COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Haly Dental Care on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Haly Dental Care
Cork, dental clinic

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	NO DIRECT RESULT	No direct result for any of the 9 money searches. The brand search #1 is a 2016 Duda copy of your homepage, not your real site.
Google map packs	ONE PACK ONLY	Only one structured map pack was returned in the whole run, for emergency dentist cork, and Haly is not in it.
AI visibility in search	NAMED IN 0 OF 7	AI Overviews were returned for 7 of 10 searches, and Haly is named in none of them. Rival Cork clinics are named instead.
Page titles	3 OVER, 2 TYPOS	3 of 12 titles are over 60 characters. The FAQ title reads "Freqently" and the contact title carries the phone number with the letter O.
Page structure	WATCH	9 of 12 pages carry two different meta descriptions. Orthodontics has 2 main headings. No Dentist or LocalBusiness schema was found on any page.
Business details	STRONG	Your contact email info@haly.ie is verified on the site, the knowledge panel shows 4.5 with 76 reviews, and robots.txt blocks no crawler.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: people who find you rate you well, and your contact details check out

The knowledge panel shows Haly Dental Care at 4.5 with 76 reviews, with your Mary Street address and correct phone number. Your contact email info@haly.ie is on every audited page,

alt text is nearly clean at 3 of 130 images missing it, and the site is a real clinic site, 9,451 words across the 12 audited pages.

Biggest issue: Google does not show your site for the searches that bring new patients

No direct result appears for dentist cork, dental clinic cork, dentist cork city, dental implants cork, teeth whitening cork, invisalign cork, emergency dentist cork, cosmetic dentist cork, or root canal cork. Worse, the brand search #1 is not your site at all: it is a Duda-hosted copy of your homepage from 2016. Five of the nine money searches returned no direct result for anyone, only Google redirect entries, so the field is open, but Haly is not in it.

2 Where you rank on Google today

Google Ireland, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	HALY	WHO IS AHEAD
dentist cork	Not in top 10	No direct leader: all 10 summary rows are Google redirect entries
dental clinic cork	Not in top 10	No direct leader: all 10 summary rows are Google redirect entries
dentist cork city	Not in top 10	No direct leader: all 10 summary rows are Google redirect entries
dental implants cork	Not in top 10	No direct leader: all 10 summary rows are Google redirect entries
teeth whitening cork	Not in top 9	No direct leader: all 9 summary rows are Google redirect entries
invisalign cork	Not in top 10	elmwooddental.ie #1, the only direct row
emergency dentist cork	Not in top 9	corabbeydentalclinic.ie #1, carrigtwohilldentist.ie #2
cosmetic dentist cork	Not in top 9	citygatedental.ie #1, corkcitydental.ie #2
root canal cork	Not in top 10	rootapp.com #1 and rootskerries.com #2, a software firm and a restaurant, not clinics
haly dental care	No direct result	halydentalcare.dudaone.com #1, a Duda copy, not the real site; facebook.com #2

The brand search points at a 2016 copy, not your site

For haly dental care, the #1 direct result is halydentalcare.dudaone.com, a live Duda-hosted copy of your homepage, published 9 January 2016, titled "Haly Dental Care Homepage Dentist Cork". We fetched it live on 6 November 2026 and it returns HTTP 200. It carries no info@haly.ie address. Your real site, www.halydentalcare.com, is not a direct result in the brand summary top 9. That copy should be taken down or redirected to your real site before anything else.

Five searches have no direct winner at all

For dentist cork, dental clinic cork, dentist cork city, dental implants cork, and teeth whitening cork, every summary row is a Google redirect entry, so no competitor can be named from them and no clinic holds the spot. Those searches are winnable by the first clinic with a strong dedicated page. The other four searches have only 1 or 2 direct rows each.

One search returns the wrong kind of result

Root canal cork is led by rootapp.com, a chat software company, and rootskerries.com, a restaurant. No dental clinic appears in the direct top 2 for that search. A dedicated root canal page with the exact search phrase in its title and first heading would match what the search is actually asking for.

