Not in top 10	boilerman.ie #1, obyrneservices.com #2
blanchfield heating	Not in top 9	kilkennychamber.ie #1, buildingirelandmagazine.com #2

The brand search does not surface your site

Your own name returns a Kilkenny Chamber directory listing first and a Building Ireland Magazine profile second. Your own pages appear only as redirect entries at ranks 3 to 9, including the hotels and conference centres page, the privacy statement, and three project pages. A searcher who types your name lands on other sites first.

One name leads the two direct races

The only two searches with a direct leader both have boilerman.ie at #1, for commercial heating kilkenny and for boiler installation kilkenny. Every other money search in this run has no direct leader at all, because every summary row is a redirect entry.

Method note: commercial hvac ireland and blanchfield heating first returned HTTP 502 with a captcha error and no results on 6 November 2026. Both succeeded on retry the same day, and retry results are used. Summary top counts are 9 or 10 per search, because that is how many organic rows the SERP summary returned. Your .com address redirects to your .ie address, so this report uses blanchfieldheating.ie throughout.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

0 overviews returned, Blanchfield named in 0 of 0

No top-level AI Overview key was returned for any of the 10 searches, so there is no overview naming Blanchfield, and none naming a competitor either, in those records. That is a blank in the data, not evidence that AI tools never mention the company.

Follow-up questions are not overviews

Two records carry people-also-ask entries marked as AI overview questions, for heating engineer kilkenny and heating installation kilkenny. Those are follow-up questions, not an overview answer, so they are not counted as overviews here.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt matters here

Your llms.txt redirects to the homepage instead of serving a file, so AI tools have no clean, short source from you to quote when an overview does appear. A short llms.txt that states what Blanchfield Heating is, who it serves, and where the key pages are would give them something of yours to use.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 4,165 words, 190 images, 0 missing alt text.

No direct result for any search - HIGH

No direct blanchfieldheating.ie result for any of the 10 searches, including your own name. The site has no dedicated page for any money phrase: services is a single 319-word hub, and there is no heating contractor, HVAC contractor, or boiler installation page. The money pages need the exact search phrase in the title and first heading, plus content that answers the search, before any of these 10 can move.

Meta descriptions run long, or are missing - HIGH

9 of 12 descriptions are over 160 characters, services longest at 417, history 398, health and safety 386, homepage 383. The projects hub and testimonials have no meta description at all, and clients has only 7 characters. A missing description leaves Google to write the snippet for you, and a 417-character one gets cut off before the point is made.

Every page is thin - HIGH

All 12 audited pages are under 800 words. The projects hub is the deepest at 786 words, while clients has 144, testimonials 165, the homepage 236, and contact 246. The homepage, at 236 words, is the page a commercial buyer meets first, and it says very little about the work.

One page has no main heading - MEDIUM

The clients page has 0 H1s. The other 11 pages have exactly 1 H1 each, so this one is a single fix.

Titles miss the money phrases - MEDIUM

Only the homepage title is over 60 characters, at 78. The other 11 are 30 to 50 characters, and none names Kilkenny or a money phrase such as heating contractor or HVAC. Short titles are fine, but these say almost nothing about what the page offers or where.

Missing schema - MEDIUM

Only the homepage carries Organization and WebSite schema. Ten pages carry BreadcrumbList and ListItem only, and clients carries no schema at all. No LocalBusiness, Service, or FAQPage type was found on any audited page. For a contractor, LocalBusiness and Service schema on the money pages is the missing piece.

Alt text - CLEAN

0 of 190 images are missing alt text. Keep this standard when the money pages are rebuilt.

What is clean

Every audited page has a canonical tag pointing to its own live URL, and every audited page has a mobile viewport. The sitemap index lists 3 child sitemaps with 17 page URLs, but the individual page dates run from 2017 to 2020, with the homepage dated 2018-11-22, so the sitemap dates are worth a refresh. Robots.txt allows general crawlers but carries no sitemap line.

5 How you compare

From SERP direct domain results, 6 November 2026. Google redirect entries are not named as competitors.

Where Blanchfield leads

No direct organic win in this run: 0 of 10 searches. No map pack was returned in any SERP record, so there is no map position to compare.

Where others lead

Boilerman.ie leads both searches with a direct leader, at #1 for commercial heating kilkenny and #1 for boiler installation kilkenny. For the other 8 searches, no direct leader can be named, because every summary row is a redirect entry.

Reviews and listings

The brand knowledge panel in the SERP data shows Blanchfield Heating as a mechanical contractor in the Republic of Ireland, rated 3.8 with 4 reviews, at Purcellsinch Business Park, Unit D1 Textech Factory, Dublin Rd, Kilkenny, R95 E70V, phone (056) 772 0397. That is SERP panel data, not a Places rating, and no Places API rating was returned in this run, so no Places rating is claimed.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Build pages for the money searches

Create a dedicated page each for heating contractor Kilkenny, commercial heating, and boiler installation, with the exact search phrase in the title and first heading, and real project detail on each. The single 319-word services hub cannot rank for all of them.

2. Rewrite the meta descriptions

Bring the 9 descriptions over 160 characters down into the 120 to 156 range, and write the 2 missing ones plus a real description for clients. Start with services at 417 characters and the homepage at 383.

3. Give the homepage and clients page real content

Expand the 236-word homepage with the commercial, industrial, and healthcare work you actually do, and give the clients page a main heading and text that says who you work for.

4. Add a real llms.txt

State what Blanchfield Heating is, who it serves, and where the key pages are, so AI tools have a source of yours to quote instead of directories and competitors. It currently redirects to the homepage.

5. Add LocalBusiness and Service schema

Add LocalBusiness schema sitewide and Service schema to the money pages, on top of the Organization schema already on the homepage.

6. Refresh the sitemap dates

The page dates run from 2017 to 2020, with the homepage dated 2018-11-22. Update the lastmod dates to the real last change, and add a sitemap line to robots.txt.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild for the money searches

The money-page builds, with the search phrase in the title and first heading, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the money pages, the meta descriptions, and the homepage content, then llms.txt and schema. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Ireland results were collected via Bright Data SERP API on 6 November 2026, market Ireland. Commercial hvac ireland and blanchfield heating first returned HTTP 502 with a captcha error and no results; both succeeded on retry the same day, and retry results are used. No structured map pack was returned in any of the 10 SERP records, and the brand knowledge panel figures in this report are SERP data, not a Places rating. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 0 of 10 searches, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Blanchfield Heating. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, any map position, a Places rating, a single verified review rating, staff count, the panel phone, and Blanchfield Heating pricing. Note: blanchfieldheating.com redirects to www.blanchfieldheating.ie, which is the live site audited here.
