COMPLIMENTARY SEARCH AND AI VISIBILITY REPORT

How buyers find Balcaen and Sons on Google and in AI answers

We checked your website, your Google rankings, and what Google AI says in search results. Here is what we found on 4 November 2026, and the fixes worth making first.

Prepared for
Balcaen and Sons
Winnipeg, plumbing and HVAC

Prepared by
xylvar
SEO and AI visibility for growing companies

Date
4 November 2

1 The short version

A fresh snapshot, 4 November 2026. Public pages only, no logins. No email has been sent about this report yet.

AREA	VERDICT	WHAT IT MEANS
Google website rankings	FIX	Only 1 direct win in the summary top 8 to 9: #2 for furnace repair winnipeg. No direct result for the other 9 searches, including your own brand search.
Google map packs	FIX	Balcaen is in none of the structured map top 3s returned in this run, for money searches or brand search.
AI visibility in search	NOT NAMED	A SERP AI Overview was returned for only 1 of 10 searches, emergency plumber winnipeg, and Balcaen is not named in it. Live Gemini and Bing answers have not been checked yet.
Page titles	FIX	All 12 audited titles are over 60 characters, 75 to 110 characters, and every one repeats the full business name.
Page structure	MOSTLY CLEAN	11 of 12 pages have exactly 1 main heading, all 12 have a meta description, and only 14 of 109 images are missing alt text.
Business details	WATCH	Schema found by the audit tool is homepage WebSite only. Llms.txt is present, a real AI strength, with a Wix MCP endpoint for AI agents.
Speed	NOT MEASURED	PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed in this report.

Biggest issue: one win, nine gaps

Your furnace repair page ranks #2, which proves the site can rank. The other money pages do not appear as direct results in the summary top 8 to 9, and your own brand search does not surface your homepage as a direct result. The clearest site-wide factor that fits that pattern is

titles: every audited title is over 60 characters and repeats the full business name, crowding out the money phrase.

Biggest strength: a clean, complete page set

Headings, meta descriptions and alt text are mostly clean, llms.txt is present, and your contact email service@balcaenandsons.ca is found on all 12 audited pages. The foundations are there, the search-facing titles and brand clarity are the gap.

2 Where you rank on Google today

Google Canada, Bright Data SERP API, 4 November 2026. Direct-domain results only. Google redirect entries are not named as competitors, because their final destination is hidden in the redirect URL.

SEARCH	BALCAEN AND SONS	WHO IS AHEAD
plumber winnipeg	Not in top 7	Facebook group post #1, deltaplumbersinc.com #2
plumbing services winnipeg	Not in top 8 as a direct result	reliancehomecomfort.com #1, cleanline.ca #2. Balcaen appears only as a Google redirect entry at #7, not counted
emergency plumber winnipeg	Not in top 9	phoenixplumbingwinnipeg.com #1, plumbing.ca #2
furnace repair winnipeg	#2 through / furnace-repair-service	Reddit r/Winnipeg thread #1
furnace installation winnipeg	Not in top 9	Summary top entries are generic Winnipeg pages, Wikipedia #1 and winnipeg.ca #2, a failed intent match, not HVAC pages
boiler repair winnipeg	Not in top 8	parsonsplumbing.ca #1, enercare.ca #2
air conditioning winnipeg	Not in top 9	reliancehomecomfort.com #1, provincialheating.ca #2
drain cleaning winnipeg	Not in top 9	thesuperplumber.com #1, yellowpages.ca #2
water heater repair winnipeg	Not in top 8	alwaysopen.ca #1, sarte.ca #2

balcaen and sons	Not in top 9 as a direct result	bestplumbers.com directory #1, facebook.com #2

Brand warning, stated plainly

For your own name, the summary top 9 does not include your homepage as a direct result. The top direct results are a directory listing and a Facebook page. Do not let a directory page be the first direct answer for your own name: make the homepage the obvious brand answer, with the full business name, Winnipeg service area, phone and email in plain text.

