COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How people find Windsor Park Dental on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 6 November 2026, and the fixes worth making first.

Prepared for
Windsor Park Dental
Winnipeg, dental clinic

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
6 November 2026

1 The short version

A fresh snapshot, 6 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	BRAND ONLY	No #1 in any search. The only direct results are the brand search at #1 and #2, through inner pages, not the homepage. No direct result in the summary top 8 or 9 for any of the 9 money searches.
Google map packs	NOT IN TOP 3	Windsor Park is in none of the map top 3s for the 8 money searches that returned a pack. The brand map pack lists the Winnipeg practice second, 4.9 with 667 reviews, behind a Regina entry at 4.9 with 504.
AI visibility in search	NOT NAMED	An AI Overview was returned for 2 of 10 searches, and Windsor Park is named in 0 of 2. Live Gemini and Bing answers have not been checked yet.
Page titles	MOSTLY FINE	10 of 12 audited titles are within 60 characters. Cleanings and prevention at 65 and cosmetic dentistry at 61 are the two over.
Page structure	WATCH	The homepage has no main heading at all, the contact page has two, and 6 of 23 images are missing alt text. Four audited pages run under 650 words.
Business details	STRONG	Your contact email info@windsorparkdental.com is verified on the site, every page carries Dentist schema, and the Winnipeg map entry shows a 4.9 rating with 667 reviews.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed in this report.

Biggest strength: people who already know the name find you, and the reviews back it up

The brand search returns your own pages at #1 and #2, and the brand map pack lists the Winnipeg practice at 4.9 with 667 reviews. The site is a real practice site, 12,377 words across the 12 audited pages, with Dentist schema on every page and a verified contact email.

Biggest issue: the website does not rank for the searches that bring new patients

No direct result appears for dentist winnipeg, dental clinic winnipeg, family dentist winnipeg, teeth whitening winnipeg, dental implants winnipeg, invisalign winnipeg, emergency dentist winnipeg, cosmetic dentist winnipeg, or root canal winnipeg. The pages that do rank are other Winnipeg clinics, not your service pages, and there is no Invisalign page and no dedicated family dentistry page on the site at all.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 6 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	WINDSOR PARK	WHO IS AHEAD
dentist winnipeg	Not in top 9	cholakisdental.com #1, plessisdental.ca #2
dental clinic winnipeg	Not in top 9	vistaplacedental.net #1, reflectionsdentalhealth.ca #2
family dentist winnipeg	Not in top 9	stjohnsfamilydental.ca #1, myfamilydentist.ca #2
teeth whitening winnipeg	Not in top 8	lumidental.ca #1, artisticsmiles.ca #2
dental implants winnipeg	Not in top 8	winnipegperiodontist.com #1, ekdentalgroup.com #2
invisalign winnipeg	Not in top 8	rykiss.com #1, sturgeoncreekdental.com #2
emergency dentist winnipeg	Not in top 8	plessisdental.ca #1, edgedental.ca #2
cosmetic dentist winnipeg	Not in top 9	poloparkdental.ca #1, norwooddental.ca #2
root canal winnipeg	Not in top 9	freshdental.ca #1, rootcanalcanada.com #2
windsor park dental	#1 and #2, inner pages	No direct result ahead; homepage not in top 9

The brand search points at inner pages, not the homepage

For windsor park dental, the direct results are the smile-gallery other-procedures page at #1 and the meet Dr. Zachary Goldberg page at #2. The homepage does not appear as a direct

result in the brand summary top 9. That is unusual for a practice of this size, and worth checking before anything else.

Two Regina titles we cannot attribute

The titles "Faqs - Windsor Park Dental | Regina, SK" at #4 and "About Windsor Park Dental | Dental Clinic Regina" at #9 appear as Google redirect entries in the brand search. Their destinations are hidden in the redirect URLs, so they cannot be confirmed as Windsor Park pages from this data, and they are not counted as rankings. Do not read them as a win or a loss.

Method note: the brand search first returned HTTP 502 with no results on 6 November 2026, then 502 again on the first retry, and succeeded on a second retry the same day. Second-retry results are used. The other 9 searches returned ok on the first run. Summary top counts are 8 or 9 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 6 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

Named in 0 of the 2 overviews returned

An AI Overview was returned for 2 of 10 searches. The emergency dentist winnipeg overview lists same-day emergency clinics, Assiniboine Dental Group, Seven Oaks Dental Centre, and Greenwoods Dental, with links to their emergency pages. The cosmetic dentist winnipeg overview names Lumi Dental, Renew Dental, Cholakis Dental Group, and Assiniboine Dental Group. Windsor Park is named in neither overview.

What that does not prove

Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Your llms.txt is missing, and your robots file blocks most crawlers

llms.txt returns HTTP 404, so there is no clean source file for AI tools to quote. Your robots.txt also blocks all general crawlers, allowing only a named list of bots. That may be keeping AI tools from reading the site at all. Fixing these two files is the cheapest AI visibility step in this report.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 6 November 2026, 12,377 words, 23 images, 6 missing alt text.

Money searches show no Windsor Park page - HIGH

No direct result for any of the 9 money searches. The service pages exist, dental implants, Zoom whitening, cosmetic dentistry, root canal therapy, dental emergencies, orthodontics, cleanings, and pediatric dentistry, with real content, 617 to 1,292 words each, but none of them is the ranked answer for its own search. The gap is authority and visibility, not missing pages, except for Invisalign and family dentistry, where no dedicated page exists at all.

