COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Aylward Financial Services on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Aylward Financial Services
Kilkenny, financial advisers

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	BRAND ONLY	No #1 in any money search. The only direct results are the brand search at #1 and #2, through inner pages, not the homepage. No direct result in the summary top 9 or 10 for any of the 9 money searches.
Google map packs	#4 IN BOTH PACKS	A map pack was returned for 2 of the 9 money searches, and Aylward is #4 of 6 entries in both, with no rating or review count shown. No pack was returned for the other 7 money searches.
AI visibility in search	NAMED IN 0 OF 2	An AI Overview was returned for 2 of the 10 searches, and Aylward is named in neither. Live Gemini and Bing answers have not been checked yet.
Page titles	ONE TYPO	11 of 12 audited titles are within 60 characters, but the homepage title reads "FINANCIAL ADIVSOR", missing the D in ADVISOR.
Page structure	WATCH	10 of 12 meta descriptions run to exactly 320 characters, the About page has 8 main headings, and only the homepage carries any schema markup.
Business details	TWO ADDRESSES	Your contact email pj@af.ie is verified on the site, but the knowledge panel and the contact page give different addresses, Danville Business Park and Ormonde House, Ormonde Road.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: people who already know the name find you

The brand search returns your own pages at #1 and #2, through the Executive Pensions page and the Charges page, and you appear in both map packs that were returned, at #4 of 6 entries in each. The knowledge panel shows Aylward Financial Services, "Financial consultant in Kilkenny", with your Kilkenny phone number, and your contact email pj@af.ie is verified on the site.

Biggest issue: the website does not rank for the searches that bring new clients

No direct result appears for financial advisor kilkenny, financial adviser kilkenny, pension advice kilkenny, life insurance kilkenny, income protection ireland, mortgage protection kilkenny, retirement planning kilkenny, savings and investments kilkenny, or serious illness cover ireland. The top spots go to rival advisers such as Fairstone and to directory pages from Goldenpages, and two of the searches return no direct leader at all because every summary row is a Google redirect entry. There is no dedicated mortgage protection page, 10 of 12 meta descriptions run to 320 characters, the About page has 8 main headings, and only the homepage carries schema markup.

2 Where you rank on Google today

Google Ireland, 6 November 2026. Direct aylwardfinancialservices.ie results only. Google redirect entries are not counted as rankings and no competitor is named from one.

SEARCH	AYLWARD	DIRECT LEADER
financial advisor kilkenny	No direct result	fairstone.ie #1
financial adviser kilkenny	No direct result	centralbank.ie #1, a regulator
pension advice kilkenny	No direct result	goldenpages.ie #1, directory
life insurance kilkenny	No direct result	No direct leader, all rows redirect
income protection ireland	No direct result	askpaul.ie #1
mortgage protection kilkenny	No direct result	campioninsurance.ie #1
retirement planning kilkenny	No direct result	rockwellfinancial.ie #1
savings and investments kilkenny	No direct result	fairstone.ie #1
serious illness cover ireland	No direct result	No direct leader, all rows redirect
aylward financial services	#1 and #2, inner pages	No direct result ahead; homepage not in top 10

The brand search points at inner pages, not the homepage

For aylward financial services, the direct results are the Executive Pensions page at #1 and the Charges page at #2. The homepage does not appear as a direct result in the brand summary top 10. That is unusual for a firm of this size, and worth checking before anything else.

Two Aylward-titled results we cannot attribute

The titles "FINANCIAL ADIVSOR | AYLWARD FINANCIAL SERVICES ..." at #7 for financial advisor kilkenny and the Aylward Financial Services Facebook page at #5 for pension advice kilkenny appear as Google redirect entries. Their destinations are hidden in the redirect URLs, so they cannot be confirmed as Aylward pages from this data, and they are not counted as rankings. Do not read them as a win or a loss.

Two searches return no direct leader at all

For life insurance kilkenny and serious illness cover ireland, every summary row is a Google redirect entry, so no direct leader can be named for either search. The money is still there to be won, but the pages that win it will need to match what the search is actually asking for.

Method note: the income protection ireland search first returned HTTP 502 with no results on 6 November 2026, and succeeded on a retry the same day. Retry results are used. The other 9 searches returned ok on the first run. Summary top counts are 9 or 10 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in 0 of the 2 overviews returned

An AI Overview was returned for 2 of the 10 searches. For serious illness cover ireland it references Bonkers.ie, the Competition and Consumer Protection Commission, and Royal London IE. For income protection ireland it references Zurich Ireland, Irish Life, and Switcher.ie. Aylward is named in neither overview and is not among the references in either.

What that does not prove

No AI Overview was captured for the other 8 searches in this run. That is a capture result, not proof that no overview exists for these searches at other times. Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Your llms.txt is present, but almost no page carries schema markup

llms.txt returns HTTP 200 with a Wix-generated summary of the firm and its services, so AI tools have a clean source file to quote. But only the homepage carries schema markup, WebSite only, and no page carries Organization, LocalBusiness, FinancialService, FAQPage or Service markup. Adding that markup is the cheapest AI visibility step in this report.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 4,171 words, 99 images, 13 missing alt text.

Money searches show no Aylward page - HIGH

No direct result for any of the 9 money searches. The service pages exist, life insurance cover, income protection, personal pensions, PRSA, executive pensions, serious illness, savings and investments, and business protection, with real content, 203 to 475 words each, but none of them is the ranked answer for its own search. The gap is authority and visibility, not missing pages, except for mortgage protection, where no dedicated page exists at all.

No dedicated mortgage protection page - HIGH

The sitemap lists no mortgage protection page, and "mortgage" appears only 3 times in homepage copy. The search "mortgage protection kilkenny" is led by Campion Insurance at #1. Build one dedicated page for it, with the exact search phrase in the title, the first heading, and the opening paragraph.