Method note: plumber winnipeg and drain cleaning winnipeg first returned HTTP 502 with a captcha error on 4 November 2026, then succeeded on retry the same day. Retry results are used. Summary top counts are 7 to 9 per search, because that is how many organic rows the SERP summary returned.

3 What AI says in search results

Google AI Overview data captured through the SERP API, 4 November 2026. Live Gemini and Bing answers have not been checked yet. AI answers change day to day.

One overview returned, Balcaen not named in it

A top-level AI Overview was returned for only 1 of 10 searches: emergency plumber winnipeg. It names The Pleasant Plumber Inc., Shorty's Plumbing, Heating & Air Conditioning, Clean Line Sewer & Drain, Mr. Rooter Plumbing of Winnipeg, Brown's Plumbing & Heating, and Rocket Rooter Inc., with 24/7 emergency framing. Balcaen is not named in that overview text.

What that does not prove

No AI Overview key was returned for the other 9 searches. Related questions in those records are follow-up questions, not overview answers, and are not counted here. Absence in the SERP API does not prove a conversational AI tool would give no answer. Live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, and no conversational AI result is claimed in this report.

Why llms.txt still matters here

Your llms.txt is present and describes a Winnipeg plumbing, heating, cooling and electrical company with 24/7 emergency service, and it points AI agents to a Wix MCP endpoint for live site content. That is a real strength most competitors in this run do not show. Keep it accurate and current, so AI tools have a clean source to quote when the overview does appear.

Note for the owner: live Gemini, Bing, and Google AI Overview conversational checks were not done in this task, per task instruction, and no conversational AI result is claimed in this report.

4 What is holding the website back

12 URLs audited on 4 November 2026, 9,349 words, 109 images, 14 missing alt text.

Titles, site-wide - HIGH

All 12 audited titles are over 60 characters: homepage 97, plumbing 101, heating 86, air conditioning 102, furnace repair 82, furnace installation 88, boiler service repair 82, boiler installations 110, water heater repair 84, drain cleaning 82, heat pump 75, contact 80. Rewrite each money page title to one clear search phrase plus the brand once.

Brand clarity - HIGH

Your brand search does not surface your homepage as a direct result, and your website domain, donerightredandwhite.com, differs from your email domain, balcaenandsons.ca. That mismatch is not a fault on its own, but it makes brand clarity work harder: use the full business name consistently on the homepage and contact page, with phone (204) 475-1506 from the SERP knowledge panel and your Winnipeg service area in plain text.

Map absence - HIGH

Balcaen is in none of the structured map top 3s in this run. Map leaders repeat across packs, including The Pleasant Plumber Inc., Brown's Plumbing & Heating, Shorty's, Furnasman, and Reliance Superior, with SERP map ratings from 4.7 to 5.0 and review counts from 121 to 6,100. Your SERP knowledge panel figure is 4.3 with 289 reviews, named here with its source, not as a Places rating.

Headings - LOW

11 of 12 pages have exactly 1 H1. Only water heater repair has 2 H1s. Fix that one duplication and the heading set is clean.

Meta descriptions - CLEAN

Present on all 12 pages, 139 to 160 characters, none missing, none over 160. Keep this standard when titles are rewritten.

Missing schema - MEDIUM

Schema found by the audit tool is homepage WebSite only. No LocalBusiness, Service, FAQPage or AggregateRating type was found in the audited set by the tool. Add LocalBusiness and Service schema to the money pages, starting with furnace repair, which already ranks.

Alt text - LOW

14 of 109 images missing alt text. Worst counts: plumbing 2 of 5, heating 2 of 6, air conditioning 2 of 5. Heat pump has 0 missing.

Thin pages - LOW

Boiler installations 526 words, homepage 546 words, furnace installation 600 words, contact 602 words. These are the shortest pages in the set, and furnace installation is also a search with no direct result in this run.

What is clean

Every audited canonical tag points to the audited URL itself. Every audited page has a mobile viewport. The pages sitemap lists 23 URLs, all lastmod 2026-06-26, and robots.txt allows general crawlers with a sitemap line present.

