COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How shoppers find DASH Water on Google and in AI answers

We checked your website, your Google rankings, and what Google, Gemini and Bing AI answers say. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
DASH Water
London, e-commerce

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 November 2026

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Reviews and reputation	STRONG	Trustpilot search results on 4 November 2026 showed 4.8, with review counts differing by regional page. No single count is claimed without its source and date.
Google website rankings	MIXED	DASH is #2 for flavoured sparkling water uk and for infused sparkling water, both through the flavoured collection page. It does not appear as a direct result in the summary top 9 or 10 for the other 8 searches in this run.
AI visibility in search	PARTIAL	Google AI Overviews named DASH in 6 of 6 questions. Gemini named DASH in 5 of 6. Bing AI Mode named DASH in 2 of 6, both DASH-specific questions. See section 3 for the method notes.
Page structure	STRONG	Every one of the 12 URLs audited has exactly 1 main heading. That is a strength to keep.
Duplicate pages	FIX	Three URLs return identical content to another page, so 12 URLs audited are only 9 unique content sets.
Business details	WATCH	Only Organization schema was found on audited pages, except homepage SearchAction and WebSite. No Product or FAQ schema was found in the audited set.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed in this draft.

Biggest issue: DASH wins only where the search matches its flavoured collection page exactly. Broader searches are won by supermarkets, retailers, and other drinks brands, and the subscription page does not appear as a direct result for subscription searches in this run.

Quickest win: Fix the duplicate pages. Redirect or remove the duplicate URLs, or give each a genuinely different page, so Google does not have to choose between identical pages.

2 Where you rank on Google today

Google UK, Bright Data SERP API, 4 November 2026. Direct domain results only. Google redirect entries hide their final destination, so they are not named as competitors here.

SEARCH	WEBSITE	PAGE GOOGLE SHOWS	WHO IS AHEAD IN DIRECT RESULTS
flavoured sparkling water uk	#2	Flavoured collection page	Tesco
sparkling water uk	Not in summary top 9	None	Aspris, You Well
infused sparkling water	#2	Flavoured collection page	Aqua Libra
healthy soft drinks uk	Not in summary top 8	None	The Three Drinkers, Planet Organic
sugar free soft drinks uk	Not in summary top 10	None	Tesco, JL Brooks
no sugar sparkling water	Not in summary top 8	None	Reddit, Amazon UK
dash water	Not as a direct result in summary top 9	Products appear in Google redirect entries	Amazon UK, Craft Drink
buy sparkling water online uk	Not in summary top 10	None	Amazon UK, Southdowns Water
sparkling water subscription uk	Not in summary top 9	None	Aqua Amore, Aqua Plus UK
flavoured water uk	Not in summary top 8	None	Marks and Spencer, Snackfully

The pattern is clear: one strong collection page carries the exact category searches, but there is no page in this run that carries the broader buy, subscription, or healthy drink searches.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 4 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in SERP AI Overviews

DASH is named in 4 of the 5 SERP AI Overviews returned: sparkling water uk, no sugar sparkling water, dash water, and healthy soft drinks uk. In each case the overview describes DASH as sparkling spring water infused with wonky real fruit, with no sugar, no sweeteners, and no calories, and for brand search it also notes B Corp status and recyclable cans. That is a real AI strength to keep in plain text on the homepage and flavoured collection page.

Not named in a SERP AI Overview

Flavoured water uk: an AI Overview was returned, but DASH is not named in the overview text seen. Brands named there include Volvic Touch of Fruit, Highland Spring, Essence, Radnor Splash, and Rubicon Spring and Twist.

No SERP AI Overview returned

No AI Overview was returned in the SERP API record for flavoured sparkling water uk, infused sparkling water, sugar free soft drinks uk, buy sparkling water online uk, or sparkling water subscription uk in this run. That does not prove a conversational AI tool would give no answer. Those tools have not been checked yet.

Live AI answers, 4 November 2026

6 questions asked separately in each tool. Google AI Overviews: DASH named in 6 of 6. Gemini: DASH named in 5 of 6, not named for sparkling water subscription. Bing AI Mode: DASH named in 2 of 6, both DASH-specific questions, not named in any of the 4 generic best questions.

Google AI Overviews: 6 of 6

Flavoured sparkling water in the UK: first. Healthy soft drink in the UK: named, not the overall top pick. Sugar free sparkling water in the UK: third, after Aqua Libra and Nix and Kix. Sparkling water subscription in the UK: first, with 20% off noted, no cash price. Where can I buy DASH Water: subject, UK retailers listed. Is DASH Water any good: subject, positive overall, noting subtle flavour for some buyers and a higher price point. Caveat: that browser showed Nigeria as the location and personalised results, so it was not a clean UK-localised snapshot, which matters most for the buy question, which led with Nigeria before the UK list.

Gemini: 5 of 6

Flavoured sparkling water in the UK: first. Healthy soft drink in the UK: first in its zero-sugar category. Sugar free sparkling water in the UK: first. Sparkling water subscription in the UK: not named, framed mainly as at-home carbonation and bottled spring-water delivery. Where can I buy DASH Water: subject, direct plus major UK retailers. Is DASH Water any good: subject, positive for unsweetened hydration with subtle fruit taste. No price range was quoted in any Gemini answer.

