COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How patients find Smilecare Dental Clinic on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
Smilecare Dental Clinic
Chiswick, London

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 November 2026

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Brand search	STRONG	Smilecare is #1 for smilecare chiswick on Google UK, through its homepage.
Google website rankings	NEEDS WORK	Smilecare does not appear as a direct result in the summary top 6 to 10 for any of the 8 other successful money searches in this run.
Map results	NEEDS WORK	Smilecare is in none of the map top 3 lists returned for 6 searches, despite a 4.9 SERP knowledge panel rating with 70 reviews.
AI visibility in search	PARTIAL	No AI Overview was returned in the SERP API records for any of the 10 searches in this run. Live Gemini and Bing answers have not been checked yet and are marked as not yet checked.
Page structure	MIXED	Every audited page except the homepage has exactly 1 main heading. The homepage has none. Alt text is clean: 0 of 232 images missing alt text.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed in this report.

Biggest issue: brand search is won, money searches are not

Patients who already know the name find Smilecare first. Patients searching for a dentist, implants, Invisalign, whitening or an emergency dentist in Chiswick do not see Smilecare as a direct result in this run. That is the gap this report is built to close.

What is already strong

Brand search #1, a 4.9 SERP knowledge panel rating with 70 reviews, clean alt text on every audited page, a deep Invisalign page at 3833 words, and an llms.txt file for AI tools. Those strengths are worth keeping while the money pages are fixed.

2 Where you rank on Google today

Google UK, Bright Data SERP API, 4 November 2026. Direct domain results only, unless a redirect entry is stated. Google redirect entries hide their final destination, so they are not counted as direct results.

SEARCH	SMILECARE	WHO LEADS, DIRECT RESULTS
dentist chiswick	UNVERIFIED	Not claimed: SERP API HTTP 502 captcha on first run and on retry
private dentist chiswick	Not direct; redirect entry only at #3	Chiswick Dental, #1; NHS Chiswick Dental and Implant Clinic, #2
dental implants chiswick	Not in top 6	Chiswick Dental, #1; NHS Chiswick Dental and Implant Clinic, #2
invisalign chiswick	Not in top 10	Dentist W4, #1; Krystal Dental, #2
teeth whitening chiswick	Not in top 10	Chiswick Dental, #1; White Dental Rooms, #2
emergency dentist chiswick	Not in top 10	Dentist W4, #1; Chiswick Dental Care, #2
cosmetic dentist chiswick	Not in top 9	Banning Dental Group, #1; Chiswick Dental, #2
dentist west london	Not in top 9	NHS, #1; Dentistry.co.uk, #2
smilecare chiswick	#1, homepage	Companies House, #2
dental veneers chiswick	Not in top 9	Dental Schools Council, #1; NHS England Digital, #2

The pattern is clear

One strong brand result carries the name search, but no money page carries a treatment search. The veneers search in this run is led by national and educational pages, not by a local

practice, which shows why a clearly Chiswick-specific veneers page is needed, not just a generic veneers page.

3 What AI says in search results

SERP AI Overview data only, Bright Data SERP API, 4 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

No SERP AI Overview returned

No AI Overview key was returned in the SERP API records for any of the 10 searches in this run. That does not prove a conversational AI tool would give no answer. Those tools have not been checked yet, and no Gemini or Bing result is claimed in this report.

A positive AI-readability signal, with a limit

An llms.txt file is present, generated by Yoast SEO, and meant for consumption by LLMs. It lists only a subset of pages: 5 pages, 5 team pages, 5 treatments and 4 treatment categories in the rendering seen. It is not claimed to cover the whole site for AI tools.

Note for the owner: live Gemini, Bing and Google AI Overview browser checks are not part of this audit, per the task instruction. They must be run separately before any final claim about conversational AI answers is made.

4 What is holding the website back

8 URLs audited on 4 November 2026, 8312 words, 232 images, 0 missing alt text.

Homepage has no main heading - HIGH

The homepage has 0 H1s, while every other audited page has exactly 1. Give the homepage a clear H1 matching what Chiswick patients search for.

Meta descriptions missing on 7 of 8 pages - HIGH

Only the homepage has a meta description, and it is 227 characters, over the 120 to 160 range used by the audit tool. Every other audited page has none, so search results show an auto-chosen snippet instead of a controlled summary.

Titles over 60 characters - MEDIUM

6 of 8 titles run over 60 characters: about-us 64, contact-us 66, invisalign 67, emergencies 67, dental-implants 71, teeth-whitening 71. Only the homepage at 53 and fees at 60 are within range in the audited set.

