COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find YLaw Group on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
YLaw Group
Vancouver, family law

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	STATUS	WHAT WE FOUND
Google website rankings	ONE WIN	#2 for spousal support lawyer vancouver through the common law spouses page. No direct result in the summary top 7 to 9 for the other 8 money searches, and the brand search shows the what we do page at #2, not the homepage.
Google map packs	STRONG	YLaw is in the structured map top 3 for all 9 money searches: #1 for spousal support and child support, #2 for the other 7. No map pack was returned for the brand search.
AI visibility in search	NAMED	One SERP AI Overview was returned, for prenuptial agreement lawyer vancouver, and it links to ylaw.ca. Live Gemini and Bing answers have not been checked yet.
Page titles	WATCH	11 of 12 audited titles are within 60 characters, but what we do is 17 characters and names no service or city, and child support is 64, over the limit.
Page structure	WATCH	Every audited page has 2 main headings, the second is the repeated "Find a location near you" section heading. Meta descriptions are mostly in range, but contact is 83 characters and what we do is 96.
Business details	MOSTLY CLEAN	Organization and AggregateRating schema are present on every audited page, llms.txt is present, and your contact email info@ylaw.ca is verified on the homepage and the contact page. No LegalService, Attorney, Service or FAQPage schema was found.
Speed		

NOT MEASURED

PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: the map packs and the AI mention

YLaw is in the map top 3 for every money search we ran, #1 for spousal support and child support, with a SERP panel figure of 4.8 with 336 reviews. And the one AI overview returned in this run, for prenuptial agreement lawyer vancouver, links to ylaw.ca. People searching in Vancouver already see the firm on the map and in AI answers.

Biggest issue: the website itself barely ranks

Only one direct website result appears in the money searches: #2 for spousal support lawyer vancouver, and it goes to the common law spouses page, not the spousal support page. The brand search puts the what we do page at #2 behind the firm's own LinkedIn page, and the homepage is not a direct result at all. The practice pages exist and are well written, but Google is not showing them for their own searches.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	YLAW, DIRECT	DIRECT LEADER
family lawyer vancouver	Not in top 7	kitsfamilylaw.com #1, gillandgilllaw.ca #2
divorce lawyer vancouver	Not in top 8	macleanfamilylaw.ca #1, bkfamilylaw.ca #2
child custody lawyer vancouver	Not in top 9	westsidefamilylaw.ca #1, northshorelaw.com #2
family law firm vancouver	Not in top 9	kitsfamilylaw.com #1, yglaw.ca #2
separation lawyer vancouver	Not in top 9	westsidefamilylaw.ca #1, pietrowlawgroup.ca #2
spousal support lawyer vancouver	#2, common law spouses page	macleanfamilylaw.ca #1
child support lawyer vancouver	Not in top 9	onyxlaw.ca #1, northshorelaw.com #2
prenuptial agreement lawyer vancouver	Not in top 9	macleanfamilylaw.ca #1, watsongoepel.com #2
mediation lawyer vancouver	Not in top 9	familylawinbc.ca #1, harpergrey.com #2
ylaw vancouver (brand)	#2, what we do page	ca.linkedin.com, YLaw LinkedIn page, #1

The one organic win goes to the wrong page

#2 for spousal support lawyer vancouver is the common law spouses page at /family-law-services/common-law/common-law-spouses/, not the spousal support hub page. The hub page is not a direct result in this run. The page Google trusts for that search is a sub-topic page, which tells us the hub page is not signalling its subject clearly enough.

The brand search does not show the homepage

#1 for ylaw vancouver is the firm's own LinkedIn page, #2 is the what we do page. The homepage is not a direct result in the brand summary top 10. Several redirect entries in this run carry titles that look like YLaw pages, but their destinations are hidden, so none is counted as a YLaw ranking.

Method note: family lawyer vancouver, family law firm vancouver and prenuptial agreement lawyer vancouver each first returned HTTP 502 with an empty body and no results on 6 November 2026. All three succeeded on retry the same day, and retry results are used. Summary top counts are 7 to 10 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

YLaw is named in the one overview returned

An AI Overview was returned for 1 of 10 searches: prenuptial agreement lawyer vancouver. Its paragraph explains that in British Columbia prenuptial agreements are officially referred to as marriage agreements or cohabitation agreements, and its only link is to https://www.ylaw.ca. YLaw is therefore named in 1 of 1 returned SERP AI Overviews.

No overview for the other 9 searches

No overview key was returned for family lawyer, divorce lawyer, child custody, family law firm, separation, spousal support, child support, mediation, or the brand search. That is a blank in the data, not evidence that AI tools never mention the firm.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt helps here

Your llms.txt is present and lists your pages, posts, and practice areas. That gives AI tools a clean, short source from you to quote, which is likely part of why the prenuptial overview links to you. Keep it current as pages change.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 19,756 words, 320 images, 29 missing alt text.