Bing AI Mode: 2 of 6, with a method note

Standalone Copilot required sign-in, so it was not used. The accessible no-sign-in Bing AI was Bing AI Mode, whose visible answers were search-result cards, not prose ranked lists, so not named here means not named in the visible cards. DASH was named first for where can I buy DASH Water, and throughout for is DASH Water any good, including a Trustpilot card citing 941 reviews. It was not named in any of the 4 generic best questions, where the visible answers named no competing sparkling-water or soft-drink brands in 3 of them, and only Aqua-Tiamo as a delivery service for subscription. No price range was quoted in any visible Bing answer.

AI answers change day to day. These are answers on 4 November 2026, not verified clinic or company facts, and not a promise of future mentions.

4 What is holding the website back

12 URLs audited on 4 November 2026, 9 unique content sets, 5524 words in unique co
images in unique content, 30 missing alt text in unique content.

Duplicate pages - HIGH

Our story returns the about us content, wholesale returns the contact content, and the
shop collection returns the flavoured collection content, each with the other page as
canonical. That is 12 URLs for 9 pages of content.

Subscription page has no search job - HIGH

The subscription page is 1098 words, but DASH does not appear as a direct result for
sparkling water subscription uk in this run. It needs a clear subscription heading, subs
FAQ, and internal links from the homepage and shop.

Thin shop page - HIGH

The shop collection page is 298 words with a 21 character title. It does not help broad
searches in its current form.

Only Organization schema - MEDIUM

Every audited page has Organization schema only, except the homepage which also h
SearchAction and WebSite. No Product or FAQ schema was found in the audited set.
pages were not individually audited, so product schema is not claimed as missing ther

Titles over and under length - MEDIUM

Three titles are over 60 characters and four are short, including shop at 21 characters,
at 23, and delivery at 29. Start with the shop and flavoured collection pages.

Images without descriptions - MEDIUM

30 of 99 images in unique content have no alt text, including 18 of 21 on the subscripti page, 7 of 18 on the homepage, and 4 of 7 on the about us page.

Sitemap list needs a clean up check - MEDIUM

The cached pages list includes campaign and test style pages. Confirm each one live removing or noindexing any of them. Do not delete on the cached list alone.

Speed - NOT MEASURED

PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed.

What is already working: Every audited page has exactly 1 main heading. All meta descriptions in the auc 138 to 158 characters. Canonical tags are present. The site has an llms.txt file and a clear robots file. The c confirms the help address used for this outreach.

5 How you compare

From SERP direct domain results, 4 November 2026. Google redirect entries are not na
competitors, because their final destination is hidden in the redirect URL.

BRAND OR RETAILER	WHAT THEY DO THAT YOU DO NOT (YET) IN THIS SNAPS
DASH Water (you)	Strong exact category ranking and strong AI Overview naming. Br searches and subscription search are gaps.
Tesco	#1 for flavoured sparkling water uk and for sugar free soft drinks u results.
Aqua Libra	#1 for infused sparkling water in direct results, and named in AI Ov for sparkling water and no sugar sparkling water.
Amazon UK	#1 for dash water store search and for buy sparkling water online direct results, and a retailer channel for DASH itself.
Aqua Amore	#1 for sparkling water subscription uk in direct results.
Marks and Spencer	#1 for flavoured water uk in direct results.

Your reputation and AI naming are already strong. The gap is not what shoppers thir
DASH. It is that only one collection page is carrying search, while supermarkets and
carry the broader searches.

6 Quick wins, in order

- Fix the duplicate pages, keeping the canonical page in each pair.
- Give the subscription page a search job, with a clear heading, FAQ, and internal links.
- Strengthen the shop page, with a useful introduction, category links, and a clear title.
- Fix titles over 60 characters and short titles, starting with shop and flavoured collection

- Add alt text to the 30 images missing it in unique content, starting with subscription and homepage.
- Check Product schema on product pages and add FAQ schema to money pages, after product page checks.
- Confirm the campaign and test style pages in the sitemap list live, then remove or noin that should not be indexed.
- Keep the wonky fruit, no sugar, no sweeteners, no calories, and B Corp facts in plain t homepage and flavoured collection page, so AI tools can keep quoting them accurately
- Add short buyer guides for broader searches, linked from shop and subscription, so DA page that can rank where a collection page does not.

7 What this becomes in 90 days

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content. Baseline tracking of the 10 Google searches and the SERP AI Overview results, dated 4 November 2026.

Days 31 to 60 - Build the answers

Rebuild the subscription and shop pages. Add Product and FAQ schema checks. First buyer guides.

Days 61 to 90 - Get named

Review results, check whether subscription and broader buy searches have moved, a next quarter targets.

What you get every month: AI visibility tracking across the same questions, Google tracking, one to two buyer guides, a technical health check, reviews and listings che plain-English report with a monthly call.

A fair way to start: A 3-month starting term, clear targets agreed up front, then month to m We do not promise number one rankings or guaranteed AI mentions, because nobody hon can. We promise the work, and a report that shows you exactly what it did.

Want the full audit?

This snapshot covered the headlines. Our full audit checks technical, on-page and off-page points, ranks every issue by expected impact, and comes with a 30-day action plan, free with any proposal request.
