COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How renters and landlords find Dwell Chicago on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
Dwell Chicago
Chicago, real estate brokerage

Prepared by
xylvar
SEO and AI visibility

Date
4 November 2026

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	WEAK	Dwell is #2 for chicago apartment broker and #1 for dwell chicago, through the landlord services page. It does not appear as a direct result in the summary top 8 or 9 for the other 8 searches in this run.
AI visibility in search	PARTIAL	SERP AI Overviews were returned for 8 of 10 searches. Dwell is named in only 1 of those 8, for chicago apartment broker. Live Gemini and Bing answers have not been checked yet.
Page structure	FIX	11 of 12 audited pages have more than 1 main heading, because the site header is itself a heading on most pages. Only the custom search page has exactly 1.
Meta descriptions	FIX	10 of 12 audited pages have no meta description at all. Only the homepage and the virtual tours page have one.
Business details	WATCH	LocalBusiness and WebSite schema are present on all 12 audited pages. No FAQ schema and no listing schema were found in the audited set.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026. No score is claimed in this report.

Biggest issue: Dwell wins only where the search names it, or the broker role

Broader renter searches are won by marketplaces, listing platforms, and other Chicago locators. The neighbourhood pages exist, but they are thin, have no meta description, and do not appear as direct results for the matching neighbourhood rental searches in this run.

2 Where you rank on Google today

Google US, Bright Data SERP API, 4 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	DWELL	WHO IS AHEAD
chicago apartment search	Not in top 9	Oak Park Apartments #1, Hotspot Rentals #2
apartments for rent chicago	Not in top 9	Your Cross Street #1, Urban Abodes #2
chicago apartment finder	Not in top 9	Chicago Apartment Finders #1, ApartmentFinder #2
chicago rental apartments	Not in top 9	Luxury Living Chicago Apartments #1, Peak Properties #2
chicago landlord services	Not in top 9	No clear direct-domain landlord service leader in this summary
apartments for rent river north chicago	Not in top 9	River North Park #1, Downtown Apartment Collective #2
apartments for rent south loop chicago	Not in top 9	Zillow #1, Apartments.com #2
apartments for rent gold coast chicago	Not in top 9	Zillow #1, Apartments.com #2
chicago apartment broker	#2, homepage	Reddit discussion thread #1, not a brokerage
dwell chicago	#1, landlord services page	Dwelle Properties #2, a similarly named business

Brand search warning

For dwell chicago, the #1 direct result is the landlord services page, not the homepage. That page works as the brand landing page in this run, but it is not the page a new renter would expect first. The homepage title is also over 60 characters, at 62, and the landlord services title is 89.

Map packs

A map pack was returned for 4 of 10 searches. Dwell is not in any map pack returned in this run, so no map position is claimed. Map leaders in this run include Hotspot Apartment Rentals, AptAmigo, Smart City Apartment Locator, Downtown Apartment Collective, and River North Park Apartments, with ratings and review counts from the SERP API, not from a Places API check.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 4 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in a SERP AI Overview: 1 of 8

Chicago apartment broker: Dwell Chicago is named, listed with apartment search and landlord services spanning Chicago neighbourhoods, alongside AptAmigo, Smart City Apartment Locating, Fulton Grace Realty, The Apartment Source, Domu, and Chicago Apartment Finders.

Not named in a SERP AI Overview: 7 of 8

Chicago apartment search, apartments for rent chicago, chicago apartment finder, chicago rental apartments, apartments for rent river north chicago, apartments for rent south loop chicago, and apartments for rent gold coast chicago. The platforms named in those overviews are mainly ApartmentFinder, Apartments.com, Zillow, Domu, and Redfin.

No SERP AI Overview returned

No AI Overview was returned in the SERP API record for chicago landlord services or for dwell chicago in this run. That does not prove a conversational AI tool would give no answer. Those tools have not been checked yet.

AI answers change day to day. These are SERP AI Overview results on 4 November 2026, not verified company facts, and not a promise of future mentions.