Method note: the dental clinic cork and invisalign cork searches first returned HTTP 502 with no results on 6 November 2026. Dental clinic cork succeeded on the first retry and invisalign cork on the second retry the same day. Retry results are used. The other 8 searches returned ok on the first run. Summary top counts are 9 or 10 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in 0 of the 7 overviews returned

AI Overviews were returned for 7 of the 10 searches: dentist cork, dentist cork city, dental implants cork, emergency dentist cork, root canal cork, dental clinic cork, and invisalign cork. Haly is named in none of them. The clinics named instead include Shandon Dental, Smiles Dental Cork, Dental Care Ireland Mayfield, Aherne Dental Clinic, Citygate Specialist Dental Clinic, Cork City Dentist, Bandon Dental, Airport Dental Implant Centre, Cork Endodontic Clinic, Belvedere Dental, and Cube Dental. No overview was returned for teeth whitening cork, cosmetic dentist cork, or the brand search.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Your llms.txt is missing, and no page carries Dentist schema

llms.txt returns HTTP 404, so there is no clean source file for AI tools to quote. The audited pages carry BreadcrumbList and similar markup, but no Dentist, LocalBusiness, MedicalBusiness, FAQPage, or Service type was found on any of them. Your robots.txt is open, which is good, but the two missing pieces above are the cheapest AI visibility steps in this report.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 9,451 words, 130 images, 3 missing alt text.

No direct result for any money search - HIGH

No direct result for any of the 9 money searches. The service pages exist, general dentistry, dental implants, orthodontics, hygienist, and facial aesthetics, with real content, 485 to 1,102 words each, but none of them is the ranked answer for its own search. Five searches have no direct winner at all, so the gap is visibility, not a rival holding the spot.

A stale copy of your homepage outranks your real site - HIGH

The brand search #1 is halydentalcare.dudaone.com, a Duda copy from 2016 that is still live. Your real homepage is not a direct brand result at all. Take the copy down or redirect it to www.halydentalcare.com, and check that no other old copies are live.

9 of 12 pages carry two different meta descriptions - HIGH

The homepage, general dentistry, dental implants, orthodontics, hygienist, facial aesthetics, our team, our practice, and contact pages each carry two meta description tags. The first is 112 to 156 characters. The second reads like page body text and runs 207 to 334 characters, over the usual 160 every time. Google has to pick one, and the second one is the weaker description. Remove the duplicate tag on all nine pages. The three pages with a single tag are also wrong: affordability at 334 characters, testimonials at 327, and FAQ at 26, just the page name.

No dedicated page for five money searches - HIGH

The 19-URL page sitemap lists no dedicated teeth whitening, Invisalign, emergency dentistry, cosmetic dentistry, or root canal page. Those services appear only as sections inside the general dentistry and orthodontics pages. Each of those five searches needs its own page, with the exact search phrase in the title, the first heading, and the opening paragraph.

Typos in the title, the meta, and the phone number - MEDIUM

The FAQ page title reads "Freqently Asked Questions", missing the u in Frequently. The orthodontics meta reads "our orthodontics service in Cork includs many different types of brace technologies". The contact page title and meta carry the phone number as "(O21) 432 361O" with the letter O instead of the digit 0, in 7 places in the page head, while the visible page body and the knowledge panel show the correct (021) 432 3610. All three are quick fixes.

No Dentist or LocalBusiness schema - MEDIUM

No Dentist, LocalBusiness, MedicalBusiness, FAQPage, or Service schema type was found on any of the 12 audited pages. Add Dentist and LocalBusiness markup to the homepage and service pages, and FAQPage markup to the FAQ page, which already carries Answer markup.

Three titles over, one page with two main headings - LOW

Facial aesthetics at 73 characters, orthodontics at 64, and general dentistry at 62 are over the usual 60. Orthodontics has 2 H1 tags, "Orthodontics" and "Six Month Smiles". The other 11 pages have exactly 1 H1 each.