Money pages do not match Chiswick searches - HIGH

Implants 882 words, whitening 585 words, emergencies 597 words, and invisalign 3833 words, yet none appears as a direct result for its Chiswick search in this run. Titles, headings and opening paragraphs need a Chiswick job, plus internal links from the homepage and treatments page.

Map packs do not include Smilecare - HIGH

Smilecare is in none of the map top 3 lists returned for 6 searches. The SERP knowledge panel rating is 4.9 with 70 reviews, so the rating itself is not the obvious blocker in this data. Check the Google Business profile for category, address, hours and review presentation, and keep name, address and phone consistent.

Schema is thin for a clinic - MEDIUM

Audited pages carry Organization, WebSite, WebPage, BreadcrumbList and related types. No FAQPage, LocalBusiness or Dentist type was found in the audited set. Add FAQ schema to money pages and a Dentist or LocalBusiness type to clinic pages, after checking the full schema.

Images without descriptions - PASS

0 of 232 images in the audited set are missing alt text. Keep that standard when images change.

Thin contact page - LOW

Contact-us is 374 words. Expand it only after the money pages above, since contact is not a ranking page in this audit.

5 How you compare

From SERP direct domain results and SERP map packs, 4 November 2026. Map figures are SERP map pack figures, not Places API figures.

AREA	SMILECARE	LEADERS IN THIS RUN
Brand search	#1, homepage	Smilecare itself
Implants, Chiswick	Not in top 6	Chiswick Dental; NHS Chiswick Dental and Implant Clinic
Invisalign, Chiswick	Not in top 10	Dentist W4; Krystal Dental
Whitening, Chiswick	Not in top 10	Chiswick Dental; White Dental Rooms
Emergency, Chiswick	Not in top 10	Dentist W4; Chiswick Dental Care
Map packs	Not in any top 3 returned	Banning Dental Group, 5.0 with 1300 reviews; Chiswick Dental and Implant Clinic, 4.7 with 781; White Dental and Cosmetic Rooms, 4.9 with 209
Knowledge panel rating	4.9 with 70 reviews	SERP knowledge panel, brand search, 4 November 2026

Competitor names above are only those named directly in the SERP output. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

6 The fixes, in order

Fixes in the order the fresh data supports. No ranking is promised.

1. Homepage H1

Add one clear H1 to the homepage, matching a Chiswick patient search.

2. Meta descriptions

Write descriptions for the 7 audited pages that have none, and shorten the homepage description from 227 characters to the 120 to 160 range.

3. Shorten long titles

Shorten the 6 titles over 60 characters, starting with implants, whitening, emergencies and invisalign.

4. Give money pages a Chiswick job

Chiswick-specific titles, headings and opening paragraphs for implants, invisalign, whitening, emergencies, cosmetic dentistry and veneers, with internal links from the homepage and treatments page.

5. Map and profile check

Check the Google Business profile for category, address, hours and review presentation, and keep name, address and phone consistent across site and profile.

6. FAQ and clinic schema

Add FAQ schema to money pages and a Dentist or LocalBusiness type to clinic pages, after checking the full schema.

7. Keep alt text clean

Keep the 0 of 232 missing alt text standard when images change.

8. Re-check the failed search

Run a fresh check for "dentist chiswick", which returned HTTP 502 captcha on first run and on retry in this audit, so no position is claimed for it here.

7 What this becomes in 90 days

A shape from the fresh data, not a promise of rankings or AI mentions.

Days 1 to 30 - Fix the foundations

Homepage H1, meta descriptions, long titles, plus baseline tracking of the 10 SERP keywords and the map pack results, dated 4 November 2026, including a fresh check for "dentist chiswick".

Days 31 to 60 - Rebuild the money pages

Implants, invisalign, whitening, emergencies and veneers page rebuilds, FAQ and Dentist schema checks, Google Business profile check.

Days 61 to 90 - Review and set next targets

Review whether money searches and map packs have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, money page work, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these first?

How we did this. We read 8 URLs on 4 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google UK results were collected via Bright Data SERP API on 4 November 2026, market UK. Map figures are SERP map pack figures, and the 4.9 with 70 reviews is a SERP knowledge panel figure, each dated 4 November 2026. Speed: PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; no AI Overview was returned for any search in this run, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Smilecare Dental Clinic. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, "dentist chiswick" ranking, Places API ratings, and sitemap counts for post, team and treatmentcategory sitemaps.