Money searches show almost no YLaw page - HIGH

One direct result in 9 money searches, and it lands on the wrong page. The practice pages exist, spousal support, child support, child custody, marriage agreements, mediation, divorce, and they carry 1,530 to 2,643 words each, but none of them is the ranked answer for its own search. The pages need the search phrase in the title and first heading, and the hub pages need to out-signal their sub-pages.

Every page has two main headings - MEDIUM

All 12 audited pages have exactly 2 H1s. The first is the page heading; the second, on every page, is the section heading "Find a location near you". A page should have one main heading. Fix the template once and all 12 pages are fixed.

Two titles need work - LOW

Child support is 64 characters, over the 60-character display limit. What we do is 17 characters and names no service or city. The money-page titles do carry their phrases, so this is a small fix, not a rebuild.

Two meta descriptions are short - LOW

Contact is 83 characters and what we do is 96, both short of the usual 120 to 160 range. Services is 117, just under. None is over 160, so nothing is being cut off.

Alt text is nearly done - LOW

29 of 320 images are missing alt text. The homepage is 16 of 73; every other page is 1 or 2. Finish the homepage images first.

Schema is present but thin - LOW

The same Yoast template runs on every page, with Organization and AggregateRating present. No LegalService, Attorney, Service or FAQPage type was found on any audited page. Adding Service schema to the practice pages would help Google and AI tools read what each page offers.

Map packs - STRENGTH

YLaw is in the structured map top 3 for all 9 money searches: #1 for spousal support and child support, #2 for the other 7. Crossroads Law leads most packs at #1 with 4.9 and 284 reviews; your SERP panel figure is 4.8 with 336 reviews, named here with its source, not as a Places rating. The map gap is #1 versus #2, not presence versus absence.

What is clean

Every audited canonical tag points to the audited URL itself. Every audited page has a mobile viewport. The sitemap index lists 10 child sitemaps, the page sitemap lists 41 URLs and the practices sitemap 73, and robots.txt allows general crawlers with a sitemap line present. Your llms.txt is present. Your contact email info@ylaw.ca is verified on the homepage and the contact page. Note: /sitemap.xml itself returns 404; the live sitemap is sitemap_index.xml.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where YLaw leads

One direct organic win: #2 for spousal support lawyer vancouver through the common law spouses page. Map #1 for spousal support and child support, map #2 for the other 7 money searches. Named in the one AI overview returned, for prenuptial agreement lawyer vancouver.

Where others lead

MacLean Law leads divorce, spousal support and prenuptial direct results. Kitsilano Family Law leads family lawyer and family law firm direct results. Westside Family Law leads child custody and separation direct results. Onyx Law leads child support direct results. Family Law in BC leads mediation direct results. Crossroads Law leads most map packs at #1.

Reviews and listings

SERP brand knowledge panel: YLaw, rating 4.8 with 336 reviews, 1122 Mainland St #580, Vancouver, BC V6B 5L1, phone (604) 974-9529, open Monday to Friday 8:30 a.m. to 5:30 p.m. No Places API rating was returned in this run, so no Places rating is claimed. YLaw is in the structured map top 3 for 9 of 9 money searches; no map pack was returned for the brand search.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Fix the double main heading

Change the "Find a location near you" section heading from an H1 to a lower heading in the template. One change fixes all 12 audited pages.

2. Make the hub pages the answer for their own searches

Start with spousal support: the hub page should carry the search phrase in its title and first heading more clearly than the common law spouses sub-page does, and link to it as the main page for that topic. Do the same check for child support, child custody, and marriage agreements.

3. Fix the two titles and two short descriptions

Shorten the child support title from 64 characters, give what we do a title that names a service and Vancouver, and write fuller descriptions for the contact page at 83 characters and what we do at 96.

4. Finish the alt text and add Service schema

Start with the homepage at 16 of 73 missing alt text. Add Service schema to the practice pages, on top of the Organization and AggregateRating schema already present.

5. Close the map gap from #2 to #1

YLaw is already in every map top 3. Keep the listing name, address, and phone exactly matching the website, and keep building the review base from the 336 reviews shown in the SERP panel.

6. Make the homepage the brand answer

The brand search shows LinkedIn at #1 and the what we do page at #2, not the homepage. Strengthen the homepage title and first heading so the homepage is the page Google shows for your own name.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the hub pages

The hub page rewrites, the schema work, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the double main heading, the hub pages, and the two titles, then the alt text and schema, then the map push from #2 to #1. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Canada results were collected via Bright Data SERP API on 6 November 2026, market Canada. Family lawyer vancouver, family law firm vancouver and prenuptial agreement lawyer vancouver each first returned HTTP 502 with an empty body and no results; all three succeeded on retry the same day, and retry results are used. A structured map pack was returned for 9 of 10 searches, and YLaw is in the top 3 for all 9; no map pack was returned for the brand search. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for 1 of 10 searches, for prenuptial agreement lawyer vancouver, and it links to ylaw.ca; live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to YLaw Group. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, and YLaw pricing.