What is clean

Only 3 of 130 images are missing alt text. Every canonical tag points to its own live URL. The robots file blocks no crawler except /wp-admin/. Your contact email info@haly.ie is verified on the site, on the homepage and the contact page, and the knowledge panel shows 4.5 with 76 reviews.

5 How you compare

From SERP direct domain results and listings, 6 November 2026. Google redirect entries are not named as competitors.

Where Haly leads

No direct organic #1 in this run, and no direct result at any rank for the money searches. The knowledge panel for your own name shows Haly Dental Care at 4.5 with 76 reviews, with your Mary Street address and correct phone number.

Where others lead

Elmwood Dental leads invisalign cork, the only direct row in that search. Corabbey Dental leads emergency dentist cork, with Carrigtwohill Dental second. Citygate leads cosmetic dentist cork, with Cork City Dental second. Five searches have no direct leader at all, only redirect entries. Root canal cork is led by a software firm and a restaurant, not a clinic.

Reviews and listings

Knowledge panel, brand search only: Haly Dental Care 4.5 with 76 reviews, address 35A Mary St, Cork, T12 HX50, phone (021) 432 3610, site listed as http://www.halydentalcare.com/. That is SERP knowledge data, not a Places rating, and no Places API rating was returned in this run, so no Places rating is claimed. The only structured map pack returned was for emergency dentist cork, with 6 entries, and Haly is not in it: Cork City Dentist leads at 4.9 with 82 reviews, then Smiles Dental Cork at 4.7 with 413, Cork Dental Care at 4.6 with 273, Dental Care Ireland Ballincollig at 4.9 with 400, Dental Care Ireland Douglas at 4.8 with 171, and Cork University Dental School and Hospital at 4.3 with 43.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Take down the 2016 Duda copy

Remove halydentalcare.dudaone.com or redirect it to www.halydentalcare.com. It is the #1 brand result today, ahead of your real site.

2. Remove the duplicate meta descriptions

Delete the second meta description tag on the nine pages that carry two, and rewrite the three single tags that are wrong: affordability at 334 characters, testimonials at 327, and FAQ at 26. Keep one description per page, 120 to 160 characters.

3. Build the five missing service pages

One dedicated page each for teeth whitening, Invisalign, emergency dentistry, cosmetic dentistry, and root canal treatment, with the exact search phrase in the title, the first heading, and the opening paragraph.

4. Fix the three typos

FAQ title "Freqently" to "Frequently", orthodontics meta "includs" to "includes", and the contact title and meta phone number "(O21) 432 361O" to "(021) 432 3610".

5. Add Dentist and LocalBusiness schema

Start with Dentist and LocalBusiness markup on the homepage and service pages, then FAQPage markup on the FAQ page. No page has any of these types today.

6. Fix the titles and the extra heading

Shorten the facial aesthetics, orthodontics, and general dentistry titles to 60 characters or under, and give orthodontics a single H1.

7. Add an llms.txt file

Write a short llms.txt that describes the clinic, its services, and its pages, so AI tools have a clean source to quote. Your robots file already allows all crawlers, so nothing else blocks them.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the service pages

The five missing service pages, the title and meta fixes, and the first patient guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two patient guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the Duda copy, the duplicate meta descriptions, and the five missing service pages, then the typos, the schema markup, and the titles, then the llms.txt file and the supporting guides. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Ireland results were collected via Bright Data SERP API on 6 November 2026, market Ireland. The dental clinic cork and invisalign cork searches first returned HTTP 502 with no results, then dental clinic cork succeeded on the first retry and invisalign cork on the second retry the same day; the other 8 searches returned ok on the first run. Only one structured map pack was returned in the whole run, for emergency dentist cork, with 6 entries. The brand search returned a knowledge panel for Haly Dental Care at 4.5 with 76 reviews. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overviews were returned for 7 of the 10 searches, and Haly is named in 0 of 7; live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Haly Dental Care. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review count, staff count, and Haly Dental Care pricing.