4 What is holding the website back

12 URLs audited on 4 November 2026, 1,604 words in total, 86 images in total, 37 missing alt text in total.

Too many main headings - HIGH

11 of 12 pages have more than 1 H1. The site header "DWELL CHICAGO" is itself an H1 on most pages, plus the page title H1, and sometimes a third. Only the custom search page has exactly 1 H1. Keep one H1 per page, the page title.

No meta descriptions - HIGH

10 of 12 pages have no meta description. Only the homepage, at 136 characters, and the virtual tours page, at 95 characters, have one. Start with the landlord services, agents, and neighbourhood pages.

Thin pages - HIGH

Homepage 98 words, apply 58 words, custom search 96 words, featured listings 99 words, gold coast 99 words, new east side 101 words. The longest audited page, agents, is 228 words. A renter or landlord gets almost no useful text before the form or the listings.

Images without descriptions - MEDIUM

37 of 86 images in the audited set have no alt text, worst on the virtual tours page at 24 of 25, then apply at 2 of 2, and homepage at 2 of 3.

Titles to fix - MEDIUM

Landlord services title is 89 characters and homepage is 62, both over 60. Seven titles are under 30 characters, including agents at 22, gold coast at 26, south loop at 26, and river north at 27.

Sitemap bloat - MEDIUM

The sitemap lists 150 URLs, including 39 gallery pages and 17 facebook and instagram contact pages, with lastmods from 2016 to 2026. Check each gallery and social contact page live first, then remove or noindex any that should not be indexed. Do not delete them on the basis of the sitemap list alone.

5 How you compare

From SERP direct domain results, 4 November 2026. Google redirect entries are not named as competitors.

Marketplaces win the broad searches

Zillow and Apartments.com lead the South Loop and Gold Coast rental searches. ApartmentFinder leads with Chicago Apartment Finders for apartment finder searches. Those platforms have thousands of listings and neighbourhood guides, which a thin brokerage page cannot outrank on listings alone.

Other Chicago locators win the broker searches

Hotspot Rentals, AptAmigo, Smart City Apartment Locator, Downtown Apartment Collective, and Chicago Apartment Finders appear ahead of Dwell in broad and map results in this run. Dwell's edge in this data is narrow: it is #2 for chicago apartment broker and named in the SERP AI Overview for that search.

Landlord services is a gap, and an opening

Dwell does not appear in the summary top 9 for chicago landlord services, even though its landlord services page is the #1 result for its own brand search. That page is 171 words, has no meta description, has 3 H1s, and has an 89 character title. Fixing that one page is the fastest landlord lead win in this audit.

6 Fixes in order

No ranking or AI mention is promised. These are the fixes the fresh data supports, in order.

- Fix the H1 pattern sitewide, so each page has one H1, the page title.
- Write meta descriptions for the 10 audited pages that have none, starting with landlord services, agents, and neighbourhood pages.
- Rebuild the neighbourhood pages, South Loop, River North, Gold Coast and New East Side, with a useful introduction, building types, and links to the custom search form.
- Fix titles over 60 characters and short titles, starting with landlord services and homepage.
- Add alt text to the 37 images missing it, starting with virtual tours, apply, and homepage.
- Clean the sitemap list, checking gallery and social contact pages live first, then removing or noindexing any that should not be indexed.
- Add FAQ schema to money pages and listing schema where listings are shown, after checking listing pages individually.
- Keep the broker wording in clear, plain text on the homepage and landlord services page, so AI tools can keep quoting it accurately.
- Add short, plain guides for broader searches, for example how apartment search works in Chicago, and how landlord tenant finding works, linked from the homepage and custom search.

7 What this becomes in 90 days

- Days 1 to 30: fixes 1 to 5 above, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 4 November 2026.
- Days 31 to 60: neighbourhood page rebuilds, landlord services page rebuild, schema checks on listing and money pages, first two renter and landlord guides.
- Days 61 to 90: review results, check whether the broader and neighbourhood searches have moved, and set next quarter targets.

How we did this. We read 12 URLs on dwellchicago.com on 4 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt, sitemap, and llms.txt check). Google US results were collected via Bright Data SERP API on 4 November 2026, market US. Map pack data came from the SERP API where returned. Speed: PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Dwell Chicago. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, listing page schema and counts, a single review rating or count for Dwell, map pack positions for Dwell, and team size as supplied in the brief.