5 How you compare

From SERP direct domain results and map packs, 4 November 2026. Google redirect entries are not named as competitors.

Where Balcaen leads

One direct organic win: #2 for furnace repair winnipeg through /furnace-repair-service, behind a Reddit thread. No map top 3 in this run, and no SERP AI Overview naming Balcaen.

Where others lead

Reliance Home Comfort leads plumbing services and air conditioning direct results. Provincial Heating & Cooling is #2 for air conditioning. Parsons Plumbing leads boiler repair direct results. Furnasman, Reliance Superior, Shorty's, Brown's and The Pleasant Plumber recur across map packs. Clean Line leads drain-related map results at #2 in the drain cleaning pack, behind Reliable Drain Cleaning.

Reviews and listings

SERP brand knowledge panel: Balcaen & Sons Ltd, rating 4.3 with 289 reviews, phone (204) 475-1506. No Places API rating was returned in this run, so no Places rating is claimed. Balcaen is in none of the 9 structured map top 3s for money searches, and no map pack was returned for the brand search.

6 What to fix first

In the order the fresh data supports. No ranking or AI mention is promised.

1. Fix titles site-wide

Rewrite all 12 audited titles, starting with the money pages, to one search phrase plus the brand once. Start with boiler installations at 110 characters and air conditioning at 102.

2. Fix brand clarity

Make the homepage the obvious direct answer for Balcaen and Sons, with the full name, Winnipeg service area, phone and email in plain text, so a directory page is not the first direct brand result.

3. Add schema to money pages

Add LocalBusiness and Service schema, starting with furnace repair, which already ranks #2, then plumbing, heating, boiler and drain pages.

4. Fix the one heading duplication

Water heater repair has 2 H1s. Reduce it to 1 and the heading set is clean.

5. Strengthen the thinnest money pages

Boiler installations, furnace installation and the homepage, with buyer-focused content that matches the searches where no direct result appears yet.

6. Work on map visibility

Map leaders in this run carry SERP map ratings from 4.7 to 5.0 with large review counts. Keep review gathering steady and make sure the listing name, address and phone match the website exactly.

7 What this becomes in 90 days

From fresh data, not a promise.

Days 1 to 30 - Fix the foundations

All quick wins above that do not need new content, plus baseline tracking of the 10 SERP keywords and the SERP AI Overview results, dated 4 November 2026.

Days 31 to 60 - Rebuild for money searches

Title, schema and brand clarity rebuilds, and first two buyer guides for the searches where no direct result appears yet.

Days 61 to 90 - Review results

Check whether money searches and map packs have moved, and set next quarter targets. Do not promise a ranking or an AI mention.

What you get every month

AI visibility tracking across the same questions, Google rankings tracking, one to two buyer guides, a technical health check, reviews and listings checks, and a plain-English report with a monthly call.

Want us to fix these, in order?

Start with titles, brand clarity, and schema, then money pages for the searches where no direct result appears yet. The full findings above are the starting point, not a sales pitch.

Talk through the fixes

Or write to us: **info@xylvar.top** - We reply within 2 business days.

How we did this. We read 12 URLs on 4 November 2026 (titles, headings, word counts, code markup, image descriptions, robots.txt and llms.txt). Google Canada results were collected via Bright Data SERP API on 4 November 2026, market Canada. Plumber winnipeg and drain cleaning winnipeg first returned HTTP 502 with a captcha error, then succeeded on retry the same day. A structured map pack was returned for 9 of 10 searches, and Balcaen is in none of the top 3s; no map pack was returned for the brand search. Speed: PageSpeed Insights returned HTTP 429 on 4 November 2026, so no score is claimed. AI Overview data came from the SERP API where present; a top-level overview was returned for only 1 of 10 searches, and Balcaen is not named in it, and live Gemini and Bing answers have not been checked yet and are marked as not yet checked in this report. Public information only, no logins. This report is complimentary and confidential to Balcaen and Sons. Unverified in this snapshot: PageSpeed score, Gemini and Bing answers, a Places rating, a single verified review rating, staff count, and Balcaen and Sons pricing.