10 meta descriptions run to exactly 320 characters - HIGH

Every audited page except the homepage at 207 and the contact page at 157 carries a meta description of exactly 320 characters, verified by direct fetch on 6 November 2026. Search engines show far fewer characters, so the second half of each description is wasted. Rewrite each one to 120 to 160 characters that say the service, the benefit, and Kilkenny.

The About page has 8 main headings - HIGH

The About page carries 8 H1 tags, confirmed by direct fetch: ABOUT, each team member's name, QFA and APA, and Affiliates. A page should have one main heading. Keep ABOUT as the single H1 and make the team names and section titles H2s.

The homepage title misspells ADVISOR - MEDIUM

The homepage title reads "FINANCIAL ADIVSOR | AYLWARD FINANCIAL SERVICES | KILKENNY", with ADIVSOR missing the D. It is the first thing searchers see for the brand, and

it is also the title shown at #7 for financial advisor kilkenny in the redirect entries. Fix the spelling and the brand reads as carefully as the firm is.

Schema markup on one page only - MEDIUM

Only the homepage carries schema markup, WebSite only. No page carries Organization, LocalBusiness, FinancialService, FAQPage or Service markup. Add Organization and FinancialService markup first, then FAQPage markup on the pages that answer real client questions.

Two different addresses - MEDIUM

The knowledge panel gives Danville Business Park, Ring Rd, Danville, Kilkenny, while the contact page meta description gives Ormonde House, Ormonde Road, Kilkenny. Pick the current address, use it everywhere, and make sure the knowledge panel lists the site as https, not http.

Thin service pages and alt text gaps - LOW

Contact at 203 words, business protection at 230, savings and investments at 232, and life insurance cover at 233 words are the thinnest pages. The deepest page is About at 593 words. 13 of 99 images are missing alt text, with the About page worst at 2 of 15. Every audited page has at least 1 image missing alt text.

What is clean

11 of 12 titles are within 60 characters, savings and investments at 61 is the one over. No page is missing a meta description. Every canonical tag points to its own live URL. The robots file blocks no general crawler, and llms.txt is present. Your contact email pj@af.ie is verified on the site, on the homepage and the contact page.

5 How you compare

From SERP direct domain results and listings, 6 November 2026. Google redirect entries are not named as competitors.

Where Aylward leads

No direct organic #1 in this run. In the brand search, your own pages are #1 and #2. You are #4 of 6 entries in both map packs that were returned, for financial advisor kilkenny and retirement planning kilkenny, with no rating or review count shown for you in either pack.

Where others lead

Fairstone leads the direct results for financial advisor kilkenny and savings and investments kilkenny. AskPaul leads income protection ireland, Campion Insurance leads mortgage protection kilkenny, Rockwell Financial leads retirement planning kilkenny, and Financial Clarity is #2 for pension advice kilkenny. Goldenpages directory pages take the #1 spot for pension advice kilkenny, and the Central Bank of Ireland, a regulator, leads financial adviser kilkenny.

Reviews and listings

Knowledge panel, brand search only: Aylward Financial Services, "Financial consultant in Kilkenny", Open, phone (056) 775 6376, address Danville Business Park, Ring Rd, Danville, Kilkenny, hours Mon to Fri 9 am to 5 pm, no rating or review count shown. That is SERP knowledge data, not a Places rating, and no Places API rating was returned in this run, so no Places rating is claimed. In the two map packs, Ellis Financial at 5.0 with 16 reviews leads the financial advisor kilkenny pack at #1, and Foundation Stone Financial Planning at 5.0 with 1 review leads the retirement planning kilkenny pack at #1.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Fix the homepage title spelling

Change "FINANCIAL ADIVSOR" to "FINANCIAL ADVISOR". It is a one-word fix and it is the title searchers see for the brand.

2. Rewrite the 10 long meta descriptions

Cut each 320-character meta description to 120 to 160 characters that say the service, the benefit, and Kilkenny. Start with the service pages that match the money searches.

3. Give the About page one main heading

Keep ABOUT as the single H1 and make the team names, QFA and APA, and Affiliates H2s. Check every other page stays at exactly one H1.

4. Build a mortgage protection page

One dedicated page, with the exact search phrase in the title, the first heading, and the opening paragraph, and a link from the homepage and the services page.

5. Add schema markup to every page

Start with Organization and FinancialService on the homepage and service pages, then FAQPage markup where the pages already answer client questions.

6. Settle the address everywhere

Use one current address on the site, in the knowledge panel, and in every listing, and make sure the panel lists the site as https. The two addresses in this report disagree, so confirm which one is current first.

7. Aim the service pages at their searches

The service pages are real pages with real content, but none ranks for its own search. Add the exact search phrase to the first heading and opening paragraph of each service page, deepen the thinnest pages, and build supporting guides that link back to them.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the service pages

The mortgage protection page, the title and meta fixes, and the first client guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two client guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the title spelling, the meta descriptions, and the About page headings, then the mortgage protection page, then the schema markup, then the address, then the service page targeting, then the supporting guides. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Ireland results were collected via Bright Data SERP API on 6 November 2026, market Ireland. The income protection ireland search first returned HTTP 502 with no results, and succeeded on a retry the same day; the other 9 searches returned ok on the first run. A structured map pack was returned for 2 of the 9 money searches, and Aylward is #4 of 6 entries in both; no pack was returned for the other 7 money searches or for the brand search. The brand search returned a knowledge panel for Aylward Financial Services with no rating or review count shown. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. An AI Overview was returned for 2 of the 10 searches, and Aylward is named in neither; live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Aylward Financial Services. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review count, staff count, which address is current, and Aylward Financial Services pricing.