The homepage has no main heading - HIGH

The homepage has 0 H1 tags, confirmed by a direct fetch of the page on 6 November 2026. The contact page has 2 H1s, "Contact" and "Contact Our Winnipeg Dental Office". Every other audited page has exactly 1. Give the homepage one clear main heading that says what the practice is and where it is.

No Invisalign page and no family dentistry page - MEDIUM

The sitemap lists 151 URLs and not one of them is an Invisalign page, and none is a dedicated family dentistry page. Orthodontics is the closest page to an Invisalign search, and cleanings and prevention is the closest to a family dentist search. Both searches are won by other Winnipeg clinics with dedicated pages.

Two meta descriptions run long, two run short - LOW

The homepage meta is 163 characters and the our practice meta is 163, both over 160. Orthodontics at 88 and pediatric dentistry at 99 are short, and emergency at 117 sits just under the usual 120 to 160 range. The other 7 metas are in the 138 to 158 range.

Alt text gaps - LOW

6 of 23 images are missing alt text. The homepage is 5 of 14 and the our dentists page is 1 of 1. The other 10 audited pages have no missing alt text. Alt text is the cheapest fix in this report.

Schema is one template everywhere - LOW

Every audited page carries the same Dentist, GeoCoordinates, OpeningHoursSpecification, and PostalAddress markup. No FAQPage, Service, or LocalBusiness type was found on any audited page, even though the service pages answer real patient questions.

What is clean

10 of 12 titles are within 60 characters. Every canonical tag points to its own live URL. The sitemap lists 151 URLs with the homepage updated 6 November 2026. Your contact email info@windsorparkdental.com is verified on the site, on the homepage and the contact page.

5 How you compare

From SERP direct domain results and map packs, 6 November 2026. Google redirect entries are not named as competitors.

Where Windsor Park leads

No direct organic #1 in this run. In the brand search, your own pages are #1 and #2. In the brand map pack, the Winnipeg practice is #2 at 4.9 with 667 reviews, behind a Regina entry at 4.9 with 504.

Where others lead

Cholakis Dental Group leads dentist winnipeg direct results. Vista Place Dental leads dental clinic winnipeg. St. John's Family Dental leads family dentist winnipeg. Lumi Dental leads teeth whitening. Sterling Periodontics leads dental implants. Rykiss Orthodontics leads invisalign and its map pack. Plessis Dental leads emergency dentist. Polo Park Dental leads cosmetic dentist. Fresh Dental leads root canal. Assiniboine Dental Group leads most map packs, #1 in 4 of the 8 packs returned.

Reviews and listings

SERP brand map pack: Windsor Park Dental 4.9 with 504 reviews, address Regina, SK, #1, and Windsor Park Dental 4.9 with 667 reviews, address Winnipeg, MB, #2. No knowledge panel block was returned in any SERP record, so no knowledge panel rating is claimed. No Places API rating was returned in this run, so no Places rating is claimed. Windsor Park is in none of the structured map top 3s for the 8 money searches that returned a pack; no map pack was returned for root canal winnipeg.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Give the homepage one main heading

Add a single H1 to the homepage that says the practice name, the service, and Winnipeg, and cut the contact page back to one H1. This is the clearest on-page gap in the audit.

2. Build an Invisalign page and a family dentistry page

Two of the money searches have no page to rank at all. Build one dedicated page for each, with the exact search phrase in the title, the first heading, and the opening paragraph.

3. Open the site to AI and search crawlers

Add an llms.txt file that describes the practice, its services, and its pages, and check the robots.txt rule that blocks all general crawlers. Right now only named bots are allowed in.

4. Fix the four meta descriptions

Shorten the homepage and our practice metas from 163 characters to one plain sentence each, and lengthen orthodontics at 88 and pediatric dentistry at 99 into the 120 to 160 range.

5. Add alt text to the 6 images

Start with the homepage at 5 of 14 and the our dentists page at 1 of 1. This needs no new content, only descriptions of the images already on the pages.

6. Aim the service pages at their searches

The service pages are real pages with real content, but none ranks for its own search. Add the exact search phrase to the first heading and opening paragraph of each service page, and build supporting guides that link back to them.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 6 November 2026.

Days 31 to 60 - Rebuild the service pages

The Invisalign and family dentistry pages, the title and meta fixes, and the first buyer guide for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether the money searches, map packs, and AI overviews have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with the homepage heading, the two missing service pages, and the crawler files, then the meta descriptions and alt text, then the service page targeting, then the supporting guides. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 6 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Canada results were collected via Bright Data SERP API on 6 November 2026, market Canada. The brand search first returned HTTP 502 with no results, then 502 again on the first retry, and succeeded on a second retry the same day; the other 9 searches returned ok on the first run. A structured map pack was returned for 8 of 9 money searches, and Windsor Park is in the top 3 for none of them; no map pack was returned for root canal winnipeg. The brand map pack lists Windsor Park Dental twice, Regina 4.9 with 504 reviews first and Winnipeg 4.9 with 667 second. Speed: PageSpeed Insights returned HTTP 429 on 6 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; an overview was returned for 2 of 10 searches, Windsor Park named in 0 of 2, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Windsor Park Dental. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, and Windsor Park Dental pricing.
